YESTERDAY Gabriel D'Annunzio published a self-analysis entitled "why I fascinated women?" he says: "They're bewitched by the divine spirit firing my soul. When this sublime force fills me, my face blazes with love, and I am transformed into an object of admiration, I beckon to women and they come to me."

MARVELOUSLY ugly, completely bald, physically feeble, spiritually a giant, it is pleasant to know that D'Annunzio is happy, in old age, and that with genius, as with the common man, there is no fool like an old one.

JAMES T. SIMPSON of Chicago, head of the Marshall Field Co., sailing for Europe, on Saturday, was cheerful about American business conditions. Nothing short of a national catastrophe could affect 'our unusually sound and solid prosperity."

Mr. Simpson, whose wholesale department store deals with merchants in every corner of the United States, knows as much as any man about real conditions in this country.

WHAT is it that promotes divorce? The Vassar institute of euthenics is told that marrying outside of your own race, religion, is responsible for 40 per cent of divorces. Alcohol has caused 25 per cent of divorces. The modern kind ought to increase the percentage. Interference by "in-laws" caused many divorces.

The cause of all divorce is human imperfection. Men are not fit for marriage, but they must keep on trying until they are fit.

AMERICANS generally are unpopular in Europe. Many deserve it, with their bragging, squandering and provincial ignorance, but that fine girl Gertrude Ederle, who has gone to Germany to visit her grandparents, was not unpopular, after she swam the English channel. Three thousand British gathered to cheer her, and in France, she was received with wild enthusiasm. Whoever does anything

## SAFER, SOLON AT CIVIC MEET

### West End League Also Hears Water Works Clerk.

Three city officials were guests of the West Side Civic league at the organization's monthly business meeting in the basement of the Anderson Methodist Episcopal church, West Ninth street, last evening.

Service-Safety Director J. W. Moore discussed the manner in which the municipality is financed and also answered questions regarding water, sewer and street and improvement matters. Councilman George Hughes, in a brief talk, pledged himself in favor of the improvement of Chestnut street between Eighth and Ninth streets. Frank Robinson, water works clerk, explained the municipal filtration plant.

Committees from Pleasant Heights and Edgewood avenue, who attended the meeting, complained about the poor pressure in the evenings when many families were using garden hose. Sewer questions were also discussed.

Frank Harding presided at the meeting. Refreshments were served by a committee.

## OHIO ELECTORS TREK TO POLLS IN QUIETEST PRIMARIES IN YEARS

### With No Outstanding Issues at Stake, Electorate Has Shown Nothing But Apathy During Campaign Despite Large Field of Candidates Seeking Republican and Democratic Places.

### JUDGMENT ALSO PASSED UPON NEW PLAN OF CITY IMPROVEMENT COSTS

### Columbiana County Election Supervisors Instruct Judges and Clerks to Speed Count of Ballots, Then Rush Reports by Telephone or Messenger to District Headquarters.

With approximately 775 votes polled at noon, indications were that one of the smallest votes ever registered in East Liverpool will be cast at today's primaries. Unless the voting picks up during the late afternoon and early evening hours not more than 2,500 votes out of a total of a registration of more than 8,000 are expected.

Fifteen of the city's 21 precincts from which returns were available at noon reported 492 Republican and 68 Democratic ballots in the boxes, a total of 560 votes or an average of 37 1-3 votes per precinct. If this ratio were maintained, the total vote cast at that hour was about 775.

The balloting among Democrats was especially light, despite the many contests for state offices. The party's poll ranged from three to seven in a precinct.

Precinct A of the Second ward, Litten garage, Fifth and Walnut streets, reported the largest vote, 59 ballots having been cast. The smallest vote was in Precinct D of the Fourth ward, F. L. Fisher grocery, Eighth street, where but 21 ballots had been marked.

**Polls Close at 6:30 P. M.**

The light vote indicated apathy on the part of the electorate despite the many contests.

The polls will close at 6:30 o'clock tonight. Precinct election officials here have been instructed by the election board to speed up the count and rush the returns to the election board office, Betz building, Market street, by mesesnger. First of the returns are expected at 7:30 o'clock.

The two party ballots will be the first to be counted by the precinct boards. The other ballot is a proposed state amendment which pertains to street improvement assessments.

**Greater Interest in Local Contests.**

CLEVELAND, O., Aug. 10. — With the eyes of the nation upon them Ohio voters today went to the polls in one of the bitterest primaries in many years.

Despite perfect weather the vote was expected to be light. There were no outstanding issues at stake. The electorate has shown nothing but apathy during the campaign.

Greatest interest was manifested in purely local contests, in Cleveland the race for the Republican nomination for sheriff overshadowing even the Allen-Pomerene Democratic senatorial battle.

## IF CITY CANNOT EXTEND ITS LIMITS, IT CAN DIVORCE ITSELF FROM TOWNSHIP AND PLAY GAME ALONE, SERVICE-SAFETY DIRECTOR MOORE SAYS

"If the city of East Liverpool cannot extend its limits, it can divorce itself from the balance of the township and play the game alone," Service-Safety Director J. W. Moore, who is chairman of the city planning commission, said today in answer to the Liverpool township trustees' opposition to the proposed annexation of outlying suburan districts.

Such procedure, Moore pointed out, is not without precedent as Wellsville withdrew from Yellow Creek township several years ago.

Moore, who declares the service-safety department is in favor of the annexation movement" for the good of all concerned," predicted, however, that the people of the proposed new territory will not be "up in arms" against the plan.

Moore's statement was prompted by the declaration last night by Township Trustee J. T. Croxall that the municipality now is unable to take care of the outlying districts without adding territory to its confines.

The service-safety director also answers Croxall's reference to state aid and a purported request of Dresden avenue residents for an extension of city water mains.

Moore's statement, addressed to the Editor of the Review-Tribune follows:

"In your issue of Monday you carry a story purporting to voice the attitude of the trustees of Liverpool township in opposition to the annexation proposition, as passed by city council on Thursday of last week.

"Permit the writer to say briefly, in reply, that a careful analysis of the article referred to does not convey to the reader a correct impression as to the finances of two political subdivisions as linked together.

"East Liverpool city, as most every one knows, is a part—and much the larger part—of Liverpool township, and all taxpayers of the city pay the tax levy for all township purposes except the road levy, that being offset by the levy for street maintenance.

"It is true that Liverpool township is paying for some of the road improvements within the city limits, but the city proper, being much the larger part of the township, in a proposition such as this, pays much the larger part of the cost, the same being taken care of by a bond issue.

"As to the $1,000 available from the state, under the Green law, we regret the possibility of that not being obtained because of inability to match it dollar for dollar, but the township has never had it in the past and can, no doubt, worry along without it in the future, if the provision cannot be taken advantage of, as suggested.

"With annexation of the territory, as proposed, the township will be relieved of the maintenance of certain thoroughfares, such as a part of Orchard Grove avenue, Jennings avenue, Harker avenue, Beechwood, etc.

"It is further suggested by the township trustees that the city is not taking care of certain sections of outlying territory, now within the city, in the matter of water supply, citing Dresden avenue, where it is stated that 25 families wanting water are deprived of the supply. If even a considerable fraction of that number on Dresden avenue are asking for water this office is without information to that effect. This department and city council are in perfect accord concerning water extension. Already 160 tons of pipe for main extension has been purchased this year and two jobs in East End, one on North Side and another on West Ninth street have been taken care of and not later than the first of the [illegible] week operations will begin in Pleasant Heights.

"If the city of East Liverpool cannot extend its limits, which it can do, it can divorce itself from the balance of the township and play the game alone. Such procedure is not without precedent. Wellsville, as most of us know, cut loose from Yellow Creek township a few years ago and formed a new township, the boundaries of which are co-extensive with the city limits. When we come to that the people in the territory it is proposed to annex, we venture, will not be "up in arms" against annexation but will be falling over each other in the scramble to get in.

"This department is in favor of annexation for the good of all concerned."

**NOW FOR THE CLIMAX!**

**Bee and Lou are modern girls sharing a Greenwich Village apartment. Bee is an actress with a fond hope of success. Into the Village comes Delia, frail poetess of New England, seeking freedom from the repressions of her home. And Bee, a school chum of the freedom-seeker, invites here to share their apartment. Delia meets Wilbur, a young artist who is suffering from "too much mother" and whom Lou has undertaken to rescue; Leslie, intimate of Lou, and Arthur Rockwell, the poet whose work Delia knows and admires; and various others of the Village crowd.**

**Bee and Lou have their troubles. Bee is beset by a highly successful young business man who wants to marry her and carry her off from the Village; Lou and Leslie come to a misunderstanding because of her efforts in behalf of Wilbur. And Delia fast succumbs to the fascination of Rockwell, who is unscrupulous in love. Matters grow tense. Bee loses her theatre job and takes to waiting in a Village tea room. Wilbur, driven desperate by his mother, prevails on Lou to pretend she is engaged to him. This, though unhappily, she undertakes to do. Bee and Fred appear to have broken off indefinitely and Delia begins to discover the tragedy of trusting Arthur.**

**Just when Lou and Bee, depressed by continued hard luck, plan to run to the country for a rest, Lou is asked by a great cinema director to go to Hollywood as a decorative artist; Bee plans to go along. The world turns rosy. Then they come home to find Delia deathly ill; she has taken poison as a result of her affair with Arthur. Her life and happiness are ruined. Bee and Lou forget everything save a desperate attempt to save the dying girl.**

**This is the last synopsis to be printed. From this point the story moves swiftly and dramatically to a smashing climax and conclusion. Don't miss a single day's instalment.**

## CHAPTER THIRTY-SEVEN.

Arthur's friend Abeloni was at home. Arthur was looked for shortly. Bee and Fred waited in the living room, talking a little in hushed voices, while Joe, who had a dinner engagement excused himself to dress.

"I imagine Arthur's in on that dinner," said Bee.

"He may think he is," was all Fred had to reply to that. Bee glanced quickly at his set face. Fred was different. Whatever experiences he might have been put through of late, had deepened him.

He spoke next: "I'm scheming it out, Bee. The thing to do is to put that right through—within the hour, if it's humanly possible. There are some difficulties. One of 'em's the license. But unless I'm mistaken, the old common-law thing still holds in this state. You know, a simple declaration in the presence of witnesses. Of course, we've got to have a minister. The thing must have the right ring to it. I know a mighty good chap. He was a fighting parson in France. I believe he'd come through when he understands the desperate nature of the case—that it's to save a life. It'll be simple enough to have a church ceremony afterward if she gets well—or even to do it again there in the rooms as soon as we can get the license. That's just details. The thing now is to convince the girl."

A telephone instrument stood on a desk near at hand. Fred drew it over, held it while he considered the problem quickly but surely from every angle; and then, without speaking further to Bee, he called a number. Quietly he explained that there was a grave emergency to be met.

"It's all right," he said, hanging up the receiver. "He'll wait there for us to pick him up. I'll tell him the rest of it on the way down."

A few moments after that they heard a key in the lock. A door opened. Bee saw Arthur in the hall. He was calling cheerily for Joe. Then, slightly puzzled, he came to the door of the living room. Bee, as she spoke to him and mechanically introduced him to Fred, took him in with a sinking heart. It was so clear that he hadn't a care. His was a will that had never for a moment been curbed. The discipline of art he knew, but no other. She had heard him say with some show of feeling that life is the most difficult of the arts, that it is to be lived as a poem. In his self-centered way he had exemplified his theory. She studied the handsome face with the dark cool eyes, the mouth chiseled like Apollo's, the long, graceful body, the column-like neck rising out of the softly rolling collar. Fred, who had risen was studying him too—without a hint of emotion, measuring him.

It was an odd, long silence. Bee hadn't foreseen that she would find herself in such a flutter. Alone, she would have stormed at him. And he might have outwitted her. She hadn't thought of that. She turned to Fred, who gravely spoke:

"Delia Dudley is at the point of death."

Arthur's cool eyes rested on him, then on Bee. "I'm very sorry to hear that," he said. His voice was gentle, as befitted the moment. He had always made a serious point of speaking the language beautifully. "Won't you sit down?"

"There's no time for that," Bee broke in, not too hotly—she was governed by Fred's firm strength — but with an earnest intensity that brought Arthur's eyes again to her. "We've come to take you right down there."

"But why?" Arthur dropped into a comfortable chair, produced a silver cigarette-case, and thoughtfully knocked a cigarette against it. "Pardon me—will you smoke?" Both shook their heads. "I'm sure I needn't tell you how sorry I am that Delia is ill. She is a dear girl. But I confess I'm a little at a loss to understand why you come at me in this way."

Bee, on her feet, moved toward him, heated enough now. "She has taken poison, Arthur. You know well enough the reason. There's just one thing left for you to do now."

"Just a moment." Hhe had lighted the cigarette while she was speaking. "Just a moment, while I try to clear this up. Apparently your visit is a little—just a little—in the nature of a personal attack. I hardly know just what to say to that. So far as my having had an affair with Delia, that is true enough. I haven't the faintest desire to conceal it. But it was a perfectly understood thing. She knew—she must have known—that I couldn't let myself into a permanent attachment of any sort. My business isn't with the routine of life. My business is with beauty. She knew that. I told her so, frankly. Now, Bee,—I really think you'd better sit down while we talk this over—you spoke of the one thing for me to do. May I ask what that is?"

Bee's thoughts were drifting back to certain earlier remarks of her own. They were rather unsettling. But she spoke now positively enough. Whatever she may have thought or said in other days wasn't pertinent now. Only today was alive.

"You've got to marry her, Arthur."

Fred stood aside, still quietly studying and measuring the man. Joe, off in a bedroom, was softly humming a jazz tune.

Arthur leaned back, smoking in that reflective way, and bent narrowed eyes on Bee. "I'm rather puzzled," he said. "Now, just a moment. Understand that I'm as shocked and sorry as anybody could possibly be. It's evident that a really awful thing has happened. You'd never have come to me in this way otherwise. And of course I'll do anything I can to help. But what is this about marriage? You're an intelligent human being, Bee. What on earth has got into your mind? If the poor girl hasn't the brain or the understanding to live an enlightened modern life, the life she deliberately set out to live—she told me that herself—what on earth has marriage to do with it? Of course I wont marry her. You know better than that, Bee."

# STORK BUSY IN BRONX PARK ZOO; ANIMALS WILL GREET BABY GIRAFFE

NEW YORK. — The stork in the Bronx Park zoo these days has been as busy as a baby carriage wheel on a balmy Sunday morning.

Animalkind is all aflutter over the expected arrival of a baby giraffe. It was two years ago that the only birth of a giraffe in the annals of the zoo occurred and the infant only lived a few days.

The expected kid giraffe will have a number of playmates to highneck. There are five baby aoudads, popularly known as Barbary sheep; a quartet of little Himalayan tahrs, belonging to the goat family; two tiny mouflons, resembling sheep; three young European red deer, two Indian deer, two American elk and five fallow deer, as well as a little zebra only several days old.

The baby zebra is a daughter of Pete and Queenie. The mother is reported to be doing well.

# Austria Makes Profit On Tobacco Monopoly; Old Records Broken

VIENNA.—The Austrian government last year credited its exchequer with 167,093,757 schillings ($23,870,536) as the profit of the state monopoly on tobacco. For a country in the throes of trade depression and unemployment the figure is remarkable. It represents a profit of almost four dollars for every man, woman and child in the country.

As a tobacco manufacturer the government is eminently successful belying the common conception of governmental control. The industry is by far the most flourishing in the country, employing about 10,0000 men workmen in the factories and licensing more than 15,000 shops.

The profits for last year are about ten per cent greater than the year before. About 78 per cent is represented by the profit on cigarettes.

FOR Acid Stomach
PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

**Better Than Soda**

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

**Try a 25c Bottle**

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

UNITED STATES TIRES ARE GOOD TIRES

*Questions and Answers about "What Makes a Good Tire?"*

***Question—Does any one single feature make a good tire?***

Answer—No.

***Question—Then what does make a good tire?***

Answer—The perfection of *all* the different operations that are necessary in producing the finished product *from tree to tire.*

***Question—As for example?***

Answer—The success of the United States Royal Cord Balloon in delivering true balloon cushioning and comfort, and yet giving long-lasting service is largely due to these *six* important factors:

*Plantations*

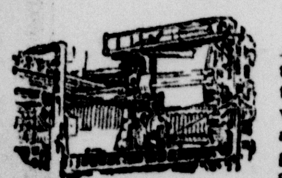
The United States Rubber Company owns and operates scientific Rubber Plantations in Sumatra and Malaya. Has 7,000,000 rubber trees, all yielding Latex now, from which this Company produces its Sprayed Rubber and its Latex-treated Web Cord.

*Sprayed Rubber*

Of the greatest importance, because of its fine quality, and its freedom from acid and smoke. Briefly, the Latex is sprayed into a chamber containing hot, dry air, which dries out the liquid from the Latex, leaving the pure, solid rubber. This does away with the old methods of smoke-drying and acid coagulation.

*Uniform Cotton Cord*

To insure absolute uniformity and high quality of the cotton cord used in United States Tires, the United States Rubber Company operates its own cotton mills at Winnsboro, South Carolina. Here the choicest grade cotton is made into cords to meet the rigid requirements of the tire factories where it is used to produce Latex-treated Web Cord.

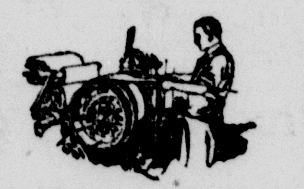


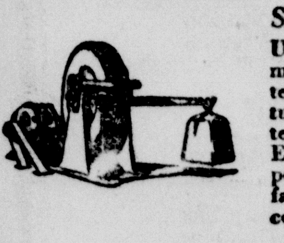
*Latex-treated Web Cord*

Also an invention of the United States Rubber technicians. The cords are laid parallel *without* tie-threads, and soaked in virgin rubber Latex, which forms an elastic web through and through and between the cords. Important because it gives the cord structure maximum *strength* and maximum *flexibility.*

*Flat-Band Method of Building Tires*

Do not miss the importance of this revolutionary improvement in tire-building. The way it works is highly technical. But the result is that each cord in a United States Royal Cord is made to lie in exactly the right position, under precisely the right tension, and to take its due share of the work.





*Searching Tests from the Tree to the Tire*

United States Tire tests begin with the raw materials—and these tests never stop. Many tests are made during the process of manufacture and finished tires undergo various factory tests such as the "Tread Wear Test" illustrated. Even after the tires are sold and in use, their performance on the road is being checked by factory-trained experts stationed all over the country.

# 229 BALLOTS CAST AT NOON

## Less Than Eight Percent of Voters Out This Morning.

With less than eight percent of the city's estimated voting strength out at noon, today's primary balloting was expected to bear out advance predictions of an unusually light poll.

Approximately 229 voters had made their appearance in the nine precincts of the city up until 12 o'clock. Unless there is an unprecedented last minute rush, the total probably will not exceed the 1,200 mark and possibly will not go more than 1,000, in the opinion of election board officials.

Precinct B of the second ward at noon showed the heaviest balloting. In all 60 votes had been cast, of which 53 were Republicans and seven Democrats.

The lightest vote until noon was cast in Precinct C of the Fourth ward at the W. J. Moore residence, 1812 Clark avenue, where seven Republican and two Democrat ballots had been filed.

In all nine precincts there were 193 Republican and 36 Democrat voters, the noon survey showed.

The vote by ward and precinct:

**First Ward.**

Precinct A—Republican, 17; Democrat, 5.

Precinct B—Republican, 53; Democrat, 7.

**Second Ward.**

Precinct A—Republican, 27; Democrat, 6.

Precinct B—Republican, 36; Democrat, 3.

**Third Ward.**

Precinct A—Republican, 18. Democrat, 5.

Precinct B—Republican, 9; Democrat, 3.

**Fourth Ward.**

Precinct A—Republican, 15; Democrat, 2.

Precinct B—Republican, 11; Democrat, 2.

Precinct C—Republican, 7; Democrat, 2.

Total vote—229; Republican, 193; Democrat, 36.

## ALLEGED SLAYER GIVEN FREEDOM

John Cook is free. The man charged with slaying Nettie and Robert Herron, brother and sister, on their Two Ridges farm, March 2, walked out of the Jefferson county jail last night where he has been confined five months.

Cook was picked up on suspicion the day the bodies were found, Bob with his head crushed from a mattock blow and Nettie strangled and hanged from the ceiling of the kitchen with a rope.

He was indicted for first degree murder. A jury found him not guilty of the one count, that of slaying the woman. He was held for the indictment of slaying Bob Herron and yesterday Judge J. B. Paisley admitted him to bond of $1,000. Prosecutor Roy N. Merriman protested that it was not enough to fit the crime but the court overruled. A few hours later bondsmen appeared and gained his freedom.

Sheriff William Allison denied reports that Cook was a trustee in the jail during his incarceration. "He was just a model prisoner and allowed freedom of the corridors" the sheriff said. The state has appealed the case on error.

# ARRANGE PLANS FOR ROCCO DAY

## Fireworks Display, Parade, Church Services Listed.

Arrangements are practically complete for the annual St. Rocco day observance which will be held here Saturday and Sunday by Italian residents of the city, committees in charge of the event announced today.

The celebration officially is scheduled to get under way Saturday afternoon and will conclude Sunday afternoon.

Band music, fireworks and special church services are listed among the events on the St. Rocco program.

Music for the affair will be provided by Prof. Pascarelle's 25-piece Union Italian band, of Youngstown.

Prof. Pascarelle's band will open the program with a concert Saturday afternoon at 2 o'clock at Eleventh and Main streets and will play again at night prior to the pyrotechnical display at Hammond park which probably will start at 11 o'clock.

The St. Rocco day observers will attend a special mass at 10 o'clock Sunday morning in the Immaculate Conception church and will hold their customary parade at 11 o'clock, traversing Main street and Broadway. Approximately 300 are expected to take part in the parade.

On Sunday afternoon the band will conclude the celebration with a concert at Eleventh and Main streets.

## ADJUST CASE WITH PHONE CO.

Differences that have existed between the trustees of the First Presbyterian church at Wellsville and the Ohio Bell Telephone Co., have been adjusted, and the injunction proceedings filed in common pleas court April 8, last, have been dismissed by the court without prejudice and at the costs of the defendant.

In this case, the church trustees objected to the manner in which the telephone company erected poles in the vicinity of the church property. When the petition was first filed, a temporary restraining order was granted, and later the company was given leave to file its pleadings. With the adjustment of the differences, a motion was filed with Judge W. H. Spence to dismiss the action, and this motion was sustained.

## Plans Being Drafted For New Buildings At Drake University

DURHAM, N. C.—Dreams of years are just about to be realized at Duke University, and officials of the institution soon will be ready to place plans for the school's $20,000,000 plant in the hands of architects for final drafting.

These plans probably will be ready around September 1, according to an announcement by Dr. William Preston Few, president of the University.

"With this preliminary work out of the way," Dr. Few said, "it would seem that actual construction on the new university plant might be expected to begin within a comparatively short time.

# HUNT GOES ON IN OZARKS FOR SPANISH GOLD

## Treasure Seekers Use Secret Maps in Search.

## MAY BE MYTH

## Chest of Jewels Object of Arkansas Quest.

FAYETTEVILLE, Ark.—A treasure hunt that has gone on in Franklin county, Arkansas, for more than 30 years for Spanish gold said to be worth millions, a golden Madonna and chests of precious jewels, goes on today with as much fervor and vigor as it did in its early days.

Perhaps its a myth—the result of a legend born in the crazed mind of an old Mexican adventurer or the romantic nature of Latin people—but the story is plausible enough for Dr. L. G. Hill, Mulberry, Ark., to spend $100,000, the savings of a lifetime, in financing a hunt for the treasure.

Generations have seen adventurers push their boats up Big Mulberry Creek only to return months later with disappointment evident in every jesture.

Two Spaniards have visited Mulberryduring the past 40 years and claimed knowledge of the treasure. The first was Antonio, 80 year old Mexican, who claimed to be a representative of President Diaz, of Mexico.

It was Antonio whom Dr. Hill financed in the treasure hunt. The elderly Mexican ran lines from three marking points on a map in his possession and each led to a sandstone bluff.

When cave-in dirt was dug away, diggers came to a system of hieroglyphics and the old man was frenzied with joy. The old man told Dr. Hill if he came to a small square opening and found a flint dagger and a stone key in this hole it was the place. Both were found.

Antonio studied the symbols on the face of the cliff for a few days, started excavation work, and died. The map he had been following couldn't be found.

The work came to a standstill a few months later when Dr. Hill died.

The legend had it nine Spaniards left the old country with the treasure, millions in gold and silver bullion, a golden calf and a quantity of precious jewels, at the time when Spain feared overwhelming defeat at the hands of Napoleon.

They landed in New Orleans, heard of gold mines in the North, abandoned their ships at the mouth of the Arkansas, transported their treasure up the river in small sailboats, the legend runs.

Here they enslaved Indian miners, buried the treasure and started back to Spain, in an effort to bring about national negotiations regarding the treasure. Natives and diseases killed many and only one of the nine Spanish galleons reached New Orleans, says the legend.

Whether or not there is a treasure in the Ozarks makes no difference to two of Dr. Hill's sons and a young miner who are organizing a mining company to excavate in efforts to locate the buried fortunes—and see for themselves.

## Co-ordinated Forces Check Fire

Five different units—an unidentified railroad engineer, fire fighting forces from two cities, two "pumper" truck demonstrators and a German police dog—working harmoniously, checked a serious fire and saved endangered inmates of blaze-swept buildings from injury or death in Wellsville yesterday.

The pilot of the locomotive sounded his whistle, arousing residents, when he discovered the flames which destroyed a candy factory and hotel and damaged a restaurant and a dry goods store.

East Liverpool firemen, mindful of the aid given in fires here by Wellsville, reciprocated by sending equipment to the scene to co-operate with the neighboring city's fire fighters.

Two demonstrators of a "pumper" truck rendered timely assistance and, incidentally, proved the value of their equipment, by rushing it to the Ohio river and pumping water onto the blazing structures when the municipal water supply was at a low ebb and the pressure was poor.

And a dog, brought back from Germany by Fred Wilk, owner of the hotel, realizing the peril which confronted his master's family and guests in the hostelry, ran barking through the halls of the building to awaken the inmates, thus giving them time to escape before the hotel was swept by the flames.

The loss is estimated at $125,000, and while this is a small sum in days when million dollar fires occur, it is a blow to East Liverpool's sister community, but had not the various forces worked in unity the toll would have been much greater. It was good work, railroad engineer, "pumper" demonstators, East Liverpool and Wellsville firemen and German police dog.

## Women Swimmers

The most notable thing about Gertrude Ederle's success in swimming the English channel was the fact that she was the first woman to perform that feat. It was the fact that she beat the records of all the men who had ever done it.

Since the channel swim is recognized as the world's hardest swimming test, it follows that today this 18-year-old American girl is supreme in her sport. In our flamboyant parlance, she stands forth as "swimming champion of all time."

That is, until another woman beats her record. That may happen any day.

And how about men? Some man may beat her, of course. Yet here is one sport, and a particularly arduous sport at that, in which women, for some reason not yet fully understood, appear to possess natural superiority over men. If half a dozen men swam the channel before Miss Ederle, it was probably because men so long had the field almost entirely to themselves. With women crowding in to compete for the honor, men may soon be outclassed in the greatest swimming classic as they have been frequently of late in minor contests.

It may not be any too good for the women physiologically, to engage in such strenuous contests, but in this age of feminine ambition and achievement it is very good for them mentally. And the athletic example set by feminine champions should benefit millions of women, if they disregard the competition element and take up swimming or other sports for the sake of wholesome exercise.

## No Meddling In Mexico

All Americans except the few who have always urged Mexican intervention on any pretext whatever will approve our government's decision to keep its hands off the present Mexican situation.

As President Coolidge has outlined the Washington viewpoint to newspaper correspondents, the religious controversy now agitating Mexico is altogether a domestic matter between the Mexican government and the Mexican people. All that the United States government can properly do is to continue protecting life and property of American citizens in Mexico and insisting on the enforcement of existing treaties between the two countries.

There are plenty of matters in dispute between Washington and Mexico City, but so far they have little or no connection with the Mexican government's effort to exercise greater control over the church. It is wise to maintain a clear line of distinction, and to avoid any state meddling with religion in Mexico as our government does in our own country.

Sooner or later the Mexican people, through their present government or some other government, will work out a satisfactory compromise between church and state, leaving each free to follow its own course and exercise its proper functions. In that difficult enterprise, Uncle Sam can be only a sympathetic onlooker, and continue setting a good example of tolerance.

A jar said to be 30 centuries old and containing six small coins which archeologists say correspond to our pennies, has been dug up somewhere or other. Must have been a John D. Rockefeller in those days, too.

"The typical English girl and the typical American girl are equally horrible," says Lady Nancy Astor. Chorus from two great countries' "Iz-zat-so!"

As this efficiency business goes on, we suppose every cigar or cigarette smoker will be equipped with a smoke consumer.

## NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Aug. 9.—A first offender recently released from the Tombs declared he found more genuine sympathy among prisoners there than he ever found in the world outside. And added he found his first spiritual solace in the sombre gray depths.

Three religious services are held every Sunday in the Tombs—Catholic, Protestant and Christian Science. Anglers for human souls are frequently amazed at the manner in which prisoners clutch for spiritual bait. And turn from sin.

For obvious reasons no inked record is kept of those who have left the Tombs and become useful citizens, but the number runs into thousands. The large percentage are first offenders. Now and then an old offender reforms, but it is rare.

Guards say there are any number of old timers who often regard prison more as a vacation than punishment. They know how instantly to fit themselves into the routine and be content. There are no moments of anguished remorse. It is just "a stretch" of time.

Prisoners have originated all sorts of silentgamesto relieve the tedium. Often not even the guards know games are being played. It is said that despite its restrictions no prison is able to have a secret.

A code bordering on the telepathic exists and reveals all. A man in some far off wing may be placed in a dungeon and in no time it is known in the farthest corner when not an actual word has been spoken. The coming of a new warden is almost invariably known by prisoners before the retiring warden knows he is to go.

Wherever there is deep silence there is generally a baffling air of mysticism. Minds become attuned to trivialities that would not otherwise be noticed and from these are startling deductions made.

Up in Sing Sing there is a former city editor who is piecing out what is left of a life sentence in an attempt to beautify prison yards and cells. He has a flair for horticulture and many gardens testify to his handiwork. Recently he began a campaign to lighten prison travail with caroling birds. He needed bird cages.

Irvin Cobb once served under him as a reporter, and at the weekly luncheon of the Dutch Treat club made a plea for funds to aid his former employer in the laudable endeavor.

"He is not such a bad fellow," said Cobb. "He was one of those who yielded to the impulse all of us have at some time or other. He murdered his wife.'

Mr. Cobb has apparently softened toward his ex-boss, for the mutual dislike formed the theme of an old Park Row classic. One morning Cobb stepped into the elevator and the operator, speaking of the employer, said: "Mr Blank is ill today."

"Is that so?" replied Cobb. "I trust it is nothing trivial."

Cobb was a crack reporter, but his true metier was fiction. I think most newspapermen will agree the keenest reporter in the history of New York's journalism was Frank Ward O'Malley. He never signed a story but he was known far and wide as "O'Malley of the Sun."

In those days New York had a surprisingly able group of reporters—Ed Hill, Damon Runyon, Joe O'Neil, Charlie Somerville, Herbert Bayard Swope, Herbert Conroy and one or two others whose names elude me.

### WHERE THE REAL FAULT LAY

The tourist was one of that type which for some mysterious reason are more numerously encountered abroad than at home. He was doing the cathedral towns of England, not because he particularly was interested in English towns, or in English cathedrals either, but because the guide book advised him to do so.

Near the close of a glorious spring afternoon he stood on the greensward facing Canterbury cathedral and his legs planted far apart, his cap on the back of his head, his hands rammed deep into his trousers' pockets, his cigar stuck into one corner of his mouth, and on his face an expression betokening profound boredom.

The celebrated Canterbury chimes were ringing for vespers, filling all the air with silver melody, when a side door of the cathedral opened and there issued forth a little, plump, pink-cheeked, benevolent clergyman. He approached the visiting stranger and in cultured tones said to him:

"I take it, sir, that you are a stranger?"

"Hey?" inquired the American, cupping one hand about his ear.

The clergyman raised his voice:

"I assume sir, that you are not a resident of these parts?"

"Nope," said the American. "I hail from Nebraska. It's durned good state, too—best in the Union. You ought to come out there some time, Elder, and give us the once-over."

"Eh—quite so," said the reverend gentleman. "Then," he continued, "since you are newly-come to this place it must seem to you, even as it goes to those of us who dwell in these cloistered and holy precincts, that the music of our glorious bells comes floating down to one almost like the voice of the Almighty Himself, seeking through the medium of their old brazen throats to communicate the message of peace on earth, goodwill to man, to us His children here below."

"Which?" inquired the visitor, inclining his head somewhat.

"Er—what I meant to say was," stated the clergyman, "is that one must carry away from here, after hearing our chimes, the conviction in his soul that really he has been in communication with Deity itself—that the voices of the angels have cried out to him. Er—is it not so, my friend?"

The American shook his head.

"I'm sorry, parson," he said regretfully, "but them damn bells is makin' so much noise I can't hear a word you say!"

### CANAL REPORTS DUE.

WASHINGTON, D. C., Aug. 10.—Unless political considerations in Canada, which has a general election pending, delay action, the report of the Joint Board of Engineers of the United States and Canada on the cost of the proposed St. Lawrence Waterway from the Great Lakes to the sea is expected to reach President Coolidge by the end of this summer, and the report of the St. Lawrence Commission of the United States, which is considering the economic phases of the proposed water route, will probably follow before the next meeting of Congress.

The postponement of the Rivers and Harbors bill at the last session of Congress, which carried with it postponement of any action on the rival waterway plan for a canal across New York from Lake Ontario to the sea, via the Hudson River, was regarded as encouraging to proponents of the Great Lakes-St. Lawrence plan, and they hoped that the months before Congress re-assembled would see all of the official reports favorably rendered, and perhaps a treaty negotiated with Canada for the construction of the waterway.

Canadian delays have been more of a setback than expected, but it is now unofficially reported in Washington that the American group of the Joint Board of Engineers is ready with its findings, and that the economic investigators, called the Hoover Commission because the Secretary of Commerce is its chairman, will not be the cause of any delay.

It is not perhaps generally understood in this country that if these two reports, the engineering and the economic reports, are favorable, and indicate that the development of a waterway from the lakes to the sea is both practical as an engineering proposition and desirable as an economic means of developing ocean traffic from out lake ports, the President may then proceed on authority already established to negotiate a treaty with Canada for carrying out the project. Such a treaty would of course have

### Ranks With Panama Canal.

The proposed Great Lakes-St. Lawrence Waterway is the most extensive development for Commerce considered in this country since the building of the Panama Canal. An association of twenty-one States whose products would be those most likely to move by such a water route from Great Lakes ports to Europe and other parts of the world, has fostered the movement for the waterway for some years, its work being interrupted by the war, but progressing since that time. Its purpose is the basic one of creating a water haul from ports like Chicago and Duluth, Detroit, and Cleveland, and others, direct to the seaports of the world. The farming regions of the Middle West backing the proposal are moved by a conviction that this water haul would greatly improve the situation of farmers raising and exporting grain and livestock.

The physical features of the proposed waterway include use of the present Sault Canal from Lake Superior to Lake Huron, the new Welland Canal between Lakes Erie and Ontario, and the construction from Lake Ontario to Montreal, the present head of ocean navigation.

The estimated total cost of the project, which the Joint Board of Engineers is now checking, is about $270,000,000, of which a considerable part would be for water power development and not part of the navigation development. Just how the navigation development cost, whatever be divided between Canada and the it might be when finally fixed, would United States, would remain to be settled by treaty.

The United States holds, by treaty, a free right to navigation on the St. Lawrence river. This was granted in 1872, as part of the Alabama Claims Treaty, and at the same time we granted Canada full rights to navigation on the Yukon and Stikine Rivers in Alaska. On the St. Lawrence our basic right exists because the waters of that river come from the Great Lakes, more than half of which are our territory. Similarly the Yukon and Stikine rise in Canadian soil but flow through the territory of the United States to reach the sea.

More or less opposition to the St. Lawrence outlet has always existed in New York state, and as an alternative the so-called "All-American Route" has been proposed, a complete canal across that state from the mouth of the Oswego River, on Lake Ontario, to New York City, via the Hudson River. To make a complete chain on United States soil, an American canal from Lake Erie to Lake Ontario, parallel to the Welland Canal but on the American side, would be necessary. The arguments pro and con regarding the St. Lawrence or New York routes are very numerous. While official investigation of the survey the Oswego-Hudson route was former is under way, the proposal to not adopted this spring, being part of the postponed Rivers and Harbors bill. It will come before the Senate in December, having passed the House.

### All Canadians Not For It.

While Canada has joined with our engineers in the study of the St. Lawrence project, and also has an Advisory Commission which parallels our economic commission under Mr. Hoover, opinion in Canada is not unanimous in favor of the development. Opposition there is said to come from Quebec and Montreal areas, where many people feel an opening of the Lakes would deprive those cities of their present advantages at the head of navigation. There is also much unfriendly feeling in Canada about any Great Lakes development in conjunction with this country until the question of diverting Great Lakes' water into the Chicago River is settled.

Canada offers the same objections to running Great Lakes' water through Chicago and thence ultimately to the Mississippi that are offered by the States of Michigan and Wisconsin, whose lawsuit to stop this diversion of water is now before the supreme court of the United States. Charles Evans Hughes, former Justice of the Supreme Court, is the special master for the Supreme Court to take testimony and make findings and recommendations to the court, and his report in the autumn term will probably be followed by a settlement of this problem. This will help clear the way for other Great Lakes development questions.

While the engineers, the economic commissions, and the treaty makers must all take a hand before any work may begin on the big idea of opening the Great Lakes to the sea, the final word will rest with Congress, which makes appropriations and in its upper chamber ratifies treaties.

Problems as serious as the question of whether the inter-oceanic canal should be built in Nicaragua or at Panama, and should be a sea level or a lock canal, will have to be settled. Through the connecting link at Chicago, the whole matter of Mississippi river development is capable of being involved, and the records of political conventions since 1920 show that efforts have been steadily under way to pledge statesmen and parties to various steps in various plans.

Not since Mr. Taft proposed tariff reciprocity with Canada has there been an economic question so closely involving us with our neighbors to the north. States are far west as Idaho and Oregon have interested themselves, and those as far south as Kentucky and Missouri.

While never a major national political issue, the questions involved have already caused one filibuster in Congress, and as a public question the whole Great Lakes to the sea proposal may yet figure largely in our elections.

# Eleventh Hour Effort Made To Save Whittemore's Life

### Negro Lawyer, Retained by Condemned Man's Wife and Father; Apply for Writ of Habeas Corpus.

BALTIMORE, Md., Aug. 10.—Eleventh hour efforts were being made today to save the life of Richard Reese Whittemore, sentenced to die on the gallows at 12:10 Friday morning. He killed Robert H. Holtman, prison guard.

Judge Robert F. Stanton in city court ordered a hearing at noon tomorrow on a writ of habeas corpus filed by George L. Pendleton, Negro lawyer, retained by Mrs. Margaret M. Whittemore and Rawlings V. Whittemore, the bandit's wife and father.

Herbert R. O'Conner, state's attorney, and Thomas Robinson, attorney general, were directed to appear to show cause why the writ should not be granted. A deputy probably will appear for O'Connor.

Pendleton challenged the constitutionality of the Maryland law which makes a jury, judge both of fact and law. He said Whittemore was denied "due process of law," guaranteed by the federal constitution.

Whittemore's appeal rests upon a slender threat, in the opinion of legal experts here. Even should the writ be granted, it would not stop Whittemore's execution, unless Governor Ritchie signed a stay.

**May Go To Supreme Court.**

Failing in the state courts, Pendleton said he would appeal to the federal supreme court. Even that would not necessarily halt the hanging. The supreme court is not in session and Pendleton would have to appeal to one of the justices. He announced he had arranged to carry the appeal to Justice Brandies, now in Chatham, Mass.

A further barrier is Warden Patrick Brady of Maryland penitentiary. He declared he would file a formal reply to the court's order, and thus more of the precious time remaining before Friday would be consumed.

Whittemore has no hope that the latest efforts will be successful, Brady said today. The once dapper "Candy Kid" is passive as the fateful hour approaches and smokes countless cigarettes, the butts of which strew his cell floor.

Brady will allow the bandit's wife and father to visit him but twice more to say goodbye.

Special precautions will be made to guard the penitentiary on the night of the hanging. No one will be allowed to approach within four blocks of the prison, except the 18 witnesses to whom tickets have been issued.

# COURT FIGHT OVER SCRIPPS ESTATE LOOMS

### Balance of Power in Newspapers is Affected.

### $10,000,000 CLAIM

### Widow of James Scripps Files Suit in Hamilton.

HAMILTON, O., Aug. 10.—The balance of power in the majority of the Scripps newspaper enterprises, heretofore vested in the estate of the late E. W. Scripps, is affected in a claim against the estate on file in probate court here today.

The claim is made by the estate of James . Scripps, son of E. W. Scripps and for many years active manager of the Scripps enterprises. More than $10,000,000 in cash, stocks and bonds in the E. W. Scripps estate is claimed by the widow of James Scripps.

Unless the claim is allowed, suit will be filed against the Scripps estate for the sum alleged to be due the daughter-in-law and her heirs, John H. Perry of New York, attorney for Mrs. Scripps, announced.

**18-year Story Back of Suit.**

Back of the claim is a story dating back 18 years. Among the papers filed in probate court here, is a copy of an alleged agreement, made between E. W. Scripps and his two sons, James and John. Both sons are dead, John dying soon after the agreement was made.

On March 1, 1908, according to the claim, the agreement went into effect. It provided that the sons receive stocks, bonds, salaries and other compensation representing one half of the added value of the Scripps newspaper properties. This, it is claimed, included a half interest in the net earnings of the various projects controlled or partially owned by the senior Scripps. An annual apportionment of profits was provided for in the agreement.

James Scripps, trained for the work by his father, became active head of the Scripps enterprises and continued in that position until his death, several years ago, it is alleged, when Robert Scripps, a younger brother, came of age and entered his father's newspaper business.

**Claim May Be Settled.**

E. W. Scripps died last year. Robert Scripps was made executor of the entire estate. No effort was made to distribute the profits of the estate of John and James, according to the claim.

The claim on file today is the first court action within the family in connection with the settlement of the estate. The exact amount claimed is $10,107,344.07, which is alleged to represent James Scripps' share of the profits from 1908 until the time of his death.

"If the claim is settled according to the terms of the agreement, payment must be made in stock, bonds and cash," Perry said. "The E. W. Scripps estate controls the United Press through ownership of 51 per cent of the stock. Part of this stock is claimed by the James Scripps estate and it follows that complete control will be lost if any part of the United Press stock is taken.

"Stock in other enterprises and newspapers will be affected in the same way.

"It is quite possible that attorneys for the E. W. Scripps estate will accept the claim as it is filed in probate court. If they reject it, the case will be taken into the federal court in the southern district of Ohio."

Perry, who was national counsel and associate of James Scripps for more than 12 years, is the only attorney so far representing the James Scripps estate. Newton D. Baker, secretary of war under the Wilson administration, and Thomas Sidle, his partner, are attorneys for the E. W. Scripps estate.

The filing of the claim today was the first official notice given the E. W. Scripps estate that such action was contemplated, Perry said.

# REPORTS FROM STOCK MARKET

NEW YORK, Aug. 10.—Wall street and the stock market displayed considerable nervousness in the early trading today over the $86,000,000 increase in brokers, loans reported by the Federal Reserve bank of New York after the close of Monday's marmet. This looked like anothre unwieldly expansion in margined purchases of the high-priced speculative stocks. And selling orders in large volume awaited the resumption of trading.

Losses were most severe in the industrial stocks which have been leading the upward procession in recent weeks. On a "split opening" General Motors appeared on the tape for the first sale of a block of 18,000 shares at 219 to 211½, a decline of 10½ from Monday's close. The stock receivered to above 218 where transactions were in huge volume.

United States Steel declined to 152½, but promptly righted itself and recovered to above 153. Very favorable forecasts were made of the volume of forward orders to be reported by the corporation at noon today and offerings of the stock were well absorbed. Du Pont, Cast Iron Pipe and other market leaders were under pressure and declined 1 to 6 points.

Reports that the Standard Oil company of New Jersey would make no change in the dividend rate of the ing and market weakness of that stock accompanied further heavy sellstock, which dropped an additional point to 42. Another 26,000—barrel lost week, reported by the oil and daily increase in crude oil production gas journal, was sufficient to cause some unsettlement in the independent oils, though losses were mostly fractional. Rails were irregular and tobacco stocks strong.

**Cleveland Live Stock.**

Receipts 200, market steady. # FOUR PRIESTS ARE SLAIN IN MEXICAN CLASH

### Several Citizens are Wounded in Church-State Dispute.

### 43 CAPTURED

### Conflict Between Catholics and Calles Hopelessly Deadlocked.

MEXICO CITY, Aug. 10.—Four priests were killed, several citizens wounded, and 43 taken prisoner in a clash between Catholics and soldiery at Aguayo, in the state of Michoacan, the Mexican Catholic Episcopate announced today.

Details of the riot were lacking. The dispatch did not state whether any of the soldiers were injured.

The conflict between the Catholic church and the government appeared hopelessly deadlocked today. All efforts at mediation have ceased following President Calles' repeated rebuff of well meaning intermediaries, both from within the government and without.

Pastors of Protestant churches in Mexico City have appealed to the American embassy to prevent an inventory of objects within the buildings which government agents are seeking to take as a preliminary step toward their nationalization.

**Tightening Economical Boycott.**

At the embassy it was stated that no opinion would be hazarded pending instructions from the state department. However, it is regarded as significant here that the American ambassador and the British minister, Esmond Ovey, conferred at length yesterday. The British minister has already forwarded a note of protest to the Mexican government.

The movement among lay Catholics for a tightening of the economic boycott gained ground today with the circularizing of the city by various Catholic organizations.

"The theaters and movies are deserted," one circular declared. "Ten million pesos have been withdrawn from the banks. Paper money is a complete failure. Each holder of paper bills is rushing to exchange them for gold.

"The Catholics are warned not to believe the daily press, as it is controlled by the crom. Six thousand automobiles have been retired from operation. The boycott in Pueblo, Jalisco, Michoacan, Guerrero and other states is a success."

## DEMPSEY REFUSED BOXING LICENSE

NEW YORK, Aug. 10.—The license commission of the New York State boxing board today refused to grant a license to Jack Dempsey, world's heavyweight champion, thereby preventing Tex Rickard from going ahead with his plans for a fight between Gene Tunney, ex-marine, and the champion. Rickard had planned to stage the fight at the Yankee stadium September 16.

state's spotlight with the scramble for the Republican nomination for governor by 11 men and one woman.

Judge Florence Allen wound up her campaign with a speech last night at Newark, in which she stated she was running for the senate because she was "interested in good government and a square deal for everybody."

"I am hopeful of victory," she said, "but I would rather lose the nomination with the support I have than win with other support."

Miss Susan Rebhan, manager of Miss Allen's campaign, exuded optimism.

"We have better than an even break," she said. "I am counting on carrying Franklin, Cuyahoga, Summit, Crawford, Wayne and Lucas counties."

**Pomerene's Personal Expenses $100.**

The colorful bachelor girl who at the age of 42 was justice of the supreme court, spent only $8,000 during her campaign, Miss Rebhan said.

Ex-senator Pomerene had little to say today.

"I will not discuss my campaign expenses," he stated, "but you can tell the voters that—that my personal expenses will not exceed $100."

Pomerene refused to comment on his chances to beat Miss Allen.

"I have not been campaigning myself outside of a few letters which I have written. I am content to abide by the verdict of the people."

**Drys Support Cooper.**

Judge Allen, who was born at Salt Lake City, Utah, but raised in Ohio, is a pronounced "dry." At Newark last night she told of the plank she would take to the senate if elected:

"Enforcement of prohibition; outlawing of war; reduction of tariffs; a square deal for the farmer and membership in the world court."

If Judge Allen beats Pomerene and Meyers Cooper of Cincinnati wins the Republican gubernatorial nomination, the drys will have scored a great victory in Ohio.

Cooper was generally believed to have the best chance of the 12 Republican aspirants. He is president of the Ohio Council of Churches, has the support of the Anti-Saloon league and the endorsement of the Republican machine in Cleveland. His most dangerous opponents are Joseph Seiber, Akron attorney; Harry Day, state treasurer, and Thad Brown, secretary of state.

Governor Vic Donahey was expected to walk away again with the Democratic gubernatorial nomination.

In the Republican senatorial race, Senator Frank B. Willis was seeking renomination against six other candidates.

**Candidates Await Result.**

COLUMBUS, O., Aug. 10.—Ohio went to the polls today to make her first selection of those who will rule the state during the coming two years. She voted at a primary that will no doubt result in a light vote, to select the Republican and Democratic standard bearers for the November election.

Eighteen condidates will be nominated for the eight major offices of the state while thousands of others will be named to be on the November ballots in the congressional and senatorial districts, counties, municipalities, villages and townships.

After a pre-primary campaign of several weeks that were marked by intense interest in some sections, complete lack of enthusiasm in others—while in still the third class mediocre felling for those who seek the honors of representing their fellow citizens was expressed, the candidates waited.

**Fair Vote in Home Counties.**

From the north Cuyahoga county was expected to cast fair vote while Sandusky county was planning to count a record vote for Harry S. Day, a native son, one of the dozen seeking the Republican gubernatorial nomination. Lucas county had a fight of its own, with labor highly interested.

Farther south, Stark and Summit counties divided interest, Summit probably showing a good vote with Joseph Sieber running strong, while interest in the capture of the slayer of Don Mellett took away enthusiasm in the primaries in Stark.

Franklin county started early and it was expected after the first rush, that the capitol seat would run near par. Marion county election officials expected a heavy voting because of the split there in the Republican ranks between Cooper and Sieber adherents.

**Battle in Hamilton County.**

Hamilton county and Cincinnati staged a battle of its own throughout the day with the "regulars" and "insurgents" in the G. O. P. ranks, both claiming early victory. The split between the citizens' committee and the supposed Hynicka backers aroused interest.

In the eight major races, those for United States senator and governor on the Republican side promised the hottest state-wide voting. Judge Florence E. Allen, who made a strenuous campaign, and Atlee Pomerene, who left his vote stand on his past records, were the center of interest.

The Republican nomination for governor was a toss up, in general opinion here, between Sieber, Thad Brown, Cooper and Day.

On the Democratic side it was generally felt that Vic Donahey would be renominated, despite his lack of campaigning, although A. P. Sandles was expected to show strength in the southern sections.

All in all, it was a normal primary. And while the voters went forth to make their selections, newspapers prepared to handle the usual deluge of calls and getting out of extras while state house attaches busily prepared to make the tabulations.

And the candidates themselves gathered in their headquarters to await the coming of the returns.

**Two Issues in Nebraska.**

OMAHA, Neb. Aug. 10.—Nebraskans cast their votes today to show their sentiments toward the two issues which have made of the present primary campaign one of the bitterest in the political history of the state—the Ku Klux Klan and prohibition.

Practically all the candidates are lined up either with the Klan and prohibition or else are out and out wets and Klan enemies.

Ex-Governor Charley Bryan, vice-presidential nominee in 1924, has no opposition on the Democratic ticket. Governor Adam McMullen, Republican, was regarded as almost certain to be renominated.

One of the hardest battles in the campaign was waged for the Republican nomination for the congressional seat in the second district in which Omaha is located, between Willis G. Sears, present congressman and W. F. Gurley, Omaha attorney. Sears has fought both Klan and prohibition while Gurley has the backing of the Klan and the drys.

The polls will close at 9:30 tonight.

**Alabama Goes to Polls.**

BIRMINGHAM, Ala., Aug. 10.—Alabama went to the polls today to nominate Democratic candidates for United States senator, governor, congress and lesser state and county officials following one of the most hectic campaigns in the state's history. The Democratic nomination is equivalent to election.

## FIRE MARSHAL GIVES WARNING

### School Officials Urged to Correct Defects in Buildings.

School authorities should take advantage of the vacation period by correcting any conditions about the school buildings that are inimical to the safety of the pupils is the advise of the state fire marshal's department.

It is reliably stated that nine out of every ten schools are a menace to life and it is in these buildings that the children are compelled by law to spend much of their time. There have been numerous school fires in the country, the past year but luckily most of them occurred when buildings were empty.

"In the construction of new school buildings there should be no attempt to curtail cost at the expense of safety' State Fire Marshal C. L. Topping admonishes. "The main items of safety to be considered are adequate exits, an outside heating plant, electric wiring in conduit, a semi-fireproof ceiling over the basement, semi-fireproof walls and partitions around halls and stairways and an incombustible roof covering.

"Manuel training has introduced a distinct fire hazard into our schools and many school fires start in manual training rooms. Sawdust, shavings, oily waste, paints, glue pot, gasoline engines, sparking electric motors, experimenting and tampering with the electric installation are some of the hazards found in manual training rooms.

"School children are as much in the keeping of the state as are prisoners, but our jails and prisons, on the whole, offer greater safety to life than do school buildings,' continued the fire marshal.

## FARM POPULATION OF STATE DROPS

The farm population of West Virginia decreased from 477,924 in 1920 to 455,204 in 1926 according to figures just given out by the United States department of commerce. However, while the 1925 figures include only persons living on the farms themselves, the 1920 figures include those persons who, while not living on farms, lived outside the limits of an incorporated place.

The report shows an increase of 3,091 farms and while there are 1,622 less farms in the state bearing mortgages, the total value of the mortgages has risen from $11,205,953 in 1920 to $13,837,637 in 1925, bringing the ratio of mortgage debt to value of farms from 25.5 per cent in 1920 to 35.9 per cent in 1925.

The number of tractors on farms has nearly doubled since the first report but the total value of farm machinery decreased from $18,395,058 in 1920 to $15,686,848.

There was $321,408 more paid for feed last year than in 1920, but a decrease of $760,639 in the amount paid for fertilizer. The total amount paid out in wages also dropped, being $4,786,810 in 1920 and $3,761,022 last year.

In spite of the drop in the costs of running the farms, there was a decided increase in the value of farm products sold. The value of products sold cooperatively has more than trebled, there has been an increase of over 3,000,000 gallons of milk produced, and nearly a million dozen more eggs were sold in 1924 than in 1919. There were more cows and chickens last year than ever before, but less sheep and goats.

### LODGE FAMILY HOLD REUNION

#### Annual Gathering Held at Kelly's Park Near Leetonia.

Descendants of Johnathan Lodge, who settled in Columbiana county in 1809, held their annual reunion at Kelly park on the Leetonia-Columbiana road Saturday.

Officers elected are: president, Frank Mossman, Leetonia; vice president, Minor Lodge, Leetonia; secretary, Bertha Waddell, Leetonia; treasurer, C. E. Lodge, Leetonia.

The 1927 reunion will be held the first Saturday in August, but the place of the reunion has not been determined.

Among those present were representatives from Detroit, Toledo, Cincinnati, Chicago and as far west as Denver. Letters were read by Charles E. Lodge from relatives in St. Louis and Kentucky, regretting their inability to attend.

Jonathan Lodge died in 1844 and his will is in the files of the office of Probate Judge Lodge Riddle. Judge Riddle read this will during the reunion, and he called attention to the funeral account filed by the executor, one item of which showed $12 having been paid to Erastus E. Eells of Lisbon as funeral expenses.

### ROAD STRETCH TO BE IMPROVED

County Surveyor Lloyd C. Kirk has been informed that the commissioners of Stark county propose to have the four-mile stretch of road betwen Mt. Union and Harrisburg improved before cold weather sets in. Contracts have just been entered into between the county and A. J. Orr of Marion for the surfacing of this piece of road on a bid of $191,180.31, or under $50,000 per mile.

The Pennsylvania railroad crosses this road, and an overhead bridge is to be built, the estimated cost of which is $49,000.

It is said that work on the new road will begin this week, according to word received by Mr. Kirk.

#### Haskins Paroled.

Myron E. Haskins, who was committed to the county jail from the Municipal court at East Liverpool on a liquor charge has been parolled by the county commissioners upon the recommendation of the committing court. Haskin has agreed to pay the balance of the fine now due in monthly installments.

#### Leave To File.

Leora Farmer, defendant in a divorce action filed in common pleas court against her husband Earl Farmer, has been granted 10 days by the court to file an amended cross petition and answer.

In this cause, the court has ordered Farmer to pay his wife $35 temporary alimony within 10 days and $5 per week for the support of a minor child, the latter payment to be made every two weeks.

### State Highway Bureau Appropriates $5,000 For Road Improvement

Announcement has been made by the state highway department that $5,000 of state funds have been set aside and available immediately for use on section G-3 of the East Liverpool-Youngstown road.

The department has also advised the county commissioners that it will be inpossible at this time to arrange for a conference between the state highway department and the county commissioners relative to the 1927 road program until after the next session of the state legislature.

It has been made known that numerous boards of commissioners have sought appointments for road conferences having to do with future work, but the department has announced that 1927 funds will not be available until after the legislature convenes.

So far as this county is concerned, however, there will be no change in the early 1927 road program as has been previously outlined. County, state and federal aid has already been appropriated for a major portion of the 1927 road building program, and appropriations that will be made next year will have to do with the 1927-1928 aid program, which begins July 1st.

### FREDA CUNNING GIVEN DIVORCE

A decree of divorce has been granted by Judge W. H. Spence to Freda D. Cunning of East Liverpool, against her husband, George B. Cunning. The defendant was charged with extreme cruelty and gross neglect of duty.

Cunning has been ordered to pay his wife $30 each month as alimony, and in addition has been also ordered to pay her $40 on the first of each month for the support of a minor child.

The plaintiff was represented by Cochran and Crawford of East Liverpool.

#### Seeks Citizenship.

An application for his first citizenship paper has been filed with Clerk of Courts Frank Ballantine by Dionisie Popa, a native Rumania, and residing at 110 Depot street, Salem. The young man is 18 years of age and is a student. He arrived at the port of New York from France on the Olympic Sept. 25, 1923.

#### Judgment Entered.

In the case of Cora E. # Chester Topples Victory Motors In City League Clash, 6-2

## Score Every Inning As P. Bennett Holds Foe to Four Drives

### Errors by Buzzard and Mundy Aid 1925 Champions' Cause in Early Part of Game; Sainor Touched for Seven Hits by Winners.

BEFORE a throng of spectators that crowded all available accommodations, Chester, scoring in every inning, defeated the aggressive Victory Motor aggregation in a City league clash at Klondyke last evening, 6 to 2.

Darkness set in early and caused the game to end in the fifth inning.

Aided by errors by the usually reliable Buzzard and Bill Mundy, Chester took on an early advantage and timely hitting enabled the West Virginians to maintain it. The middle gardener dropped a fly at the outset of the second and Mundy an assist at the beginning of the third which resulted in later scoring.

Victory Motor had forged to the front in the first when two runs were made as against the one Chester annexed. Buzzard's muff made possible Chester's tying the count, while Mundy's miscue permitted the 1925 champs to take the lead from which they were not dislodged.

Though he made two bad throws to the bases which were not costly, P. Bennett held the opposition after the first inning when a pass and two singles were bunched for a couple of runs. He was a bit wild, walking four while he fanned three. He had a perfect day at the bat with two singles in two attempts by which he drove in a couple of runs. He allowed four safe drives.

Sainor, delivering four passes, was also a trifle wild. He permitted seven bingles and fanned two. He contributed a timely single in the first and scored the second of the two runs which his club made.

With his brace of hits Bennett led Chester at the plate and shared honors with P. Cebula and Wilde on the paths. The latter two purploined two apiece.

Tommy Sayres, former Laughlin second sacker, who has just returned from the west, batted for J. Strobel in the fifth and walked after W. Mundy had flown out to F. Marshall. Sayres yesterday was traded to Victory Motors for Outfielder Fowler, Laughlin needing a gardener.

Then V. Bailey crashed out a long fly to Wilde. Buzzard beat out an infield hit to third, but both died on the bases as Sainor fanned.

Evans, singling in the first, reached second as Heckathorne sacrificed, Sainor to C. Coleman and scored on P. Cebula's double. Wilde singled. Both runners moved upon a wild pitch, but both remained on the bags as L. McMath fanned and F. Marshall went out, Sainor to S. Coleman.

After J. Strobel had skied to C. Marshall and V. Bailey had been retired, L. McMath to Heckathorne, Buzzard drew a pass. He went to third as Sainor singled to left, the latter reaching second on the throw to the hot corner. Robinson, singling to middle, scored both runners. Baker ran for Robinson, but C. Coleman struck out.

Buzzard, after gracefully going back and camping under C. Marshall's long fly in the second, dropped it. The latter reached second as W. McMath went out, J. Strobel to W. Mundy. P. Bennett singled to left, scoring him. Evans walked and stole third after P. Bennett had been caught at third, Robinson to W. Mundy to V. Bailey. Heckathorne fanned.

P. Cebula reached first safely as W. Mundy dropped V. Bailey's assist on his drive to third. He stole second and third. L. McMath walked and purloined second after Wilde had flown to Buzzard. Both scored on F. Marshall's single to right. C. Marshall fanned. W. McMath grounded to W. Mundy.

P. Bennett, singling to middle in the fourth, went to second as Evans sacrificed, Sainor to C. Coleman. Heckathorne scored him by singling to middle. P. Cebula lined to C. Coleman, who stepped on second, completing a fast double play.

Wilde, walking in the fifth, reached second on L. McMath's sacrifice, V. Bailey to W. Mundy. He then stole third and home.

## K. T. K.-LAUGHLIN PLAY 9-9 TIE

### McCoy Club Scores Seven in Fifth to Knot Count.

K. T. K. and Laughlin battled to a tie, 9-9, in their City league combat at Newell last evening. Though the Ohioans were in the lead, 9 to 2, during the early stages of the contest their rivals scored seven runs in the final half of the fifth on five singles, two triples and a home run with two on, by Buben, and knotted up the verdict.

*Jackson had held his opponents until the final period. Then the West Virginians began to hit and there was no stopping them.*

Thomas, hurling his first game for Laughlin this year, was hit hard, a total of nine blows being made off him. Every Laughlin player hit safely and had Merchant and Rose connected, the Katies would have done likewise.

Babb had two singles in his two batting tries. Shaw had a perfect day at bat with a single, double and a sacrifice in three attempts while Simcox had a single and a triple in four efforts.

In all seven doubles, three triples and a home run were made during the engagement.

## DEMPSEY FACES COMMISSION

### Will Request Permit Today for Tunney Battle.

By David J. Walsh.

NEW YORK, Aug. 10. — Local experts on the subject of punched noses seem to be agreed that Jack Dempsey has proved he can accept a sock on his reformed beezer without distress, but the writer feels that the resistance of his profile to informal alterations must undergo its real test today.

Dempsey will approach the meeting of the New York license committee with a request for a license that will permit him to dally with Gene Tunney on September 16 and there was a hot tip on Broadway that the champion was due to walk right into a fast one. The tipsters said that Dempsey either would be denied a license outright or that his application would be tabled and I am pleased to regard the statement as the best news Dempsey has had since Firpo finally stopped getting up that night.

Given two guesses, Broadway always picks the right one on its second chance.

Anyhow, the big moment was only a few hours away this morning. Cols. Phelan and Wear, of the committee, will have to do one thing or the other. If they say no, the punch will end full on the champion's most discussed feature and the chances are that he never will be the same.

## INSIDE GOLF

By CHESTER HORTON,
Maker of 51 Golf Champions.
"Golf's most successful teacher," says "Chick" Evans.

Socketing is a fault that comes on a golfer like the flu and lasts longer usually. Instead of getting rid of it, the player usually aggravates it because of the desperate efforts he makes for a cure. This upsets his whole game. A number of things can cause socketing. One is a habit of letting the right arm collapse just as the clubhead gets to the ball instead of whipping into the ball. Another is an unconscious habit of pushing forward with the body toward the ball. This naturally pushes the clubhead outward so the ball is hit with the socket of the clubhead. If this is the cause of a case of socketing, go back to the original principle of swinging the clubhead, not the body. The best way to get back to a rhythmic swing is to begin with short swings, in practice, and gradually work up.

## LEATHERNECK OR CHAMPION?

### Jeffries Picks Dempsey; Sharkey Likes Tunney.

By Ben Stern.

CLEVELAND, Aug. 10.—"Jack Dempsey will beat Gene Tunney."

With a smile, James J. Jeffries, the "big fellow" who used to bowl 'em over in the squared arena, turned back to the mirror and adjusted his tights prior to appearing in an exhibition bout at a local theatre.

There was a roar from the next room and in jumped Tom Sharkey, the fighting tar.

"What do you mean by that, Jeff?" he snorted, "It's a lead pipe cinch for the leatherneck."

It looked for a moment that the historic battle of Coney Island of 1899 when the barrel chested tar fought the "big fellow" to a standstill in twenty rounds might be repeated. But their managers interfered and another battle was averted.

"I have three good reasons for believing Dempsey will mall Gene Tunney." Jeffries calmly explained. "First, because Dempsey is the hardest hitting fighter in action today, second, because for a big man Dempsey is fast and third because of the fact he is a titleholder."

"That's all gravy," Sharkey retorted. "The Utah cowboy hasn't had a real fight in years. He has been out of actual training for three years. That will tell. If he couldn't put away Tom Gibbons who never was a real heavy-weight contender he can't put away this boy. He let Firpo paste him through the ropes and the Argentine was the biggest clown that ever entered the ring. Carpentier nearly had him gone and the Frenchman never amounted to much. I think Tunney is faster than Dempsey."

Jeffries pointed to the psychological value of a championship title.

"More men have been defeated by the very prestige of a champion. When a challenger enters the ring against a champion he has an inner feeling that the champion must be good. I know from experience."

Sharkey denied this.

"Look at me, Jeff," he said. "When I got out of the navy no one thought I could fight. The sports writers asked: 'Who is that paluka?' But I showed them and in one year I fought Corbett, Fitzsimmons and you, all for $10,000."

Big Jeff also thinks Dempsey can beat Harry Wills.

"Wills' hands are brittle and he is not a chicken any more," Jeff said. "I got off Wills when I saw Sam Langford whip him in Los Angeles several years ago. Wills hit Langford with everything he had and then Langford knocked him for a row."

## Letter Men to Map Out Gridiron Plans

### Directors Call Session for Tomorrow Evening at 8 O'clock at High School; Will Back Coach Kidder in Move for Strong Squad.

MINDFUL of the proximity of the football training season and desiring to contribute in every manner possible, aid and backing for the 1926 high school eleven, letter men will meet Wednesday evening at 8 o'clock at the high school to take preliminary action on their part in the approaching campaign.

The meeting is called by directors of the organization, including W. E. Wells, Jr., Harry McNicol, Harvey Price, Henry and Irwin Vorndran, George Kidder, Francis Cannon, J. L. Vodrey, Colin Kinsey, Ernest Bucher and Earl Mundy.

The letter men's club, through its directors, have agreed that an early start will go far in putting the 1926 grid squad up around the top of the football world hereabouts. It is felt that with the interest of former members of the school the board of education will co-operate more fully than ever before in athletics which, it is felt will have a corresponding effect in a betterment of educational activities in general.

One of the original reasons for the club's organization was the procuring of permanent playing grounds which was brought about by the beneficience of the late Monroe Patterson in the gift to the school of what is now Patterson field.

But other details of even as great importance to the welfare and success of this year's athletes can be brought about by concerted action, the letter men feel, both by the organization and to those outside of it who have an interest in it.

**Want Stronger Schedule.**

Not the least of these is for a change in schedule which will admit of the team playing with clubs from Akron, Youngstown, Canton and perhaps other cities within the northeastern and central Ohio scope.

The failure to take on such opposition in the past, the letter men declare, probably has worked a handicap on the growth of the local aggregation. Given a superior class of competition an impetus for superior playing will follow, the directors argue. This done the following of local devotees of the game is certain to reach higher bounds and guaranteeing the financial necessities of the season, and making for an unprecedented loyalty and devotion for the school as an institution.

The further fact that one of the club's members and directors, George Kidder, is to be coach of the undergraduates this year lends to the appropriateness of every former student lending encouragement to the 1926 eleven. To succeed this fall will thus have a double meaning for the city for coach and players will all be home lads.

Kidder qualifies as the first local professional coach the high school has had with the exception of W. E. Wells, Jr., who in 1914 served in this capacity, although not professionally employed, and Ernest Bucher, acting in a similar capacity.

With the meeting of tomorrow it is genuinely felt by proponents of the club backers that crystallization of enthusiasm will reach such dimensions as to overcome obstacles in the way for a successful season.

Those who were members of the letter men's club in 1924 and 1925 are still considered as part of the organization and are expected to attend the conference.

You can always count on P.A.

THERE'S something very solid and substantial about Prince Albert. Dependable . . . as a good friend *should* be. Uniformly mild and mellow. It always tastes the same—which means that it always tastes great! The reason for all this is the excellent *quality* of the tobacco.

Prince Albert quality has made this one brand the most popular among pipe-lovers; has earned for it the title of the National Joy Smoke. Get yourself a tidy red tin of P. A. today at the nearest P. A.-sunshine shop and know for yourself what a grand and glorious smoke it is.

The very first pull will tell you that Prince Albert was *made* for you. Cool, as a breeze off the water is cool. Sweet, with the uncloying sweetness of sun-ripened fruit. Fragrant, as flowers are fragrant. Fragrant in the tin and fragrant in the bowl of your pipe.

Men who thought they were all set on smokes have tried Prince Albert and become converts from the very first puff. There's a bare possibility that you have been fooling yourself. The pleasure you'll get from a jimmy-pipe and P. A. will top any you *think* you're getting now!

*P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*

PRINCE ALBERT

## Chester Reserves Defeat Pughtown Boosters Club, 9-1

The Chester Reserves added another to their string of victories when they walloped the Pughtown Boosters by a 9-1 count.

The game was fast and hard fought at the start, but Chester gradually drew into the lead and a prolonged fifth inning in which Chester scored four runs, caused the game to be called on account of darkness. The Reserves ran the bases almost at will.

Their next contest is scheduled with Smiths Ferry at Smith field, Chester, Wednesday.

When this sublime force fills me, my face blazes with love, and I am transformed into an object of admiration, I beckon to women and they come to me."

MARVELOUSLY ugly, completely bald, physically feeble, spiritually a giant, it is pleasant to know that D'Annunzio is happy, in old age, and that with genius, as with the common man, there is no fool like an old one.

JAMES T. SIMPSON of Chicago, head of the Marshall Field Co., sailing for Europe, on Saturday, was cheerful about American business conditions. Nothing short of a national catastrophe could affect 'our unusually sound and solid prosperity."

Mr. Simpson, whose wholesale department store deals with merchants in every corner of the United States, knows as much as any man about real conditions in this country.

WHAT is it that promotes divorce? The Vassar institute of euthenics is told that marrying outside of your own race, religion, is responsible for 40 per cent of divorces. Alcohol has caused 25 per cent of divorces. The modern kind ought to increase the percentage. Interference by "in-laws" caused many divorces.

The cause of all divorce is human imperfection. Men are not fit for marriage, but they must keep on trying until they are fit.

AMERICANS generally are unpopular in Europe. Many deserve it, with their bragging, squandering and provincial ignorance, but that fine girl Gertrude Ederle, who has gone to Germany to visit her grandparents, was not unpopular, after she swam the English channel. Three thousand British gathered to cheer her, and in France, she was received with wild enthusiasm. Whoever does anything

## OHIO ELECTORS TREK TO POLLS IN QUIETEST PRIMARIES IN YEARS

### With No Outstanding Issues at Stake, Electorate Has Shown Nothing But Apathy During Campaign Despite Large Field of Candidates Seeking Republican and Democratic Places.

### JUDGMENT ALSO PASSED UPON NEW PLAN OF CITY IMPROVEMENT COSTS

### Columbiana County Election Supervisors Instruct Judges and Clerks to Speed Count of Ballots, Then Rush Reports by Telephone or Messenger to District Headquarters.

With approximately 775 votes polled at noon, indications were that one of the smallest votes ever registered in East Liverpool will be cast at today's primaries. Unless the voting picks up during the late afternoon and early evening hours not more than 2,500 votes out of a total of a registration of more than 8,000 are expected.

Fifteen of the city's 21 precincts from which returns were available at noon reported 492 Republican and 68 Democratic ballots in the boxes, a total of 560 votes or an average of 37 1-3 votes per precinct. If this ratio were maintained, the total vote cast at that hour was about 775.

The balloting among Democrats was especially light, despite the many contests for state offices. The party's poll ranged from three to seven in a precinct.

Precinct A of the Second ward, Litten garage, Fifth and Walnut streets, reported the largest vote, 59 ballots having been cast. The smallest vote was in Precinct D of the Fourth ward, F. L. Fisher grocery, Eighth street, where but 21 ballots had been marked.

**Polls Close at 6:30 P. M.**

The light vote indicated apathy on the part of the electorate despite the many contests.

The polls will close at 6:30 o'clock tonight. Precinct election officials here have been instructed by the election board to speed up the count and rush the returns to the election board office, Betz building, Market street, by mesesnger. First of the returns are expected at 7:30 o'clock.

The two party ballots will be the first to be counted by the precinct boards. The other ballot is a proposed state amendment which pertains to street improvement assessments.

CLEVELAND, O., Aug. 10. — With the eyes of the nation upon them Ohio voters today went to the polls in one of the bitterest primaries in many years.

Despite perfect weather the vote was expected to be light. There were no outstanding issues at stake. The electorate has shown nothing but apathy during the campaign.

Greatest interest was manifested in purely local contests, in Cleveland the race for the Republican nomination for sheriff overshadowing even the Allen-Pomerene Democratic senatorial battle.

## IF CITY CANNOT EXTEND ITS LIMITS, IT CAN DIVORCE ITSELF FROM TOWNSHIP AND PLAY GAME ALONE, SERVICE-SAFETY DIRECTOR MOORE SAYS

"If the city of East Liverpool cannot extend its limits, it can divorce itself from the balance of the township and play the game alone," Service-Safety Director J. W. Moore, who is chairman of the city planning commission, said today in answer to the Liverpool township trustees' opposition to the proposed annexation of outlying suburan districts.

Such procedure, Moore pointed out, is not without precedent as Wellsville withdrew from Yellow Creek township several years ago.

Moore, who declares the service-safety department is in favor of the annexation movement" for the good of all concerned," predicted, however, that the people of the proposed new territory will not be "up in arms" against the plan.

Moore's statement was prompted by the declaration last night by Township Trustee J. T. Croxall that the municipality now is unable to take care of the outlying districts without adding territory to its confines.

The service-safety director also answers Croxall's reference to state aid and a purported request of Dresden avenue residents for an extension of city water mains.

Moore's statement, addressed to the Editor of the Review-Tribune follows:

"In your issue of Monday you carry a story purporting to voice the attitude of the trustees of Liverpool township in opposition to the annexation proposition, as passed by city council on Thursday of last week.

"Permit the writer to say briefly, in reply, that a careful analysis of the article referred to does not convey to the reader a correct impression as to the finances of two political subdivisions as linked together.

"East Liverpool city, as most every one knows, is a part—and much the larger part—of Liverpool township, and all taxpayers of the city pay the tax levy for all township purposes except the road levy, that being offset by the levy for street maintenance.

"It is true that Liverpool township is paying for some of the road improvements within the city limits, but the city proper, being much the larger part of the township, in a proposition such as this, pays much the larger part of the cost, the same being taken care of by a bond issue.

"As to the $1,000 available from the state, under the Green law, we regret the possibility of that not being obtained because of inability to match it dollar for dollar, but the township has never had it in the past and can, no doubt, worry along without it in the future, if the provision cannot be taken advantage of, as suggested.

"With annexation of the territory, as proposed, the township will be relieved of the maintenance of certain thoroughfares, such as a part of Orchard Grove avenue, Jennings avenue, Harker avenue, Beechwood, etc.

"It is further suggested by the township trustees that the city is not taking care of certain sections of outlying territory, now within the city, in the matter of water supply, citing Dresden avenue, where it is stated that 25 families wanting water are deprived of the supply. If even a considerable fraction of that number on Dresden avenue are asking for water this office is without information to that effect. This department and city council are in perfect accord concerning water extension. Already 160 tons of pipe for main extension has been purchased this year and two jobs in East End, one on North Side and another on West Ninth street have been taken care of and not later than the first of the coming week operations will begin in Pleasant Heights.

"If the city of East Liverpool cannot extend its limits, which it can do, it can divorce itself from the balance of the township and play the game alone. Such procedure is not without precedent. Wellsville, as most of us know, cut loose from Yellow Creek township a few years ago and formed a new township, the boundaries of which are co-extensive with the city limits. When we come to that the people in the territory it is proposed to annex, we venture, will not be "up in arms" against annexation but will be falling over each other in the scramble to get in.

"This department is in favor of annexation for the good of all concerned."

Frank Robinson, water works clerk, explained the municipal filtration plant.

Frank Harding presided at the meeting. Refreshments were served by a committee.

## OHIO ELECTORS TREK TO POLLS IN QUIETEST PRIMARIES IN YEARS

### With No Outstanding Issues at Stake, Electorate Has Shown Nothing But Apathy During Campaign Despite Large Field of Candidates Seeking Republican and Democratic Places.

### JUDGMENT ALSO PASSED UPON NEW PLAN OF CITY IMPROVEMENT COSTS

### Columbiana County Election Supervisors Instruct Judges and Clerks to Speed Count of Ballots, Then Rush Reports by Telephone or Messenger to District Headquarters.

With approximately 775 votes polled at noon, indications were that one of the smallest votes ever registered in East Liverpool will be cast at today's primaries. Unless the voting picks up during the late afternoon and early evening hours not more than 2,500 votes out of a total of a registration of more than 8,000 are expected.

Fifteen of the city's 21 precincts from which returns were available at noon reported 492 Republican and 68 Democratic ballots in the boxes, a total of 560 votes or an average of 37 1-3 votes per precinct. If this ratio were maintained, the total vote cast at that hour was about 775.

The balloting among Democrats was especially light, despite the many contests for state offices. The party's poll ranged from three to seven in a precinct.

Precinct A of the Second ward, Litten garage, Fifth and Walnut streets, reported the largest vote, 59 ballots having been cast. The smallest vote was in Precinct D of the Fourth ward, F. L. Fisher grocery, Eighth street, where but 21 ballots had been marked.

**Polls Close at 6:30 P. M.**

The light vote indicated apathy on the part of the electorate despite the many contests.

The polls will close at 6:30 o'clock tonight. Precinct election officials here have been instructed by the election board to speed up the count and rush the returns to the election board office, Betz building, Market street, by mesesnger. First of the returns are expected at 7:30 o'clock.

The two party ballots will be the first to be counted by the precinct boards. The other ballot is a proposed state amendment which pertains to street improvement assessments.

**Greater Interest in Local Contests.**

CLEVELAND, O., Aug. 10. — With the eyes of the nation upon them Ohio voters today went to the polls in one of the bitterest primaries in many years.

Despite perfect weather the vote was expected to be light. There were no outstanding issues at stake. The electorate has shown nothing but apathy during the campaign.

Greatest interest was manifested in purely local contests, in Cleveland the race for the Republican nomination for sheriff overshadowing even the Allen-Pomerene Democratic senatorial battle.

## IF CITY CANNOT EXTEND ITS LIMITS, IT CAN DIVORCE ITSELF FROM TOWNSHIP AND PLAY GAME ALONE, SERVICE-SAFETY DIRECTOR MOORE SAYS

"If the city of East Liverpool cannot extend its limits, it can divorce itself from the balance of the township and play the game alone," Service-Safety Director J. W. Moore, who is chairman of the city planning commission, said today in answer to the Liverpool township trustees' opposition to the proposed annexation of outlying suburan districts.

Such procedure, Moore pointed out, is not without precedent as Wellsville withdrew from Yellow Creek township several years ago.

Moore, who declares the service-safety department is in favor of the annexation movement" for the good of all concerned," predicted, however, that the people of the proposed new territory will not be "up in arms" against the plan.

Moore's statement was prompted by the declaration last night by Township Trustee J. T. Croxall that the municipality now is unable to take care of the outlying districts without adding territory to its confines.

The service-safety director also answers Croxall's reference to state aid and a purported request of Dresden avenue residents for an extension of city water mains.

Moore's statement, addressed to the Editor of the Review-Tribune follows:

"In your issue of Monday you carry a story purporting to voice the attitude of the trustees of Liverpool township in opposition to the annexation proposition, as passed by city council on Thursday of last week.

"Permit the writer to say briefly, in reply, that a careful analysis of the article referred to does not convey to the reader a correct impression as to the finances of two political subdivisions as linked together.

"East Liverpool city, as most every one knows, is a part—and much the larger part—of Liverpool township, and all taxpayers of the city pay the tax levy for all township purposes except the road levy, that being offset by the levy for street maintenance.

"It is true that Liverpool township is paying for some of the road improvements within the city limits, but the city proper, being much the larger part of the township, in a proposition such as this, pays much the larger part of the cost, the same being taken care of by a bond issue.

"As to the $1,000 available from the state, under the Green law, we regret the possibility of that not being obtained because of inability to match it dollar for dollar, but the township has never had it in the past and can, no doubt, worry along without it in the future, if the provision cannot be taken advantage of, as suggested.

"With annexation of the territory, as proposed, the township will be relieved of the maintenance of certain thoroughfares, such as a part of Orchard Grove avenue, Jennings avenue, Harker avenue, Beechwood, etc.

"It is further suggested by the township trustees that the city is not taking care of certain sections of outlying territory, now within the city, in the matter of water supply, citing Dresden avenue, where it is stated that 25 families wanting water are deprived of the supply. If even a considerable fraction of that number on Dresden avenue are asking for water this office is without information to that effect. This department and city council are in perfect accord concerning water extension. Already 160 tons of pipe for main extension has been purchased this year and two jobs in East End, one on North Side and another on West Ninth street have been taken care of and not later than the first of the [illegible] week operations will begin in Pleasant Heights.

"If the city of East Liverpool cannot extend its limits, which it can do, it can divorce itself from the balance of the township and play the game alone. Such procedure is not without precedent. Wellsville, as most of us know, cut loose from Yellow Creek township a few years ago and formed a new township, the boundaries of which are co-extensive with the city limits. When we come to that the people in the territory it is proposed to annex, we venture, will not be "up in arms" against annexation but will be falling over each other in the scramble to get in.

"This department is in favor of annexation for the good of all concerned."

NOW FOR THE CLIMAX!

Bee and Lou are modern girls sharing a Greenwich Village apartment. Bee is an actress with a fond hope of success. Into the Village comes Delia, frail poetess of New England, seeking freedom from the repressions of her home. And Bee, a school chum of the freedom-seeker, invites here to share their apartment. Delia meets Wilbur, a young artist who is suffering from "too much mother" and whom Lou has undertaken to rescue; Leslie, intimate of Lou, and Arthur Rockwell, the poet whose work Delia knows and admires; and various others of the Village crowd.

Bee and Lou have their troubles. Bee is beset by a highly successful young business man who wants to marry her and carry her off from the Village; Lou and Leslie come to a misunderstanding because of her efforts in behalf of Wilbur. And Delia fast succumbs to the fascination of Rockwell, who is unscrupulous in love. Matters grow tense. Bee loses her theatre job and takes to waiting in a Village tea room. Wilbur, driven desperate by his mother, prevails on Lou to pretend she is engaged to him. This, though unhappily, she undertakes to do. Bee and Fred appear to have broken off indefinitely and Delia begins to discover the tragedy of trusting Arthur.

Just when Lou and Bee, depressed by continued hard luck, plan to run to the country for a rest, Lou is asked by a great cinema director to go to Hollywood as a decorative artist; Bee plans to go along. The world turns rosy. Then they come home to find Delia deathly ill; she has taken poison as a result of her affair with Arthur. Her life and happiness are ruined. Bee and Lou forget everything save a desperate attempt to save the dying girl.

This is the last synopsis to be printed. From this point the story moves swiftly and dramatically to a smashing climax and conclusion. Don't miss a single day's instalment.

## CHAPTER THIRTY-SEVEN.

Arthur's friend Abeloni was at home. Arthur was looked for shortly. Bee and Fred waited in the living room, talking a little in hushed voices, while Joe, who had a dinner engagement excused himself to dress.

"I imagine Arthur's in on that dinner," said Bee.

"He may think he is," was all Fred had to reply to that. Bee glanced quickly at his set face. Fred was different. Whatever experiences he might have been put through of late, had deepened him.

He spoke next: "I'm scheming it out, Bee. The thing to do is to put that right through—within the hour, if it's humanly possible. There are some difficulties. One of 'em's the license. But unless I'm mistaken, the old common-law thing still holds in this state. You know, a simple declaration in the presence of witnesses. Of course, we've got to have a minister. The thing must have the right ring to it. I know a mighty good chap. He was a fighting parson in France. I believe he'd come through when he understands the desperate nature of the case—that it's to save a life. It'll be simple enough to have a church ceremony afterward if she gets well—or even to do it again there in the rooms as soon as we can get the license. That's just details. The thing now is to convince the girl."

A telephone instrument stood on a desk near at hand. Fred drew it over, held it while he considered the problem quickly but surely from every angle; and then, without speaking further to Bee, he called a number. Quietly he explained that there was a grave emergency to be met.

"It's all right," he said, hanging up the receiver. "He'll wait there for us to pick him up. I'll tell him the rest of it on the way down."

A few moments after that they heard a key in the lock. A door opened. Bee saw Arthur in the hall. He was calling cheerily for Joe. Then, slightly puzzled, he came to the door of the living room. Bee, as she spoke to him and mechanically introduced him to Fred, took him in with a sinking heart. It was so clear that he hadn't a care. His was a will that had never for a moment been curbed. The discipline of art he knew, but no other. She had heard him say with some show of feeling that life is the most difficult of the arts, that it is to be lived as a poem. In his self-centered way he had exemplified his theory. She studied the handsome face with the dark cool eyes, the mouth chiseled like Apollo's, the long, graceful body, the column-like neck rising out of the softly rolling collar. Fred, who had risen was studying him too—without a hint of emotion, measuring him.

It was an odd, long silence. Bee hadn't foreseen that she would find herself in such a flutter. Alone, she would have stormed at him. And he might have outwitted her. She hadn't thought of that. She turned to Fred, who gravely spoke:

"Delia Dudley is at the point of death."

Arthur's cool eyes rested on him, then on Bee. "I'm very sorry to hear that," he said. His voice was gentle, as befitted the moment. He had always made a serious point of speaking the language beautifully. "Won't you sit down?"

"There's no time for that," Bee broke in, not too hotly—she was governed by Fred's firm strength — but with an earnest intensity that brought Arthur's eyes again to her. "We've come to take you right down there."

"But why?" Arthur dropped into a comfortable chair, produced a silver cigarette-case, and thoughtfully knocked a cigarette against it. "Pardon me—will you smoke?" Both shook their heads. "I'm sure I needn't tell you how sorry I am that Delia is ill. She is a dear girl. But I confess I'm a little at a loss to understand why you come at me in this way."

Bee, on her feet, moved toward him, heated enough now. "She has taken poison, Arthur. You know well enough the reason. There's just one thing left for you to do now."

"Just a moment." Hhe had lighted the cigarette while she was speaking. "Just a moment, while I try to clear this up. Apparently your visit is a little—just a little—in the nature of a personal attack. I hardly know just what to say to that. So far as my having had an affair with Delia, that is true enough. I haven't the faintest desire to conceal it. But it was a perfectly understood thing. She knew—she must have known—that I couldn't let myself into a permanent attachment of any sort. My business isn't with the routine of life. My business is with beauty. She knew that. I told her so, frankly. Now, Bee,—I really think you'd better sit down while we talk this over—you spoke of the one thing for me to do. May I ask what that is?"

Bee's thoughts were drifting back to certain earlier remarks of her own. They were rather unsettling. But she spoke now positively enough. Whatever she may have thought or said in other days wasn't pertinent now. Only today was alive.

"You've got to marry her, Arthur."

Fred stood aside, still quietly studying and measuring the man. Joe, off in a bedroom, was softly humming a jazz tune.

Arthur leaned back, smoking in that reflective way, and bent narrowed eyes on Bee. "I'm rather puzzled," he said. "Now, just a moment. Understand that I'm as shocked and sorry as anybody could possibly be. It's evident that a really awful thing has happened. You'd never have come to me in this way otherwise. And of course I'll do anything I can to help. But what is this about marriage? You're an intelligent human being, Bee. What on earth has got into your mind? If the poor girl hasn't the brain or the understanding to live an enlightened modern life, the life she deliberately set out to live—she told me that herself—what on earth has marriage to do with it? Of course I wont marry her. You know better than that, Bee."

# STORK BUSY IN BRONX PARK ZOO; ANIMALS WILL GREET BABY GIRAFFE

NEW YORK. — The stork in the Bronx Park zoo these days has been as busy as a baby carriage wheel on a balmy Sunday morning.

Animalkind is all aflutter over the expected arrival of a baby giraffe. It was two years ago that the only birth of a giraffe in the annals of the zoo occurred and the infant only lived a few days.

The expected kid giraffe will have a number of playmates to highneck. There are five baby aoudads, popularly known as Barbary sheep; a quartet of little Himalayan tahrs, belonging to the goat family; two tiny mouflons, resembling sheep; three young European red deer, two Indian deer, two American elk and five fallow deer, as well as a little zebra only several days old.

The baby zebra is a daughter of Pete and Queenie. The mother is reported to be doing well.

# Austria Makes Profit On Tobacco Monopoly; Old Records Broken

VIENNA.—The Austrian government last year credited its exchequer with 167,093,757 schillings ($23,870,536) as the profit of the state monopoly on tobacco. For a country in the throes of trade depression and unemployment the figure is remarkable. It represents a profit of almost four dollars for every man, woman and child in the country.

As a tobacco manufacturer the government is eminently successful belying the common conception of governmental control. The industry is by far the most flourishing in the country, employing about 10,0000 men workmen in the factories and licensing more than 15,000 shops.

The profits for last year are about ten per cent greater than the year before. About 78 per cent is represented by the profit on cigarettes.

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

**Better Than Soda**

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

UNITED STATES TIRES ARE GOOD TIRES

*Questions and Answers about "What Makes a Good Tire?"*

***Question—Does any one single feature make a good tire?***

Answer—No.

***Question—Then what does make a good tire?***

Answer—The perfection of *all* the different operations that are necessary in producing the finished product *from tree to tire.*

***Question—As for example?***

Answer—The success of the United States Royal Cord Balloon in delivering true balloon cushioning and comfort, and yet giving long-lasting service is largely due to these *six* important factors:

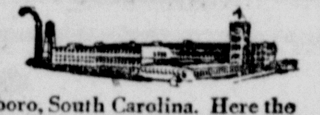
*Plantations*

The United States Rubber Company owns and operates scientific Rubber Plantations in Sumatra and Malaya. Has 7,000,000 rubber trees, all yielding Latex now, from which this Company produces its Sprayed Rubber and its Latex-treated Web Cord.

*Sprayed Rubber*

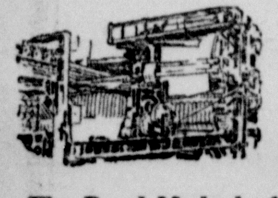
Of the greatest importance, because of its fine quality, and its freedom from acid and smoke. Briefly, the Latex is sprayed into a chamber containing hot, dry air, which dries out the liquid from the Latex, leaving the pure, solid rubber. This does away with the old methods of smoke-drying and acid coagulation.

*Uniform Cotton Cord*



To insure absolute uniformity and high quality of the cotton cord used in United States Tires, the United States Rubber Company operates its own cotton mills at Winnsboro, South Carolina. Here the choicest grade cotton is made into cords to meet the rigid requirements of the tire factories where it is used to produce Latex-treated Web Cord.

*Latex-treated Web Cord*

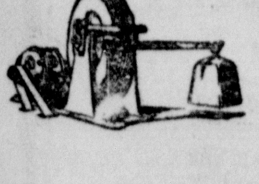


Also an invention of the United States Rubber technicians. The cords are laid parallel *without* tie-threads, and soaked in virgin rubber Latex, which forms an elastic web through and through and between the cords. Important because it gives the cord structure maximum *strength* and maximum *flexibility.*

*Flat-Band Method of Building Tires*

Do not miss the importance of this revolutionary improvement in tire-building. The way it works is highly technical. But the result is that each cord in a United States Royal Cord is made to lie in exactly the right position, under precisely the right tension, and to take its due share of the work.

*Searching Tests from the Tree to the Tire*



United States Tire tests begin with the raw materials—and these tests never stop. Many tests are made during the process of manufacture and finished tires undergo various factory tests such as the "Tread Wear Test" illustrated. Even after the tires are sold and in use, their performance on the road is being checked by factory-trained experts stationed all over the country.

# PROVEN PUDDING by SAMUEL MERWIN

©1925 BY THE CONSOLIDATED MAGAZINES CORPORATION RELEASED THROUGH CENTRAL PRESS ASSOCIATION

**NOW FOR THE CLIMAX!**

**Bee and Lou are modern girls sharing a Greenwich Village apartment. Bee is an actress with a fond hope of success. Into the Village comes Delia, frail poetess of New England, seeking freedom from the repressions of her home. And Bee, a school chum of the freedom-seeker, invites here to share their apartment. Delia meets Wilbur, a young artist who is suffering from "too much mother" and whom Lou has undertaken to rescue; Leslie, intimate of Lou, and Arthur Rockwell, the poet whose work Delia knows and admires; and various others of the Village crowd.**

**Bee and Lou have their troubles. Bee is beset by a highly successful young business man who wants to marry her and carry her off from the Village; Lou and Leslie come to a misunderstanding because of her efforts in behalf of Wilbur. And Delia fast succumbs to the fascination of Rockwell, who is unscrupulous in love. Matters grow tense. Bee loses her theatre job and takes to waiting in a Village tea room. Wilbur, driven desperate by his mother, prevails on Lou to pretend she is engaged to him. This, though unhappily, she undertakes to do. Bee and Fred appear to have broken off indefinitely and Delia begins to discover the tragedy of trusting Arthur.**

**Just when Lou and Bee, depressed by continued hard luck, plan to run to the country for a rest, Lou is asked by a great cinema director to go to Hollywood as a decorative artist; Bee plans to go along. The world turns rosy. Then they come home to find Delia deathly ill; she has taken poison as a result of her affair with Arthur. Her life and happiness are ruined. Bee and Lou forget everything save a desperate attempt to save the dying girl.**

**This is the last synopsis to be printed. From this point the story moves swiftly and dramatically to a smashing climax and conclusion. Don't miss a single day's instalment.**

## CHAPTER THIRTY-SEVEN.

Arthur's friend Abeloni was at home. Arthur was looked for shortly. Bee and Fred waited in the living room, talking a little in hushed voices, while Joe, who had a dinner engagement excused himself to dress.

"I imagine Arthur's in on that dinner," said Bee.

"He may think he is," was all Fred had to reply to that. Bee glanced quickly at his set face. Fred was different. Whatever experiences he might have been put through of late, had deepened him.

He spoke next: "I'm scheming it out, Bee. The thing to do is to put that right through—within the hour, if it's humanly possible. There are some difficulties. One of 'em's the license. But unless I'm mistaken, the old common-law thing still holds in this state. You know, a simple declaration in the presence of witnesses. Of course, we've got to have a minister. The thing must have the right ring to it. I know a mighty good chap. He was a fighting parson in France. I believe he'd come through when he understands the desperate nature of the case—that it's to save a life. It'll be simple enough to have a church ceremony afterward if she gets well—or even to do it again there in the rooms as soon as we can get the license. That's just details. The thing now is to convince the girl."

A telephone instrument stood on a desk near at hand. Fred drew it over, held it while he considered the problem quickly but surely from every angle; and then, without speaking further to Bee, he called a number. Quietly he explained that there was a grave emergency to be met.

"It's all right," he said, hanging up the receiver. "He'll wait there for us to pick him up. I'll tell him the rest of it on the way down."

A few moments after that they heard a key in the lock. A door opened. Bee saw Arthur in the hall. He was calling cheerily for Joe. Then, slightly puzzled, he came to the door of the living room. Bee, as she spoke to him and mechanically introduced him to Fred, took him in with a sinking heart. It was so clear that he hadn't a care. His was a will that had never for a moment been curbed. The discipline of art he knew, but no other. She had heard him say with some show of feeling that life is the most difficult of the arts, that it is to be lived as a poem. In his self-centered way he had exemplified his theory. She studied the handsome face with the dark cool eyes, the mouth chiseled like Apollo's, the long, graceful body, the column-like neck rising out of the softly rolling collar. Fred, who had risen was studying him too—without a hint of emotion, measuring him.

It was an odd, long silence. Bee hadn't foreseen that she would find herself in such a flutter. Alone, she would have stormed at him. And he might have outwitted her. She hadn't thought of that. She turned to Fred, who gravely spoke:

"Delia Dudley is at the point of death."

Arthur's cool eyes rested on him, then on Bee. "I'm very sorry to hear that," he said. His voice was gentle, as befitted the moment. He had always made a serious point of speaking the language beautifully. "Won't you sit down?"

"There's no time for that," Bee broke in, not too hotly—she was governed by Fred's firm strength — but with an earnest intensity that brought Arthur's eyes again to her. "We've come to take you right down there."

"But why?" Arthur dropped into a comfortable chair, produced a silver cigarette-case, and thoughtfully knocked a cigarette against it. "Pardon me—will you smoke?" Both shook their heads. "I'm sure I needn't tell you how sorry I am that Delia is ill. She is a dear girl. But I confess I'm a little at a loss to understand why you come at me in this way."

Bee, on her feet, moved toward him, heated enough now. "She has taken poison, Arthur. You know well enough the reason. There's just one thing left for you to do now."

"Just a moment." Hhe had lighted the cigarette while she was speaking. "Just a moment, while I try to clear this up. Apparently your visit is a little—just a little—in the nature of a personal attack. I hardly know just what to say to that. So far as my having had an affair with Delia, that is true enough. I haven't the faintest desire to conceal it. But it was a perfectly understood thing. She knew—she must have known—that I couldn't let myself into a permanent attachment of any sort. My business isn't with the routine of life. My business is with beauty. She knew that. I told her so, frankly. Now, Bee,—I really think you'd better sit down while we talk this over—you spoke of the one thing for me to do. May I ask what that is?"

Bee's thoughts were drifting back to certain earlier remarks of her own. They were rather unsettling. But she spoke now positively enough. Whatever she may have thought or said in other days wasn't pertinent now. Only today was alive.

"You've got to marry her, Arthur."

Fred stood aside, still quietly studying and measuring the man. Joe, off in a bedroom, was softly humming a jazz tune.

Arthur leaned back, smoking in that reflective way, and bent narrowed eyes on Bee. "I'm rather puzzled," he said. "Now, just a moment. Understand that I'm as shocked and sorry as anybody could possibly be. It's evident that a really awful thing has happened. You'd never have come to me in this way otherwise. And of course I'll do anything I can to help. But what is this about marriage? You're an intelligent human being, Bee. What on earth has got into your mind? If the poor girl hasn't the brain or the understanding to live an enlightened modern life, the life she deliberately set out to live—she told me that herself—what on earth has marriage to do with it? Of course I wont marry her. You know better than that, Bee."

## STORK BUSY IN BRONX PARK ZOO; ANIMALS WILL GREET BABY GIRAFFE

NEW YORK. — The stork in the Bronx Park zoo these days has been as busy as a baby carriage wheel on a balmy Sunday morning.

Animalkind is all aflutter over the expected arrival of a baby giraffe. It was two years ago that the only birth of a giraffe in the annals of the zoo occurred and the infant only lived a few days.

The expected kid giraffe will have a number of playmates to highneck. There are five baby aoudads, popularly known as Barbary sheep; a quartet of little Himalayan tahrs, belonging to the goat family; two tiny mouflons, resembling sheep; three young European red deer, two Indian deer, two American elk and five fallow deer, as well as a little zebra only several days old.

The baby zebra is a daughter of Pete and Queenie. The mother is reported to be doing well.

## Austria Makes Profit On Tobacco Monopoly; Old Records Broken

VIENNA.—The Austrian government last year credited its exchequer with 167,093,757 schillings ($23,870,536) as the profit of the state monopoly on tobacco. For a country in the throes of trade depression and unemployment the figure is remarkable. It represents a profit of almost four dollars for every man, woman and child in the country.

As a tobacco manufacturer the government is eminently successful belying the common conception of governmental control. The industry is by far the most flourishing in the country, employing about 10,0000 men workmen in the factories and licensing more than 15,000 shops.

The profits for last year are about ten per cent greater than the year before. About 78 per cent is represented by the profit on cigarettes.

FOR Acid Stomach

PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

**Better Than Soda**

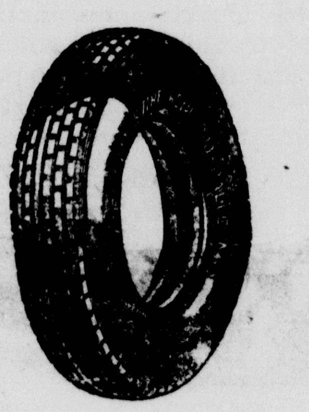
For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

**Try a 25c Bottle**

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

UNITED STATES TIRES ARE GOOD TIRES

*Questions and Answers about "What Makes a Good Tire?"*



***Question—Does any one single feature make a good tire?***

Answer—No.

***Question—Then what does make a good tire?***

Answer—The perfection of *all* the different operations that are necessary in producing the finished product *from tree to tire.*

***Question—As for example?***

Answer—The success of the United States Royal Cord Balloon in delivering true balloon cushioning and comfort, and yet giving long-lasting service is largely due to these *six* important factors:

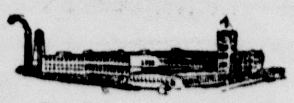
*Plantations*

The United States Rubber Company owns and operates scientific Rubber Plantations in Sumatra and Malaya. Has 7,000,000 rubber trees, all yielding Latex now, from which this Company produces its Sprayed Rubber and its Latex-treated Web Cord.

*Sprayed Rubber*

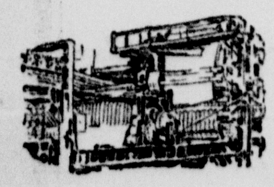
Of the greatest importance, because of its fine quality, and its freedom from acid and smoke. Briefly, the Latex is sprayed into a chamber containing hot, dry air, which dries out the liquid from the Latex, leaving the pure, solid rubber. This does away with the old methods of smoke-drying and acid coagulation.

*Uniform Cotton Cord*



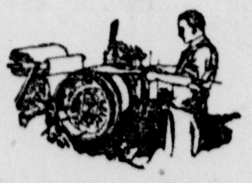
To insure absolute uniformity and high quality of the cotton cord used in United States Tires, the United States Rubber Company operates its own cotton mills at Winnsboro, South Carolina. Here the choicest grade cotton is made into cords to meet the rigid requirements of the tire factories where it is used to produce Latex-treated Web Cord.

*Latex-treated Web Cord*



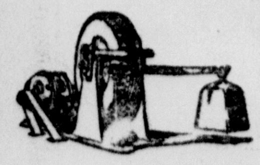
Also an invention of the United States Rubber technicians. The cords are laid parallel *without* tie-threads, and soaked in virgin rubber Latex, which forms an elastic web through and through and between the cords. Important because it gives the cord structure maximum *strength* and maximum *flexibility.*

*Flat-Band Method of Building Tires*



Do not miss the importance of this revolutionary improvement in tire-building. The way it works is highly technical. But the result is that each cord in a United States Royal Cord is made to lie in exactly the right position, under precisely the right tension, and to take its due share of the work.

*Searching Tests from the Tree to the Tire*



United States Tire tests begin with the raw materials—and these tests never stop. Many tests are made during the process of manufacture and finished tires undergo various factory tests such as the "Tread Wear Test" illustrated. Even after the tires are sold and in use, their performance on the road is being checked by factory-trained experts stationed all over the country.

# 229 BALLOTS CAST AT NOON

## Less Than Eight Percent of Voters Out This Morning.

With less than eight percent of the city's estimated voting strength out at noon, today's primary balloting was expected to bear out advance predictions of an unusually light poll.

Approximately 229 voters had made their appearance in the nine precincts of the city up until 12 o'clock. Unless there is an unprecedented last minute rush, the total probably will not exceed the 1,200 mark and possibly will not go more than 1,000, in the opinion of election board officials.

Precinct B of the second ward at noon showed the heaviest balloting. In all 60 votes had been cast, of which 53 were Republicans and seven Democrats.

The lightest vote until noon was cast in Precinct C of the Fourth ward at the W. J. Moore residence, 1812 Clark avenue, where seven Republican and two Democrat ballots had been filed.

In all nine precincts there were 193 Republican and 36 Democrat voters, the noon survey showed.

The vote by ward and precinct:

**First Ward.**

Precinct A—Republican, 17; Democrat, 5.

Precinct B—Republican, 53; Democrat, 7.

**Second Ward.**

Precinct A—Republican, 27; Democrat, 6.

Precinct B—Republican, 36; Democrat, 3.

**Third Ward.**

Precinct A—Republican, 18. Democrat, 5.

Precinct B—Republican, 9; Democrat, 3.

**Fourth Ward.**

Precinct A—Republican, 15; Democrat, 2.

Precinct B—Republican, 11; Democrat, 2.

Precinct C—Republican, 7; Democrat, 2.

Total vote—229; Republican, 193; Democrat, 36.

## ALLEGED SLAYER GIVEN FREEDOM

John Cook is free. The man charged with slaying Nettie and Robert Herron, brother and sister, on their Two Ridges farm, March 2, walked out of the Jefferson county jail last night where he has been confined five months.

Cook was picked up on suspicion the day the bodies were found, Bob with his head crushed from a mattock blow and Nettie strangled and hanged from the ceiling of the kitchen with a rope.

He was indicted for first degree murder. A jury found him not guilty of the one count, that of slaying the woman. He was held for the indictment of slaying Bob Herron and yesterday Judge J. B. Paisley admitted him to bond of $1,000. Prosecutor Roy N. Merriman protested that it was not enough to fit the crime but the court overruled. A few hours later bondsmen appeared and gained his freedom.

Sheriff William Allison denied reports that Cook was a trustee in the jail during his incarceration. "He was just a model prisoner and allowed freedom of the corridors" the sheriff said. The state has appealed the case on error.

# ARRANGE PLANS FOR ROCCO DAY

## Fireworks Display, Parade, Church Services Listed.

Arrangements are practically complete for the annual St. Rocco day observance which will be held here Saturday and Sunday by Italian residents of the city, committees in charge of the event announced today.

The celebration officially is scheduled to get under way Saturday afternoon and will conclude Sunday afternoon.

Band music, fireworks and special church services are listed among the events on the St. Rocco program.

Music for the affair will be provided by Prof. Pascarelle's 25-piece Union Italian band, of Youngstown.

Prof. Pascarelle's band will open the program with a concert Saturday afternoon at 2 o'clock at Eleventh and Main streets and will play again at night prior to the pyrotechnical display at Hammond park which probably will start at 11 o'clock.

The St. Rocco day observers will attend a special mass at 10 o'clock Sunday morning in the Immaculate Conception church and will hold their customary parade at 11 o'clock, traversing Main street and Broadway. Approximately 300 are expected to take part in the parade.

On Sunday afternoon the band will conclude the celebration with a concert at Eleventh and Main streets.

## ADJUST CASE WITH PHONE CO.

Differences that have existed between the trustees of the First Presbyterian church at Wellsville and the Ohio Bell Telephone Co., have been adjusted, and the injunction proceedings filed in common pleas court April 8, last, have been dismissed by the court without prejudice and at the costs of the defendant.

In this case, the church trustees objected to the manner in which the telephone company erected poles in the vicinity of the church property. When the petition was first filed, a temporary restraining order was granted, and later the company was given leave to file its pleadings. With the adjustment of the differences, a motion was filed with Judge W. H. Spence to dismiss the action, and this motion was sustained.

## Plans Being Drafted For New Buildings At Drake University

DURHAM, N. C.—Dreams of years are just about to be realized at Duke University, and officials of the institution soon will be ready to place plans for the school's $20,000,000 plant in the hands of architects for final drafting.

These plans probably will be ready around September 1, according to an announcement by Dr. William Preston Few, president of the University.

"With this preliminary work out of the way," Dr. Few said, "it would seem that actual construction on the new university plant might be expected to begin within a comparatively short time.

# HUNT GOES ON IN OZARKS FOR SPANISH GOLD

## Treasure Seekers Use Secret Maps in Search.

## MAY BE MYTH

## Chest of Jewels Object of Arkansas Quest.

FAYETTEVILLE, Ark.—A treasure hunt that has gone on in Franklin county, Arkansas, for more than 30 years for Spanish gold said to be worth millions, a golden Madonna and chests of precious jewels, goes on today with as much fervor and vigor as it did in its early days.

Perhaps its a myth—the result of a legend born in the crazed mind of an old Mexican adventurer or the romantic nature of Latin people—but the story is plausible enough for Dr. L. G. Hill, Mulberry, Ark., to spend $100,000, the savings of a lifetime, in financing a hunt for the treasure.

Generations have seen adventurers push their boats up Big Mulberry Creek only to return months later with disappointment evident in every jesture.

Two Spaniards have visited Mulberryduring the past 40 years and claimed knowledge of the treasure. The first was Antonio, 80 year old Mexican, who claimed to be a representative of President Diaz, of Mexico.

It was Antonio whom Dr. Hill financed in the treasure hunt. The elderly Mexican ran lines from three marking points on a map in his possession and each led to a sandstone bluff.

When cave-in dirt was dug away, diggers came to a system of hieroglyphics and the old man was frenzied with joy. The old man told Dr. Hill if he came to a small square opening and found a flint dagger and a stone key in this hole it was the place. Both were found.

Antonio studied the symbols on the face of the cliff for a few days, started excavation work, and died. The map he had been following couldn't be found.

The work came to a standstill a few months later when Dr. Hill died.

The legend had it nine Spaniards left the old country with the treasure, millions in gold and silver bullion, a golden calf and a quantity of precious jewels, at the time when Spain feared overwhelming defeat at the hands of Napoleon.

They landed in New Orleans, heard of gold mines in the North, abandoned their ships at the mouth of the Arkansas, transported their treasure up the river in small sailboats, the legend runs.

Here they enslaved Indian miners, buried the treasure and started back to Spain, in an effort to bring about national negotiations regarding the treasure. Natives and diseases killed many and only one of the nine Spanish galleons reached New Orleans, says the legend.

Whether or not there is a treasure in the Ozarks makes no difference to two of Dr. Hill's sons and a young miner who are organizing a mining company to excavate in efforts to locate the buried fortunes—and see for themselves.

## 229 BALLOTS CAST AT NOON

### Less Than Eight Percent of Voters Out This Morning.

With less than eight percent of the city's estimated voting strength out at noon, today's primary balloting was expected to bear out advance predictions of an unusually light poll.

Approximately 229 voters had made their appearance in the nine precincts of the city up until 12 o'clock. Unless there is an unprecedented last minute rush, the total probably will not exceed the 1,200 mark and possibly will not go more than 1,000, in the opinion of election board officials.

Precinct B of the second ward at noon showed the heaviest balloting. In all 60 votes had been cast, of which 53 were Republicans and seven Democrats.

The lightest vote until noon was cast in Precinct C of the Fourth ward, at the W. J. Moore residence, 1812 Clark avenue, where seven Republican and two Democrat ballots had been filed.

In all nine precincts there were 193 Republican and 36 Democrat voters, the noon survey showed.

The vote by ward and precinct:

**First Ward.**

Precinct A—Republican, 17; Democrat, 5.

Precinct B—Republican, 53; Democrat, 7.

**Second Ward.**

Precinct A—Republican, 27; Democrat, 6.

Precinct B—Republican, 36; Democrat, 3.

**Third Ward.**

Precinct A—Republican, 18. Democrat, 5.

Precinct B—Republican, 9; Democrat, 3.

**Fourth Ward.**

Precinct A—Republican, 15; Democrat, 2.

Precinct B—Republican, 11; Democrat, 2.

Precinct C—Republican, 7; Democrat, 2.

Total vote—229; Republican, 193; Democrat, 36.

## ALLEGED SLAYER GIVEN FREEDOM

John Cook is free. The man charged with slaying Nettie and Robert Herron, brother and sister, on their Two Ridges farm, March 2, walked out of the Jefferson county jail last night where he has been confined five months.

Cook was picked up on suspicion the day the bodies were found, Bob with his head crushed from a mattock blow and Nettie strangled and hanged from the ceiling of the kitchen with a rope.

He was indicted for first degree murder. A jury found him not guilty of the one count, that of slaying the woman. He was held for the indictment of slaying Bob Herron and yesterday Judge J. B. Paisley admitted him to bond of $1,000. Prosecutor Roy N. Merriman protested that it was not enough to fit the crime but the court overruled. A few hours later bondsmen appeared and gained his freedom.

Sheriff William Allison denied reports that Cook was a trustee in the jail during his incarceration. "He was just a model prisoner and allowed freedom of the corridors" the sheriff said. The state has appealed the case on error.

## ARRANGE PLANS FOR ROCCO DAY

### Fireworks Display, Parade, Church Services Listed.

Arrangements are practically complete for the annual St. Rocco day observance which will be held here Saturday and Sunday by Italian residents of the city, committees in charge of the event announced today.

The celebration officially is scheduled to get under way Saturday afternoon and will conclude Sunday afternoon.

Band music, fireworks and special church services are listed among the events on the St. Rocco program.

Music for the affair will be provided by Prof. Pascarelle's 25-piece Union Italian band, of Youngstown.

Prof. Pascarelle's band will open the program with a concert Saturday afternoon at 2 o'clock at Eleventh and Main streets and will play again at night prior to the pyrotechnical display at Hammond park which probably will start at 11 o'clock.

The St. Rocco day observers will attend a special mass at 10 o'clock Sunday morning in the Immaculate Conception church and will hold their customary parade at 11 o'clock, traversing Main street and Broadway. Approximately 300 are expected to take part in the parade.

On Sunday afternoon the band will conclude the celebration with a concert at Eleventh and Main streets.

## ADJUST CASE WITH PHONE CO.

Differences that have existed between the trustees of the First Presbyterian church at Wellsville and the Ohio Bell Telephone Co., have been adjusted, and the injunction proceedings filed in common pleas court April 8, last, have been dismissed by the court without prejudice and at the costs of the defendant.

In this case, the church trustees objected to the manner in which the telephone company erected poles in the vicinity of the church property. When the petition was first filed, a temporary restraining order was granted, and later the company was given leave to file its pleadings. With the adjustment of the differences, a motion was filed with Judge W. H. Spence to dismiss the action, and this motion was sustained.

DURHAM, N. C.—Dreams of years are just about to be realized at Duke University, and officials of the institution soon will be ready to place plans for the school's $20,000,000 plant in the hands of architects for final drafting.

These plans probably will be ready around September 1, according to an announcement by Dr. William Preston Few, president of the University.

"With this preliminary work out of the way," Dr. Few said, "it would seem that actual construction on the new university plant might be expected to begin within a comparatively short time.

## HUNT GOES ON IN OZARKS FOR SPANISH GOLD

### Treasure Seekers Use Secret Maps in Search.

### MAY BE MYTH

### Chest of Jewels Object of Arkansas Quest.

FAYETTEVILLE, Ark.—A treasure hunt that has gone on in Franklin county, Arkansas, for more than 30 years for Spanish gold said to be worth millions, a golden Madonna and chests of precious jewels, goes on today with as much fervor and vigor as it did in its early days.

Perhaps its a myth—the result of a legend born in the crazed mind of an old Mexican adventurer or the romantic nature of Latin people—but the story is plausible enough for Dr. L. G. Hill, Mulberry, Ark., to spend $100,000, the savings of a lifetime, in financing a hunt for the treasure.

Generations have seen adventurers push their boats up Big Mulberry Creek only to return months later with disappointment evident in every jesture.

Two Spaniards have visited Mulberryduring the past 40 years and claimed knowledge of the treasure. The first was Antonio, 80 year old Mexican, who claimed to be a representative of President Diaz, of Mexico.

It was Antonio whom Dr. Hill financed in the treasure hunt. The elderly Mexican ran lines from three marking points on a map in his possession and each led to a sandstone bluff.

When cave-in dirt was dug away, diggers came to a system of hieroglyphics and the old man was frenzied with joy. The old man told Dr. Hill if he came to a small square opening and found a flint dagger and a stone key in this hole it was the place. Both were found.

Antonio studied the symbols on the face of the cliff for a few days, started excavation work, and died. The map he had been following couldn't be found.

The work came to a standstill a few months later when Dr. Hill died.

The legend had it nine Spaniards left the old country with the treasure, millions in gold and silver bullion, a golden calf and a quantity of precious jewels, at the time when Spain feared overwhelming defeat at the hands of Napoleon.

They landed in New Orleans, heard of gold mines in the North, abandoned their ships at the mouth of the Arkansas, transported their treasure up the river in small sailboats, the legend runs.

Here they enslaved Indian miners, buried the treasure and started back to Spain, in an effort to bring about national negotiations regarding the treasure. Natives and diseases killed many and only one of the nine Spanish galleons reached New Orleans, says the legend.

Whether or not there is a treasure in the Ozarks makes no difference to two of Dr. Hill's sons and a young miner who are organizing a mining company to excavate in efforts to locate the buried fortunes—and see for themselves.

## Co-ordinated Forces Check Fire

Five different units—an unidentified railroad engineer, fire fighting forces from two cities, two "pumper" truck demonstrators and a German police dog—working harmoniously, checked a serious fire and saved endangered inmates of blaze-swept buildings from injury or death in Wellsville yesterday.

The pilot of the locomotive sounded his whistle, arousing residents, when he discovered the flames which destroyed a candy factory and hotel and damaged a restaurant and a dry goods store.

East Liverpool firemen, mindful of the aid given in fires here by Wellsville, reciprocated by sending equipment to the scene to co-operate with the neighboring city's fire fighters.

Two demonstrators of a "pumper" truck rendered timely assistance and, incidentally, proved the value of their equipment, by rushing it to the Ohio river and pumping water onto the blazing structures when the municipal water supply was at a low ebb and the pressure was poor.

And a dog, brought back from Germany by Fred Wilk, owner of the hotel, realizing the peril which confronted his master's family and guests in the hostelry, ran barking through the halls of the building to awaken the inmates, thus giving them time to escape before the hotel was swept by the flames.

The loss is estimated at $125,000, and while this is a small sum in days when million dollar fires occur, it is a blow to East Liverpool's sister community, but had not the various forces worked in unity the toll would have been much greater. It was good work, railroad engineer, "pumper" demonstators, East Liverpool and Wellsville firemen and German police dog.

## Women Swimmers

The most notable thing about Gertrude Ederle's success in swimming the English channel was the fact that she was the first woman to perform that feat. It was the fact that she beat the records of all the men who had ever done it.

Since the channel swim is recognized as the world's hardest swimming test, it follows that today this 18-year-old American girl is supreme in her sport. In our flamboyant parlance, she stands forth as "swimming champion of all time."

That is, until another woman beats her record. That may happen any day.

And how about men? Some man may beat her, of course. Yet here is one sport, and a particularly arduous sport at that, in which women, for some reason not yet fully understood, appear to possess natural superiority over men. If half a dozen men swam the channel before Miss Ederle, it was probably because men so long had the field almost entirely to themselves. With women crowding in to compete for the honor, men may soon be outclassed in the greatest swimming classic as they have been frequently of late in minor contests.

It may not be any too good for the women physiologically, to engage in such strenuous contests, but in this age of feminine ambition and achievement it is very good for them mentally. And the athletic example set by feminine champions should benefit millions of women, if they disregard the competition element and take up swimming or other sports for the sake of wholesome exercise.

## No Meddling In Mexico

All Americans except the few who have always urged Mexican intervention on any pretext whatever will approve our government's decision to keep its hands off the present Mexican situation.

As President Coolidge has outlined the Washington viewpoint to newspaper correspondents, the religious controversy now agitating Mexico is altogether a domestic matter between the Mexican government and the Mexican people. All that the United States government can properly do is to continue protecting life and property of American citizens in Mexico and insisting on the enforcement of existing treaties between the two countries.

There are plenty of matters in dispute between Washington and Mexico City, but so far they have little or no connection with the Mexican government's effort to exercise greater control over the church. It is wise to maintain a clear line of distinction, and to avoid any state meddling with religion in Mexico as our government does in our own country.

Sooner or later the Mexican people, through their present government or some other government, will work out a satisfactory compromise between church and state, leaving each free to follow its own course and exercise its proper functions. In that difficult enterprise, Uncle Sam can be only a sympathetic onlooker, and continue setting a good example of tolerance.

A jar said to be 30 centuries old and containing six small coins which archeologists say correspond to our pennies, has been dug up somewhere or other. Must have been a John D. Rockefeller in those days, too.

"The typical English girl and the typical American girl are equally horrible," says Lady Nancy Astor. Chorus from two great countries' "Iz-zat-so!"

As this efficiency business goes on, we suppose every cigar or cigarette smoker will be equipped with a smoke consumer.

## NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Aug. 9.—A first offender recently released from the Tombs declared he found more genuine sympathy among prisoners there than he ever found in the world outside. And added he found his first spiritual solace in the sombre gray depths.

Three religious services are held every Sunday in the Tombs—Catholic, Protestant and Christian Science. Anglers for human souls are frequently amazed at the manner in which prisoners clutch for spiritual bait. And turn from sin.

For obvious reasons no inked record is kept of those who have left the Tombs and become useful citizens, but the number runs into thousands. The large percentage are first offenders. Now and then an old offender reforms, but it is rare.

Guards say there are any number of old timers who often regard prison more as a vacation than punishment. They know how instantly to fit themselves into the routine and be content. There are no moments of anguished remorse. It is just "a stretch" of time.

Prisoners have originated all sorts of silentgamesto relieve the tedium. Often not even the guards know games are being played. It is said that despite its restrictions no prison is able to have a secret.

A code bordering on the telepathic exists and reveals all. A man in some far off wing may be placed in a dungeon and in no time it is known in the farthest corner when not an actual word has been spoken. The coming of a new warden is almost invariably known by prisoners before the retiring warden knows he is to go.

Wherever there is deep silence there is generally a baffling air of mysticism. Minds become attuned to trivialities that would not otherwise be noticed and from these are startling deductions made.

Up in Sing Sing there is a former city editor who is piecing out what is left of a life sentence in an attempt to beautify prison yards and cells. He has a flair for horticulture and many gardens testify to his handiwork. Recently he began a campaign to lighten prison travail with caroling birds. He needed bird cages.

Irvin Cobb once served under him as a reporter, and at the weekly luncheon of the Dutch Treat club made a plea for funds to aid his former employer in the laudable endeavor.

"He is not such a bad fellow," said Cobb. "He was one of those who yielded to the impulse all of us have at some time or other. He murdered his wife.'

Mr. Cobb has apparently softened toward his ex-boss, for the mutual dislike formed the theme of an old Park Row classic. One morning Cobb stepped into the elevator and the operator, speaking of the employer, said: "Mr Blank is ill today."

"Is that so?" replied Cobb. "I trust it is nothing trivial."

Cobb was a crack reporter, but his true metier was fiction. I think most newspapermen will agree the keenest reporter in the history of New York's journalism was Frank Ward O'Malley. He never signed a story but he was known far and wide as "O'Malley of the Sun."

In those days New York had a surprisingly able group of reporters —Ed Hill, Damon Runyon, Joe O'Neil, Charlie Somerville, Herbert Bayard Swope, Herbert Conroy and one or two others whose names elude me.

### WHERE THE REAL FAULT LAY

The tourist was one of that type which for some mysterious reason are more numerously encountered abroad than at home. He was doing the cathedral towns of England, not because he particularly was interested in English towns, or in English cathedrals either, but because the guide book advised him to do so.

Near the close of a glorious spring afternoon he stood on the greensward facing Canterbury cathedral and his legs planted far apart, his cap on the back of his head, his hands rammed deep into his trousers' pockets, his cigar stuck into one corner of his mouth, and on his face an expression betokening profound boredom.

The celebrated Canterbury chimes were ringing for vespers, filling all the air with silver melody, when a side door of the cathedral opened and there issued forth a little, plump, pink-cheeked, benevolent clergyman. He approached the visiting stranger and in cultured tones said to him:

"I take it, sir, that you are a stranger?"

"Hey?" inquired the American, cupping one hand about his ear.

The clergyman raised his voice:

"I assume sir, that you are not a resident of these parts?"

"Nope," said the American. "I hail from Nebraska. It's durned good state, too—best in the Union. You ought to come out there some time, Elder, and give us the once-over."

"Eh—quite so," said the reverend gentleman. "Then," he continued, "since you are newly-come to this place it must seem to you, even as it goes to those of us who dwell in these cloistered and holy precincts, that the music of our glorious bells comes floating down to one almost like the voice of the Almighty Himself, seeking through the medium of their old brazen throats to communicate the message of peace on earth, goodwill to man, to us His children here below."

"Which?" inquired the visitor, inclining his head somewhat.

"Er—what I meant to say was," stated the clergyman, "is that one must carry away from here, after hearing our chimes, the conviction in his soul that really he has been in communication with Deity itself—that the voices of the angels have cried out to him. Er—is it not so, my friend?"

The American shook his head.

"I'm sorry, parson," he said regretfully, "but them damn bells is makin' so much noise I can't hear a word you say!"

## HASKIN'S LETTER

By FREDERIC J. HASKIN

### CANAL REPORTS DUE.

WASHINGTON, D. C., Aug. 10.—Unless political considerations in Canada, which has a general election pending, delay action, the report of the Joint Board of Engineers of the United States and Canada on the cost of the proposed St. Lawrence Waterway from the Great Lakes to the sea is expected to reach President Coolidge by the end of this summer, and the report of the St. Lawrence Commission of the United States, which is considering the economic phases of the proposed water route, will probably follow before the next meeting of Congress.

The postponement of the Rivers and Harbors bill at the last session of Congress, which carried with it postponement of any action on the rival waterway plan for a canal across New York from Lake Ontario to the sea, via the Hudson River, was regarded as encouraging to proponents of the Great Lakes-St. Lawrence plan, and they hoped that the months before Congress re-assembled would see all of the official reports favorably rendered, and perhaps a treaty negotiated with Canada for the construction of the waterway.

Canadian delays have been more of a setback than expected, but it is now unofficially reported in Washington that the American group of the Joint Board of Engineers is ready with its findings, and that the economic investigators, called the Hoover Commission because the Secretary of Commerce is its chairman, will not be the cause of any delay.

It is not perhaps generally understood in this country that if these two reports, the engineering and the economic reports, are favorable, and indicate that the development of a waterway from the lakes to the sea is both practical as an engineering proposition and desirable as an economic means of developing ocean traffic from out lake ports, the President may then proceed on authority already established to negotiate a treaty with Canada for carrying out the project. Such a treaty would of course have

## Co-ordinated Forces Check Fire

Five different units—an unidentified railroad engineer, fire fighting forces from two cities, two "pumper" truck demonstrators and a German police dog—working harmoniously, checked a serious fire and saved endangered inmates of blaze-swept buildings from injury or death in Wellsville yesterday.

The pilot of the locomotive sounded his whistle, arousing residents, when he discovered the flames which destroyed a candy factory and hotel and damaged a restaurant and a dry goods store.

East Liverpool firemen, mindful of the aid given in fires here by Wellsville, reciprocated by sending equipment to the scene to co-operate with the neighboring city's fire fighters.

Two demonstrators of a "pumper" truck rendered timely assistance and, incidentally, proved the value of their equipment, by rushing it to the Ohio river and pumping water onto the blazing structures when the municipal water supply was at a low ebb and the pressure was poor.

And a dog, brought back from Germany by Fred Wilk, owner of the hotel, realizing the peril which confronted his master's family and guests in the hostelry, ran barking through the halls of the building to awaken the inmates, thus giving them time to escape before the hotel was swept by the flames.

The loss is estimated at $125,000, and while this is a small sum in days when million dollar fires occur, it is a blow to East Liverpool's sister community, but had not the various forces worked in unity the toll would have been much greater. It was good work, railroad engineer, "pumper" demonstators, East Liverpool and Wellsville firemen and German police dog.

## Women Swimmers

The most notable thing about Gertrude Ederle's success in swimming the English channel was the fact that she was the first woman to perform that feat. It was the fact that she beat the records of all the men who had ever done it.

Since the channel swim is recognized as the world's hardest swimming test, it follows that today this 18-year-old American girl is supreme in her sport. In our flamboyant parlance, she stands forth as "swimming champion of all time."

That is, until another woman beats her record. That may happen any day.

And how about men? Some man may beat her, of course. Yet here is one sport, and a particularly arduous sport at that, in which women, for some reason not yet fully understood, appear to possess natural superiority over men. If half a dozen men swam the channel before Miss Ederle, it was probably because men so long had the field almost entirely to themselves. With women crowding in to compete for the honor, men may soon be outclassed in the greatest swimming classic as they have been frequently of late in minor contests.

It may not be any too good for the women physiologically, to engage in such strenuous contests, but in this age of feminine ambition and achievement it is very good for them mentally. And the athletic example set by feminine champions should benefit millions of women, if they disregard the competition element and take up swimming or other sports for the sake of wholesome exercise.

## No Meddling In Mexico

All Americans except the few who have always urged Mexican intervention on any pretext whatever will approve our government's decision to keep its hands off the present Mexican situation.

As President Coolidge has outlined the Washington viewpoint to newspaper correspondents, the religious controversy now agitating Mexico is altogether a domestic matter between the Mexican government and the Mexican people. All that the United States government can properly do is to continue protecting life and property of American citizens in Mexico and insisting on the enforcement of existing treaties between the two countries.

There are plenty of matters in dispute between Washington and Mexico City, but so far they have little or no connection with the Mexican government's effort to exercise greater control over the church. It is wise to maintain a clear line of distinction, and to avoid any state meddling with religion in Mexico as our government does in our own country.

Sooner or later the Mexican people, through their present government or some other government, will work out a satisfactory compromise between church and state, leaving each free to follow its own course and exercise its proper functions. In that difficult enterprise, Uncle Sam can be only a sympathetic onlooker, and continue setting a good example of tolerance.

A jar said to be 30 centuries old and containing six small coins which archeologists say correspond to our pennies, has been dug up somewhere or other. Must have been a John D. Rockefeller in those days, too.

"The typical English girl and the typical American girl are equally horrible," says Lady Nancy Astor. Chorus from two great countries' "Iz-zat-so!"

## NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Aug. 9.—A first offender recently released from the Tombs declared he found more genuine sympathy among prisoners there than he ever found in the world outside. And added he found his first spiritual solace in the sombre gray depths.

Three religious services are held every Sunday in the Tombs—Catholic, Protestant and Christian Science. Anglers for human souls are frequently amazed at the manner in which prisoners clutch for spiritual bait. And turn from sin.

For obvious reasons no inked record is kept of those who have left the Tombs and become useful citizens, but the number runs into thousands. The large percentage are first offenders. Now and then an old offender reforms, but it is rare.

Guards say there are any number of old timers who often regard prison more as a vacation than punishment. They know how instantly to fit themselves into the routine and be content. There are no moments of anguished remorse. It is just "a stretch" of time.

Prisoners have originated all sorts of silentgamesto relieve the tedium. Often not even the guards know games are being played. It is said that despite its restrictions no prison is able to have a secret.

A code bordering on the telepathic exists and reveals all. A man in some far off wing may be placed in a dungeon and in no time it is known in the farthest corner when not an actual word has been spoken. The coming of a new warden is almost invariably known by prisoners before the retiring warden knows he is to go.

Wherever there is deep silence there is generally a baffling air of mysticism. Minds become attuned to trivialities that would not otherwise be noticed and from these are startling deductions made.

Up in Sing Sing there is a former city editor who is piecing out what is left of a life sentence in an attempt to beautify prison yards and cells. He has a flair for horticulture and many gardens testify to his handiwork. Recently he began a campaign to lighten prison travail with caroling birds. He needed bird cages.

Irvin Cobb once served under him as a reporter, and at the weekly luncheon of the Dutch Treat club made a plea for funds to aid his former employer in the laudable endeavor.

"He is not such a bad fellow," said Cobb. "He was one of those who yielded to the impulse all of us have at some time or other. He murdered his wife.'

Mr. Cobb has apparently softened toward his ex-boss, for the mutual dislike formed the theme of an old Park Row classic. One morning Cobb stepped into the elevator and the operator, speaking of the employer, said: "Mr Blank is ill today."

"Is that so?" replied Cobb. "I trust it is nothing trivial."

Cobb was a crack reporter, but his true metier was fiction. I think most newspapermen will agree the keenest reporter in the history of New York's journalism was Frank Ward O'Malley. He never signed a story but he was known far and wide as "O'Malley of the Sun."

In those days New York had a surprisingly able group of reporters—Ed Hill, Damon Runyon, Joe O'Neil, Charlie Somerville, Herbert Bayard Swope, Herbert Conroy and one or two others whose names elude me.

### WHERE THE REAL FAULT LAY

The tourist was one of that type which for some mysterious reason are more numerously encountered abroad than at home. He was doing the cathedral towns of England, not because he particularly was interested in English towns, or in English cathedrals either, but because the guide book advised him to do so.

Near the close of a glorious spring afternoon he stood on the greensward facing Canterbury cathedral and his legs planted far apart, his cap on the back of his head, his hands rammed deep into his trousers' pockets, his cigar stuck into one corner of his mouth, and on his face an expression betokening profound boredom.

The celebrated Canterbury chimes were ringing for vespers, filling all the air with silver melody, when a side door of the cathedral opened and there issued forth a little, plump, pink-cheeked, benevolent clergyman. He approached the visiting stranger and in cultured tones said to him:

"I take it, sir, that you are a stranger?"

"Hey?" inquired the American, cupping one hand about his ear.

The clergyman raised his voice:

"I assume sir, that you are not a resident of these parts?"

"Nope," said the American. "I hail from Nebraska. It's durned good state, too—best in the Union. You ought to come out there some time, Elder, and give us the once-over."

"Eh—quite so," said the reverend gentleman. "Then," he continued, "since you are newly-come to this place it must seem to you, even as it goes to those of us who dwell in these cloistered and holy precincts, that the music of our glorious bells comes floating down to one almost like the voice of the Almighty Himself, seeking through the medium of their old brazen throats to communicate the message of peace on earth, goodwill to man, to us His children here below."

"Which?" inquired the visitor, inclining his head somewhat.

"Er—what I meant to say was," stated the clergyman, "is that one must carry away from here, after hearing our chimes, the conviction in his soul that really he has been in communication with Deity itself—that the voices of the angels have cried out to him. Er—is it not so, my friend?"

The American shook his head.

"I'm sorry, parson," he said regretfully, "but them damn bells is makin' so much noise I can't hear a word you say!"

### CANAL REPORTS DUE.

WASHINGTON, D. C., Aug. 10.—Unless political considerations in Canada, which has a general election pending, delay action, the report of the Joint Board of Engineers of the United States and Canada on the cost of the proposed St. Lawrence Waterway from the Great Lakes to the sea is expected to reach President Coolidge by the end of this summer, and the report of the St. Lawrence Commission of the United States, which is considering the economic phases of the proposed water route, will probably follow before the next meeting of Congress.

The postponement of the Rivers and Harbors bill at the last session of Congress, which carried with it postponement of any action on the rival waterway plan for a canal across New York from Lake Ontario to the sea, via the Hudson River, was regarded as encouraging to proponents of the Great Lakes-St. Lawrence plan, and they hoped that the months before Congress re-assembled would see all of the official reports favorably rendered, and perhaps a treaty negotiated with Canada for the construction of the waterway.

Canadian delays have been more of a setback than expected, but it is now unofficially reported in Washington that the American group of the Joint Board of Engineers is ready with its findings, and that the economic investigators, called the Hoover Commission because the Secretary of Commerce is its chairman, will not be the cause of any delay.

It is not perhaps generally understood in this country that if these two reports, the engineering and the economic reports, are favorable, and indicate that the development of a waterway from the lakes to the sea is both practical as an engineering proposition and desirable as an economic means of developing ocean traffic from out lake ports, the President may then proceed on authority already established to negotiate a treaty with Canada for carrying out the project. Such a treaty would of course have

### Ranks With Panama Canal.

The proposed Great Lakes-St. Lawrence Waterway is the most extensive development for Commerce considered in this country since the building of the Panama Canal. An association of twenty-one States whose products would be those most likely to move by such a water route from Great Lakes ports to Europe and other parts of the world, has fostered the movement for the waterway for some years, its work being interrupted by the war, but progressing since that time. Its purpose is the basic one of creating a water haul from ports like Chicago and Duluth, Detroit, and Cleveland, and others, direct to the seaports of the world. The farming regions of the Middle West backing the proposal are moved by a conviction that this water haul would greatly improve the situation of farmers raising and exporting grain and livestock.

The physical features of the proposed waterway include use of the present Sault Canal from Lake Superior to Lake Huron, the new Welland Canal betwsen Lakes Erie and Ontario, and the construction from Lake Ontario to Montreal, the present head of ocean navigation.

The estimated total cost of the project, which the Joint Board of Engineers is now checking, is about $270,000,000, of which a considerable part would be for water power develcpment and not part of the navigation development. Just how the navigation development cost, whatever be divided between Canada and the it might be when finally fixed, would United States, would remain to be settled by treaty.

The United States holds, by treaty, a free right to navigation on the St. Lawrence river. This was granted in 1872, as part of the Alabama Claims Treaty, and at the same time we granted Canada full rights to navigation on the Yukon and Stikine Rivers in Alaska. On the St. Lawrence our basic right exists because the waters of that river come from the Great Lakes, more than half of which are our territory. Similarly the Yukon and Stikine rise in Canadian soil but flow through the territory of the United States to reach the sea.

More or less opposition to the St. Lawrence outlet has always existed in New York state, and as an alternative the so-called "All-American Route" has been proposed, a complete canal across that state from the mouth of the Oswego River, on Lake Ontario, to New York City, via the Hudson River. To make a complete chain on United States soil, an American canal from Lake Erie to Lake Ontario, parallel to the Welland Canal but on the American side, would be necessary. The arguments pro and con regarding the St. Lawrence or New York routes are very numerous. While official investigation of the survey the Oswego-Hudson route was former is under way, the proposal to not adopted this spring, being part of the postponed Rivers and Harbors bill. It will come before the Senate in December, having passed the House.

### All Canadians Not For It.

While Canada has joined with our engineers in the study of the St. Lawrence project, and also has an Advisory Commission which parallels our economic commission under Mr. Hoover, opinion in Canada is not unanimous in favor of the development. Opposition there is said to come from Quebec and Montreal areas, where many people feel an opening of the Lakes would deprive those cities of their present advantages at the head of navigation. There is also much unfriendly feeling in Canada about any Great Lakes development in conjunction with this country until the question of diverting Great Lakes' water into the Chicago River is settled.

Canada offers the same objections to running Great Lakes' water through Chicago and thence ultimately to the Mississippi that are offered by the States of Michigan and Wisconsin, whose lawsuit to stop this diversion of water is now before the supreme court of the United States. Charles Evans Hughes, former Justice of the Supreme Court, is the special master for the Supreme Court to take testimony and make findings and recommendations to the court, and his report in the autumn term will probably be followed by a settlement of this problem. This will help clear the way for other Great Lakes development questions.

While the engineers, the economic commissions, and the treaty makers must all take a hand before any work may begin on the big idea of opening the Great Lakes to the sea, the final word will rest with Congress, which makes appropriations and in its upper chamber ratifies treaties.

Problems as serious as the question of whether the inter-oceanic canal should be built in Nicaragua or at Panama, and should be a sea level or a lock canal, will have to be settled. Through the connecting link at Chicago, the whole matter of Mississippi river development is capable of being involved, and the records of political conventions since 1920 show that efforts have been steadily under way to pledge statesmen and parties to various steps in various plans.

Not since Mr. Taft proposed tariff reciprocity with Canada has there been an economic question so closely involving us with our neighbors to the north. States are far west as Idaho and Oregon have interested themselves, and those as far south as Kentucky and Missouri.

While never a major national political issue, the questions involved have already caused one filibuster in Congress, and as a public question the whole Great Lakes to the sea proposal may yet figure largely in our elections.

to be ratified by the Senate before it became effective.

**Ranks With Panama Canal.**

The proposed Great Lakes-St. Lawrence Waterway is the most extensive development for Commerce considered in this country since the building of the Panama Canal. An association of twenty-one States whose products would be those most likely to move by such a water route from Great Lakes ports to Europe and other parts of the world, has fostered the movement for the waterway for some years, its work being interrupted by the war, but progressing since that time. Its purpose is the basic one of creating a water haul from ports like Chicago and Duluth, Detroit, and Cleveland, and others, direct to the seaports of the world. The farming regions of the Middle West backing the proposal are moved by a conviction that this water haul would greatly improve the situation of farmers raising and exporting grain and livestock.

The physical features of the proposed waterway include use of the present Sault Canal from Lake Superior to Lake Huron, the new Welland Canal between Lakes Erie and Ontario, and the construction from Lake Ontario to Montreal, the present head of ocean navigation.

The estimated total cost of the project, which the Joint Board of Engineers is now checking, is about $270,000,000, of which a considerable part would be for water power development and not part of the navigation development. Just how the navigation development cost, whatever be divided between Canada and the it might be when finally fixed, would United States, would remain to be settled by treaty.

The United States holds, by treaty, a free right to navigation on the St. Lawrence river. This was granted in 1872, as part of the Alabama Claims Treaty, and at the same time we granted Canada full rights to navigation on the Yukon and Stikine Rivers in Alaska. On the St. Lawrence our basic right exists because the waters of that river come from the Great Lakes, more than half of which are our territory. Similarly the Yukon and Stikine rise in Canadian soil but flow through the territory of the United States to reach the sea.

More or less opposition to the St. Lawrence outlet has always existed in New York state, and as an alternative the so-called "All-American Route" has been proposed, a complete canal across that state from the mouth of the Oswego River, on Lake Ontario, to New York City, via the Hudson River. To make a complete chain on United States soil, an American canal from Lake Erie to Lake Ontario, parallel to the Welland Canal but on the American side, would be necessary. The arguments pro and con regarding the St. Lawrence or New York routes are very numerous. While official investigation of the survey the Oswego-Hudson route was former is under way, the proposal to not adopted this spring, being part of the postponed Rivers and Harbors bill. It will come before the Senate in December, having passed the House.

**All Canadians Not For It.**

While Canada has joined with our engineers in the study of the St. Lawrence project, and also has an Advisory Commission which parallels our economic commission under Mr. Hoover, opinion in Canada is not unanimous in favor of the development. Opposition there is said to come from Quebec and Montreal areas, where many people feel an opening of the Lakes would deprive those cities of their present advantages at the head of navigation. There is also much unfriendly feeling in Canada about any Great Lakes development in conjunction with this country until the question of diverting Great Lakes' water into the Chicago River is settled.

Canada offers the same objections to running Great Lakes' water through Chicago and thence ultimately to the Mississippi that are offered by the States of Michigan and Wisconsin, whose lawsuit to stop this diversion of water is now before the supreme court of the United States. Charles Evans Hughes, former Justice of the Supreme Court, is the special master for the Supreme Court to take testimony and make findings and recommendations to the court, and his report in the autumn term will probably be followed by a settlement of this problem. This will help clear the way for other Great Lakes development questions.

While the engineers, the economic commissions, and the treaty makers must all take a hand before any work may begin on the big idea of opening the Great Lakes to the sea, the final word will rest with Congress, which makes appropriations and in its upper chamber ratifies treaties.

Problems as serious as the question of whether the inter-oceanic canal should be built in Nicaragua or at Panama, and should be a sea level or a lock canal, will have to be settled. Through the connecting link at Chicago, the whole matter of Mississippi river development is capable of being involved, and the records of political conventions since 1920 show that efforts have been steadily under way to pledge statesmen and parties to various steps in various plans.

Not since Mr. Taft proposed tariff reciprocity with Canada has there been an economic question so closely involving us with our neighbors to the north. States are far west as Idaho and Oregon have interested themselves, and those as far south as Kentucky and Missouri.

While never a major national political issue, the questions involved have already caused one filibuster in Congress, and as a public question the whole Great Lakes to the sea proposal may yet figure largely in our elections.

# *Eleventh Hour Effort Made To Save Whittemore's Life*

### Negro Lawyer, Retained by Condemned Man's Wife and Father; Apply for Writ of Habeas Corpus.

BALTIMORE, Md., Aug. 10.—Eleventh hour efforts were being made today to save the life of Richard Reese Whittemore, sentenced to die on the gallows at 12:10 Friday morning. He killed Robert H. Holtman, prison guard.

Judge Robert F. Stanton in city court ordered a hearing at noon tomorrow on a writ of habeas corpus filed by George L. Pendleton, Negro lawyer, retained by Mrs. Margaret M. Whittemore and Rawlings V. Whittemore, the bandit's wife and father.

Herbert R. O'Conner, state's attorney, and Thomas Robinson, attorney general, were directed to appear to show cause why the writ should not be granted. A deputy probably will appear for O'Connor.

Pendleton challenged the constitutionality of the Maryland law which makes a jury, judge both of fact and law. He said Whittemore was denied "due process of law," guaranteed by the federal constitution.

Whittemore's appeal rests upon a slender threat, in the opinion of legal experts here. Even should the writ be granted, it would not stop Whittemore's execution, unless Governor Ritchie signed a stay.

**May Go To Supreme Court.**

Failing in the state courts, Pendleton said he would appeal to the federal supreme court. Even that would not necessarily halt the hanging. The supreme court is not in session and Pendleton would have to appeal to one of the justices. He announced he had arranged to carry the appeal to Justice Brandies, now in Chatham, Mass.

A further barrier is Warden Patrick Brady of Maryland penitentiary. He declared he would file a formal reply to the court's order, and thus more of the precious time remaining before Friday would be consumed.

Whittemore has no hope that the latest efforts will be successful, Brady said today. The once dapper "Candy Kid" is passive as the fateful hour approaches and smokes countless cigarettes, the butts of which strew his cell floor.

Brady will allow the bandit's wife and father to visit him but twice more to say goodbye.

Special precautions will be made to guard the penitentiary on the night of the hanging. No one will be allowed to approach within four blocks of the prison, except the 18 witnesses to whom tickets have been issued.

# COURT FIGHT OVER SCRIPPS ESTATE LOOMS

### Balance of Power in Newspapers is Affected.

### $10,000,000 CLAIM

### Widow of James Scripps Files Suit in Hamilton.

HAMILTON, O., Aug. 10.—The balance of power in the majority of the Scripps newspaper enterprises, heretofore vested in the estate of the late E. W. Scripps, is affected in a claim against the estate on file in probate court here today.

The claim is made by the estate of James . Scripps, son of E. W. Scripps and for many years active manager of the Scripps enterprises. More than $10,000,000 in cash, stocks and bonds in the E. W. Scripps estate is claimed by the widow of James Scripps.

Unless the claim is allowed, suit will be filed against the Scripps estate for the sum alleged to be due the daughter-in-law and her heirs, John H. Perry of New York, attorney for Mrs. Scripps, announced.

**18-year Story Back of Suit.**

Back of the claim is a story dating back 18 years. Among the papers filed in probate court here, is a copy of an alleged agreement made between E. W. Scripps and his two sons, James and John. Both sons are dead, John dying soon after the agreement was made.

On March 1, 1908, according to the claim, the agreement went into effect. It provided that the sons receive stocks, bonds, salaries and other compensation representing one half of the added value of the Scripps newspaper properties. This, it is claimed, included a half interest in the net earnings of the various projects controlled or partially owned by the senior Scripps. An annual apportionment of profits was provided for in the agreement.

James Scripps, trained for the work by his father, became active head of the Scripps enterprises and continued in that position until his death, several years ago, it is alleged, when Robert Scripps, a younger brother, came of age and entered his father's newspaper business.

**Claim May Be Settled.**

E. W. Scripps died last year. Robert Scripps was made executor of the entire estate. No effort was made to distribute the profits of the estate of John and James, according to the claim.

The claim on file today is the first court action within the family in connection with the settlement of the estate. The exact amount claimed is $10,107,344.07, which is alleged to represent James Scripps' share of the profits from 1908 until the time of his death.

"If the claim is settled according to the terms of the agreement, payment must be made in stock, bonds and cash," Perry said. "The E. W. Scripps estate controls the United Press through ownership of 51 per cent of the stock. Part of this stock is claimed by the James Scripps estate and it follows that complete control will be lost if any part of the United Press stock is taken.

"Stock in other enterprises and newspapers will be affected in the same way.

"It is quite possible that attorneys for the E. W. Scripps estate will accept the claim as it is filed in probate court. If they reject it, the case will be taken into the federal court in the southern district of Ohio."

Perry, who was national counsel and associate of James Scripps for more than 12 years, is the only attorney so far representing the James Scripps estate. Newton D. Baker, secretary of war under the Wilson administration, and Thomas Sidle, his partner, are attorneys for the E. W. Scripps estate.

The filing of the claim today was the first official notice given the E. W. Scripps estate that such action was contemplated, Perry said.

# REPORTS FROM STOCK MARKET

NEW YORK, Aug. 10.—Wall street and the stock market displayed considerable nervousness in the early trading today over the $86,000,000 increase in brokers, loans reported by the Federal Reserve bank of New York after the close of Monday's marmet. This looked like anothre unwieldly expansion in margined purchases of the high-priced speculative stocks. And selling orders in large volume awaited the resumption of trading.

Losses were most severe in the industrial stocks which have been leading the upward procession in recent weeks. On a "split opening" General Motors appeared on the tape for the first sale of a block of 18,000 shares at 219 to 211½, a decline of 10½ from Monday's close. The stock receivered to above 218 where transactions were in huge volume.

United States Steel declined to 152½, but promptly righted itself and recovered to above 153. Very favorable forecasts were made of the volume of forward orders to be reported by the corporation at noon today and offerings of the stock were well absorbed. Du Pont, Cast Iron Pipe and other market leaders were under pressure and declined 1 to 6 points.

Reports that the Standard Oil company of New Jersey would make no change in the dividend rate of the ing and market weakness of that stock accompanied further heavy sellstock, which dropped an additional point to 42. Another 26,000—barrel lost week, reported by the oil and daily increase in crude oil production gas journal, was sufficient to cause some unsettlement in the independent oils, though losses were mostly fractional. Rails were irregular and tobacco stocks strong.

# FOUR PRIESTS ARE SLAIN IN MEXICAN CLASH

### Several Citizens are Wounded in Church-State Dispute.

### 43 CAPTURED

### Conflict Between Catholics and Calles Hopelessly Deadlocked.

MEXICO CITY, Aug. 10.—Four priests were killed, several citizens wounded, and 43 taken prisoner in a clash between Catholics and soldiery at Aguayo, in the state of Michoacan, the Mexican Catholic Episcopate announced today.

Details of the riot were lacking. The dispatch did not state whether any of the soldiers were injured.

The conflict between the Catholic church and the government appeared hopelessly deadlocked today. All efforts at mediation have ceased following President Calles' repeated rebuff of well meaning intermediaries, both from within the government and without.

Pastors of Protestant churches in Mexico City have appealed to the American embassy to prevent an inventory of objects within the buildings which government agents are seeking to take as a preliminary step toward their nationalization.

**Tightening Economical Boycott.**

At the embassy it was stated that no opinion would be hazarded pending instructions from the state department. However, it is regarded as significant here that the American ambassador and the British minister, Esmond Ovey, conferred at length yesterday. The British minister has already forwarded a note of protest to the Mexican government.

The movement among lay Catholics for a tightening of the economic boycott gained ground today with the circularizing of the city by various Catholic organizations.

"The theaters and movies are deserted," one circular declared. "Ten million pesos have been withdrawn from the banks. Paper money is a complete failure. Each holder of paper bills is rushing to exchange them for gold.

"The Catholics are warned not to believe the daily press, as it is controlled by the crom. Six thousand automobiles have been retired from operation. The boycott in Pueblo, Jalisco, Michoacan, Guerrero and other states is a success."

## DEMPSEY REFUSED BOXING LICENSE

NEW YORK, Aug. 10.—The license commission of the New York State boxing board today refused to grant a license to Jack Dempsey, world's heavyweight champion, thereby preventing Tex Rickard from going ahead with his plans for a fight between Gene Tunney, ex-marine, and the champion. Rickard had planned to stage the fight at the Yankee stadium September 16.

## Light Vote in City

(Continued from Page One)

state's spotlight with the scramble for the Republican nomination for governor by 11 men and one woman.

Judge Florence Allen wound up her campaign with a speech last night at Newark, in which she stated she was running for the senate because she was "interested in good government and a square deal for everybody."

"I am hopeful of victory," she said, "but I would rather lose the nomination with the support I have than win with other support."

Miss Susan Rebhan, manager of Miss Allen's campaign, exuded optimism.

"We have better than an even break," she said. "I am counting on carrying Franklin, Cuyahoga, Summit, Crawford, Wayne and Lucas counties."

**Pomerene's Personal Expenses $100.**

The colorful bachelor girl who at the age of 42 was justice of the supreme court, spent only $8,000 during her campaign, Miss Rebhan said.

Ex-senator Pomerene had little to say today.

"I will not discuss my campaign expenses," he stated, "but you can tell the voters that—that my personal expenses will not exceed $100."

Pomerene refused to comment on his chances to beat Miss Allen.

"I have not been campaigning myself outside of a few letters which I have written. I am content to abide by the verdict of the people."

**Drys Support Cooper.**

Judge Allen, who was born at Salt Lake City, Utah, but raised in Ohio, is a pronounced "dry." At Newark last night she told of the plank she would take to the senate if elected:

"Enforcement of prohibition; outlawing of war; reduction of tariffs; a square deal for the farmer and membership in the world court."

If Judge Allen beats Pomerene and Meyers Cooper of Cincinnati wins the Republican gubernatorial nomination, the drys will have scored a great victory in Ohio.

Cooper was generally believed to have the best chance of the 12 Republican aspirants. He is president of the Ohio Council of Churches, has the support of the Anti-Saloon league and the endorsement of the Republican machine in Cleveland. His most dangerous opponents are Joseph Seiber, Akron attorney; Harry Day, state treasurer, and Thad Brown, secretary of state.

Governor Vic Donahey was expected to walk away again with the Democratic gubernatorial nomination.

In the Republican senatorial race, Senator Frank B. Willis was seeking renomination against six other candidates.

**Candidates Await Result.**

COLUMBUS, O., Aug. 10.—Ohio went to the polls today to make her first selection of those who will rule the state during the coming two years. She voted at a primary that will no doubt result in a light vote, to select the Republican and Democratic standard bearers for the November election.

Eighteen condidates will be nominated for the eight major offices of the state while thousands of others will be named to be on the November ballots in the congressional and senatorial districts, counties, municipalities, villages and townships.

After a pre-primary campaign of several weeks that were marked by intense interest in some sections, complete lack of enthusiasm in others—while in still the third class mediocre felling for those who seek the honors of representing their fellow citizens was expressed, the candidates waited.

**Fair Vote in Home Counties.**

From the north Cuyahoga county was expected to cast fair vote while Sandusky county was planning to count a record vote for Harry S. Day, a native son, one of the dozen seeking the Republican gubernatorial nomination. Lucas county had a fight of its own, with labor highly interested.

Farther south, Stark and Summit counties divided interest, Summit probably showing a good vote with Joseph Sieber running strong, while interest in the capture of the slayer of Don Mellett took away enthusiasm in the primaries in Stark.

Franklin county started early and it was expected after the first rush, that the capitol seat would run near par. Marion county election officials expected a heavy voting because of the split there in the Republican ranks between Cooper and Sieber adherents.

**Battle in Hamilton County.**

Hamilton county and Cincinnati staged a battle of its own throughout the day with the "regulars" and "insurgents" in the G. O. P. ranks, both claiming early victory. The split between the citizens' committee and the supposed Hynicka backers aroused interest.

In the eight major races, those for United States senator and governor on the Republican side promised the hottest state-wide voting. Judge Florence E. Allen, who made a strenuous campaign, and Atlee Pomerene, who left his vote stand on his past records, were the center of interest.

The Republican nomination for governor was a toss up, in general opinion here, between Sieber, Thad Brown, Cooper and Day.

On the Democratic side it was generally felt that Vic Donahey would be renominated, despite his lack of campaigning, although A. P. Sandles was expected to show strength in the southern sections.

All in all, it was a normal primary. And while the voters went forth to make their selections, newspapers prepared to handle the usual deluge of calls and getting out of extras while state house attaches busily prepared to make the tabulations.

# DR. W. S. CARNES ROTARY GUEST

### Canton Cutlery Company President Speaks at Luncheon.

Dr. W. Stewart Carnes, president of the Canton Cutlery company, Canton, addressed members of the Rotary club at a noon-day luncheon meeting in the banquet hall of the Y. M. C. A. today. His subject was "The Romance of Carvan Steel in the Rediscovery of the Lost Art of the Old Damascus Sword Blade."

Dr. Carnes was introduced by J. D. Thompson, of the C. C. Thompson Pottery company. The speaker gave demonstrations of the hardness of steel.

Special guests were H. R. Linton, Athol, Mass.; M. W. Moore, Canton; J. A. Osborn, Cleveland; J. C. Thompson, William J. Hocking and Dr. Edward Miskall of this city. Attorney Blaine Cochran rendered a solo, "I'd Climb the Highest Mountain," and also led in the chorus singing.

Harry Watkin will be in charge of next Tuesday's luncheon meeting. The speaker will be J. J. Purinton, president of the First National bank and secretary of the Potters' Savings & Loan company.

President M. W. Thompson, Attorney Cochran, J. M. Wells and Lawrence Smith will go to Youngstown tomorrow where they will confer with members of the Youngstown club who will come to this city for a golf tournament with the local Rotarians next week. The local club will go to Youngstown for a return engagement later.

And the candidates themselves gathered in their headquarters to await the coming of the returns.

**Two Issues in Nebraska.**

OMAHA, Neb. Aug. 10.—Nebraskans cast their votes today to show their sentiments toward the two issues which have made of the present primary campaign one of the bitterest in the political history of the state—the Ku Klux Klan and prohibition.

Practically all the candidates are lined up either with the Klan and prohibition or else are out and out wets and Klan enemies.

Ex-Governor Charley Bryan, vice-presidential nominee in 1924, has no opposition on the Democratic ticket. Governor Adam McMullen, Republican, was regarded as almost certain to be renominated.

One of the hardest battles in the campaign was waged for the Republican nomination for the congressional seat in the second district in which Omaha is located, between Willis G. Sears, present congressman and W. F. Gurley, Omaha attorney. Sears has fought both Klan and prohibition while Gurley has the backing of the Klan and the drys.

The polls will close at 9:30 tonight.

**Alabama Goes to Polls.**

BIRMINGHAM, Ala., Aug. 10.—Alabama went to the polls today to nominate Democratic candidates for United States senator, governor, congress and lesser state and county officials following one of the most hectic campaigns in the state's history. The Democratic nomination is equivalent to election.

## Five Persons Die When Lightning Strikes Dwelling

UNIONTOWN, Pa., Aug. 10.—Fire caused by a bolt of lightning wiped out a family of five at Clifton Mines, W. Va., a remote settlement in the mountains 20 miles south of here, according to word received here today.

The father, Porter McKinley, and two children were fatally burned after being stunned by the lightning bolt. The mother was carried to safety, but died after giving birth to a babe, which preceded her in death.

Neighbors said that McKinley, recovering from the effects of shock, made three trips into the blazing house to rescue his family, but all were fatally burned.

## Senator Borah May Reply to "Tiger's" War Debt Letter

WASHINGTON, Aug. 10.—A vigorous reply to Georges Clemenceau's letter to President Coolidge asking for virtual cancellation of the $4,000,000,000 French war debt may be issued shortly by Senator Borah, (R) of Idaho, chief of the senate's irreconcilables.

In a message today from his home in Boise, Idaho, Borah said he did not feel able to comment effectively at this time on the letter until he has had an opportunity to study it more carefully. He indicated, however, that he would not let Clemenceau's appeal go unchallenged.

## $300,000 BLAZE IN MAINE CITY

PORTLAND, Maine, Aug. 10. — Property valued at more than $200,000 went up in smoke early today when a fire swept the Portland waterfront. Pigeons roosting on a grain company wharf gave the first alarm. Several wharfs and vessels were destroyed and the entire city threatened before the flames were brought under control.

## Philadelphia Youth Dies After His Leg Is Torn From Body

PHILADELPHIA, Aug. 10.—Basil S. Walsh, Jr., 25, local yachtman and society leader, died in a local hospital early today from injuries received during a cruise. He had been rushed here from a hospital in Wildwood, N. J.

Walsh and friends were motor-boating off Cold Springs harbor Sunday. With one of his friends at the wheel, a sudden lurch of the craft threw his left leg against the flywheel and it was nearly torn from his body.

# Eleventh Hour Ettort Made To Save Whittemore's Lite

## Negro Lawyer, Retained by Condemned Man's Wife and Father; Apply for Writ of Habeas Corpus.

BALTIMORE, Md., Aug. 10.—Eleventh hour efforts were being made today to save the life of Richard Reese Whittemore, sentenced to die on the gallows at 12:10 Friday morning. He killed Robert H. Holtman, prison guard.

Judge Robert F. Stanton in city court ordered a hearing at noon tomorrow on a writ of habeas corpus filed by George L. Pendleton. Negro lawyer, retained by Mrs. Margaret M. Whittemore and Rawlings V. Whittemore, the bandit's wife and father.

Herbert R. O'Conner, state's attorney, and Thomas Robinson, attorney general, were directed to appear to show cause why the writ should not be granted. A deputy probably will appear for O'Connor.

Pendleton challenged the constitutionality of the Maryland law which makes a jury, judge both of fact and law. He said Whittemore was denied "due process of law," guaranteed by the federal constitution.

Whittemore's appeal rests upon a slender threat, in the opinion of legal experts here. Even should the writ be granted, it would not stop Whittemore's execution, unless Governor Ritchie signed a stay.

**May Go To Supreme Court.**

Failing in the state courts, Pendleton said he would appeal to the federal supreme court. Even that would not necessarily halt the hanging. The supreme court is not in session and Pendleton would have to appeal to one of the justices. He announced he had arranged to carry the appeal to Justice Brandies, now in Chatham, Mass.

A further barrier is Warden Patrick Brady of Maryland penitentiary. He declared he would file a formal reply to the court's order, and thus more of the precious time remaining before Friday would be consumed.

Whittemore has no hope that the latest efforts will be successful, Brady said today. The once dapper "Candy Kid" is passive as the fateful hour approaches and smokes countless cigarettes, the butts of which strew his cell floor.

Brady will allow the bandit's wife and father to visit him but twice more to say goodbye.

Special precautions will be made to guard the penitentiary on the night of the hanging. No one will be allowed to approach within four blocks of the prison, except the 18 witnesses to whom tickets have been issued.

# COURT FIGHT OVER SCRIPPS ESTATE LOOMS

## Balance of Power in Newspapers is Affected.

## $10,000,000 CLAIM

## Widow of James Scripps Files Suit in Hamilton.

HAMILTON, O., Aug. 10.—The balance of power in the majority of the Scripps newspaper enterprises, heretofore vested in the estate of the late E. W. Scripps, is affected in a claim against the estate on file in probate court here today.

The claim is made by the estate of James . Scripps, son of E. W. Scripps and for many years active manager of the Scripps enterprises. More than $10,000,000 in cash, stocks and bonds in the E. W. Scripps estate is claimed by the widow of James Scripps.

Unless the claim is allowed, suit will be filed against the Scripps estate for the sum alleged to be due the daughter-in-law and her heirs, John H. Perry of New York, attorney for Mrs. Scripps, announced.

**18-year Story Back of Suit.**

Back of the claim is a story dating back 18 years. Among the papers filed in probate court here, is a copy of an alleged agreement, made between E. W. Scripps and his two sons, James and John. Both sons are dead, John dying soon after the agreement was made.

On March 1, 1908, according to the claim, the agreement went into effect. It provided that the sons receive stocks, bonds, salaries and other compensation representing one half of the added value of the Scripps newspaper properties. This, it is claimed, included a half interest in the net earnings of the various projects controlled or partially owned by the senior Scripps. An annual apportionment of profits was provided for in the agreement.

James Scripps, trained for the work by his father, became active head of the Scripps enterprises and continued in that position until his death, several years ago, it is alleged, when Robert Scripps, a younger brother, came of age and entered his father's newspaper business.

**Claim May Be Settled.**

E. W. Scripps died last year. Robert Scripps was made executor of the entire estate. No effort was made to distribute the profits of the estate of John and James, according to the claim.

The claim on file today is the first court action within the family in connection with the settlement of the estate. The exact amount claimed is $10,107,344.07, which is alleged to represent James Scripps' share of the profits from 1908 until the time of his death.

"If the claim is settled according to the terms of the agreement, payment must be made in stock, bonds and cash," Perry said. "The E. W. Scripps estate controls the United Press through ownership of 51 per cent of the stock. Part of this stock is claimed by the James Scripps estate and it follows that complete control will be lost if any part of the United Press stock is taken.

"Stock in other enterprises and newspapers will be affected in the same way.

"It is quite possible that attorneys for the E. W. Scripps estate will accept the claim as it is filed in probate court. If they reject it, the case will be taken into the federal court in the southern district of Ohio."

Perry, who was national counsel and associate of James Scripps for more than 12 years, is the only attorney so far representing the James Scripps estate. Newton D. Baker, secretary of war under the Wilson administration, and Thomas Sidle, his partner, are attorneys for the E. W. Scripps estate.

The filing of the claim today was the first official notice given the E. W. Scripps estate that such action was contemplated, Perry said.

## $25,000 DAMAGE IN LORAIN FIRE

LORAIN, Ohio, Aug. 10.—A $25,000 blaze swept the Merit Auto Painting company here early today. The origin of the fire was unknown. One of the employes was overcome by smoke and removed to a hospital.

# REPORTS FROM STOCK MARKET

NEW YORK, Aug. 10.—Wall street and the stock market displayed considerable nervousness in the early trading today over the $86,000,000 increase in brokers, loans reported by the Federal Reserve bank of New York after the close of Monday's marmet. This looked like anothre unwieldly expansion in margined purchases of the high-priced speculative stocks. And selling orders in large volume awaited the resumption of trading.

Losses were most severe in the industrial stocks which have been leading the upward procession in recent weeks. On a "split opening" General Motors appeared on the tape for the first sale of a block of 18,000 shares at 219 to 211½, a decline of 10½ from Monday's close. The stock receivered to above 218 where transactions were in huge volume.

United States Steel declined to 152⅞, but promptly righted itself and recovered to above 153. Very favorable forecasts were made of the volume of forward orders to be reported by the corporation at noon today and offerings of the stock were well absorbed. Du Pont, Cast Iron Pipe and other market leaders were under pressure and declined 1 to 6 points.

Reports that the Standard Oil company of New Jersey would make no change in the dividend rate of the ing and market weakness of that stock accompanied further heavy sellstock, which dropped an additional point to 42. Another 26,000—barrel lost week, reported by the oil and daily increase in crude oil production gas journal, was sufficient to cause some unsettlement in the independent oils, though losses were mostly fractional. Rails were irregular and tobacco stocks strong.

# FOUR PRIESTS ARE SLAIN IN MEXICAN CLASH

## Several Citizens are Wounded in Church-State Dispute.

## 43 CAPTURED

## Conflict Between Catholics and Calles Hopelessly Deadlocked.

MEXICO CITY, Aug. 10.—Four priests were killed, several citizens wounded, and 43 taken prisoner in a clash between Catholics and soldiery at Aguayo, in the state of Michoacan, the Mexican Catholic Episcopate announced today.

Details of the riot were lacking. The dispatch did not state whether any of the soldiers were injured.

The conflict between the Catholic church and the government appeared hopelessly deadlocked today. All efforts at mediation have ceased following President Calles' repeated rebuff of well meaning intermediaries, both from within the government and without.

Pastors of Protestant churches in Mexico City have appealed to the American embassy to prevent an inventory of objects within the buildings which government agents are seeking to take as a preliminary step toward their nationalization.

**Tightening Economical Boycott.**

At the embassy it was stated that no opinion would be hazarded pending instructions from the state department. However, it is regarded as significant here that the American ambassador and the British minister, Esmond Ovey, conferred at length yesterday. The British minister has already forwarded a note of protest to the Mexican government.

The movement among lay Catholics for a tightening of the economic boycott gained ground today with the circularizing of the city by various Catholic organizations.

"The theaters and movies are deserted," one circular declared. "Ten million pesos have been withdrawn from the banks. Paper money is a complete failure. Each holder of paper bills is rushing to exchange them for gold.

"The Catholics are warned not to believe the daily press, as it is controlled by the crom. Six thousand automobiles have been retired from operation. The boycott in Pueblo. Jalisco, Michoacan, Guerrero and other states is a success."

## DEMPSEY REFUSED BOXING LICENSE

NEW YORK, Aug. 10.—The license commission of the New York State boxing board today refused to grant a license to Jack Dempsey, world's heavyweight champion, thereby preventing Tex Rickard from going ahead with his plans for a fight between Gene Tunney, ex-marine, and the champion. Rickard had planned to stage the fight at the Yankee stadium September 16.

## Light Vote in City

(Continued from Page One)

state's spotlight with the scramble for the Republican nomination for governor by 11 men and one woman.

Judge Florence Allen wound up her campaign with a speech last night at Newark, in which she stated she was running for the senate because she was "interested in good government and a square deal for everybody."

"I am hopeful of victory," she said, "but I would rather lose the nomination with the support I have than win with other support."

Miss Susan Rebhan, manager of Miss Allen's campaign, exuded optimism.

"We have better than an even break," she said. "I am counting on carrying Franklin, Cuyahoga, Summit, Crawford, Wayne and Lucas counties."

**Pomerene's Personal Expenses $100.**

The colorful bachelor girl who at the age of 42 was justice of the supreme court, spent only $8,000 during her campaign, Miss Rebhan said.

Ex-senator Pomerene had little to say today.

"I will not discuss my campaign expenses," he stated, "but you can tell the voters that—that my personal expenses will not exceed $100."

Pomerene refused to comment on his chances to beat Miss Allen.

"I have not been campaigning myself outside of a few letters which I have written. I am content to abide by the verdict of the people."

**Drys Support Cooper.**

Judge Allen, who was born at Salt Lake City, Utah, but raised in Ohio, is a pronounced "dry." At Newark last night she told of the plank she would take to the senate if elected:

"Enforcement of prohibition; outlawing of war; reduction of tariffs; a square deal for the farmer and membership in the world court."

If Judge Allen beats Pomerene and Meyers Cooper of Cincinnati wins the Republican gubernatorial nomination, the drys will have scored a great victory in Ohio.

Cooper was generally believed to have the best chance of the 12 Republican aspirants. He is president of the Ohio Council of Churches, has the support of the Anti-Saloon league and the endorsement of the Republican machine in Cleveland. His most dangerous opponents are Joseph Seiber, Akron attorney; Harry Day, state treasurer, and Thad Brown, secretary of state.

Governor Vic Donahey was expected to walk away again with the Democratic gubernatorial nomination.

In the Republican senatorial race, Senator Frank B. Willis was seeking renomination against six other candidates.

**Candidates Await Result.**

COLUMBUS, O., Aug. 10.—Ohio went to the polls today to make her first selection of those who will rule the state during the coming two years. She voted at a primary that will no doubt result in a light vote, to select the Republican and Democratic standard bearers for the November election.

Eighteen condidates will be nominated for the eight major offices of the state while thousands of others will be named to be on the November ballots in the congressional and senatorial districts, counties, municipalities, villages and townships.

After a pre-primary campaign of several weeks that were marked by intense interest in some sections, complete lack of enthusiasm in others—while in still the third class mediocre felling for those who seek the honors of representing their fellow citizens was expressed, the candidates waited.

**Fair Vote in Home Counties.**

From the north Cuyahoga county was expected to cast fair vote while Sandusky county was planning to count a record vote for Harry S. Day, a native son, one of the dozen seeking the Republican gubernatorial nomination. Lucas county had a fight of its own, with labor highly interested.

Farther south, Stark and Summit counties divided interest, Summit probably showing a good vote with Joseph Sieber running strong, while interest in the capture of the slayer of Don Mellett took away enthusiasm in the primaries in Stark.

Franklin county started early and it was expected after the first rush, that the capitol seat would run near par. Marion county election officials expected a heavy voting because of the split there in the Republican ranks between Cooper and Sieber adherents.

**Battle in Hamilton County.**

Hamilton county and Cincinnati staged a battle of its own throughout the day with the "regulars" and "insurgents" in the G. O. P. ranks, both claiming early victory. The split between the citizens' committee and the supposed Hynicka backers aroused interest.

In the eight major races, those for United States senator and governor on the Republican side promised the hottest state-wide voting. Judge Florence E. Allen, who made a strenuous campaign, and Atlee Pomerene, who left his vote stand on his past records, were the center of interest.

The Republican nomination for governor was a toss up, in general opinion here, between Sieber, Thad Brown, Cooper and Day.

On the Democratic side it was generally felt that Vic Donahey would be renominated, despite his lack of campaigning, although A. P. Sandles was expected to show strength in the southern sections.

All in all, it was a normal primary. And while the voters went forth to make their selections, newspapers prepared to handle the usual deluge of calls and getting out of extras while state house attaches busily prepared to make the tabulations.

# DR. W. S. CARNES ROTARY GUEST

## Canton Cutlery Company President Speaks at Luncheon.

Dr. W. Stewart Carnes, president of the Canton Cutlery company, Canton, addressed members of the Rotary club at a noon-day luncheon meeting in the banquet hall of the Y. M. C. A. today. His subject was "The Romance of Carvan Steel in the Rediscovery of the Lost Art of the Old Damascus Sword Blade."

Dr. Carnes was introduced by J. D. Thompson, of the C. C. Thompson Pottery company. The speaker gave demonstrations of the hardness of steel.

Special guests were H. R. Linton, Athol, Mass.; M. W. Moore, Canton; J. A. Osborn, Cleveland; J. C. Thompson, William J. Hocking and Dr. Edward Miskall of this city. Attorney Blaine Cochran rendered a solo, "I'd Climb the Highest Mountain," and also led in the chorus singing.

Harry Watkin will be in charge of next Tuesday's luncheon meeting. The speaker will be J. J. Purinton, president of the First National bank and secretary of the Potters' Savings & Loan company.

President M. W. Thompson, Attorney Cochran, J. M. Wells and Lawrence Smith will go to Youngstown tomorrow where they will confer with members of the Youngstown club who will come to this city for a golf tournament with the local Rotarians next week. The local club will go to Youngstown for a return engagement later.

And the candidates themselves gathered in their headquarters to await the coming of the returns.

**Two Issues in Nebraska.**

OMAHA, Neb. Aug. 10.—Nebraskans cast their votes today to show their sentiments toward the two issues which have made of the present primary campaign one of the bitterest in the political history of the state—the Ku Klux Klan and prohibition.

Practically all the candidates are lined up either with the Klan and prohibition or else are out and out wets and Klan enemies.

Ex-Governor Charley Bryan, vice-presidential nominee in 1924, has no opposition on the Democratic ticket. Governor Adam McMullen, Republican, was regarded as almost certain to be renominated.

One of the hardest battles in the campaign was waged for the Republican nomination for the congressional seat in the second district in which Omaha is located, between Willis G. Sears, present congressman and W. F. Gurley, Omaha attorney. Sears has fought both Klan and prohibition while Gurley has the backing of the Klan and the drys.

The polls will close at 9:30 tonight.

**Alabama Goes to Polls.**

BIRMINGHAM, Ala., Aug. 10.—Alabama went to the polls today to nominate Democratic candidates for United States senator, governor, congress and lesser state and county officials following one of the most hectic campaigns in the state's history. The Democratic nomination is equivalent to election.

## Five Persons Die When Lightning Strikes Dwelling

UNIONTOWN, Pa., Aug. 10.—Fire caused by a bolt of lightning wiped out a family of five at Clifton Mines, W. Va., a remote settlement in the mountains 20 miles south of here, according to word received here today.

The father, Porter McKinley, and two children were fatally burned after being stunned by the lightning bolt. The mother was carried to safety, but died after giving birth to a babe, which preceded her in death.

Neighbors said that McKinley, recovering from the effects of shock, made three trips into the blazing house to rescue his family, but all were fatally burned.

## Senator Borah May Reply to "Tiger's" War Debt Letter

WASHINGTON, Aug. 10.—A vigorous reply to Georges Clemenceau's letter to President Coolidge asking for virtual cancellation of the $4,000,000,000 French war debt may be issued shortly by Senator Borah, (R) of Idaho, chief of the senate's irreconcilables.

In a message today from his home in Boise, Idaho, Borah said he did not feel able to comment effectively at this time on the letter until he has had an opportunity to study it more carefully. He indicated, however, that he would not let Clemenceau's appeal go unchallenged.

## $300,000 BLAZE IN MAINE CITY

PORTLAND, Maine, Aug. 10. — Property valued at more than $200,000 went up in smoke early today when a fire swept the Portland waterfront. Pigeons roosting on a grain company wharf gave the first alarm. Several wharfs and vessels were destroyed and the entire city threatened before the flames were brought under control.

## Philadelphia Youth Dies After His Leg Is Torn From Body

PHILADELPHIA, Aug. 10.—Basil S. Walsh, Jr., 25, local yachtman and society leader, died in a local hospital early today from injuries received during a cruise. He had been rushed here from a hospital in Wildwood, N. J.

Walsh and friends were motor-boating off Cold Springs harbor Sunday. With one of his friends at the wheel, a sudden lurch of the craft threw his left leg against the flywheel and it was nearly torn from his body.

## FIRE MARSHAL GIVES WARNING

### School Officials Urged to Correct Defects in Buildings.

School authorities should take advantage of the vacation period by correcting any conditions about the school buildings that are inimical to the safety of the pupils is the advise of the state fire marshal's department.

It is reliably stated that nine out of every ten schools are a menace to life and it is in these buildings that the children are compelled by law to spend much of their time. There have been numerous school fires in the country, the past year but luckily most of them occurred when buildings were empty.

"In the construction of new school buildings there should be no attempt to curtail cost at the expense of safety' State Fire Marshal C. L. Topping admonishes. "The main items of safety to be considered are adequate exits, an outside heating plant, electric wiring in conduit, a semi-fireproof ceiling over the basement, semi-fireproof walls and partitions around halls and stairways and an incombustible roof covering.

"Manuel training has introduced a distinct fire hazard into our schools and many school fires start in manual training rooms. Sawdust, shavings, oily waste, paints, glue pot, gasoline engines, sparking electric motors, experimenting and tampering with the electric installation are some of the hazards found in manual training rooms.

"School children are as much in the keeping of the state as are prisoners, but our jails and prisons, on the whole, offer greater safety to life than do school buildings,' continued the fire marshal.

## Tidewater Town In North Carolina Jealous of Capitol

WASHINGTON, N. C.—Washington, D. C., or Washington, N. C.?

The little tidewater town is determined that the world shall know the whole truth about the North Carolina, Washington.

Washington, N. C., automobiles now carry tags proclaiming it the "Original Washington," and giving the date of its founding in the 18th century.

And the tags are beginning to attract attention. Recently a local minister showed up in Washington, D. C., with one of the tags, and it attracted so much attention that a Washington newspaper printed a picture of the automobile and the tag.

SOFIA.—Consternation has been created among the foreign colonies and population of Turkey following the introduction of a measure by the Turkish Minister of Education that all alien teachers in future must pass an examination in the Turkish language.

Any failure to pass such an examination will mean that an alien teacher will not be allowed to teach within the Turkish domains.

This measure will affect thousands of alien teachers, in particular those of Greek, Armenian, and Bulgarian birth, as well as the American colleges.

## Tidewater Town In North Carolina Jealous of Capitol

WASHINGTON, N. C.—Washington, D. C., or Washington, N. C.?

The little tidewater town is determined that the world shall know the whole truth about the North Carolina, Washington.

Washington, N. C., automobiles now carry tags proclaiming it the "Original Washington," and giving the date of its founding in the 18th century.

And the tags are beginning to attract attention. Recently a local minister showed up in Washington, D. C., with one of the tags, and it attracted so much attention that a Washington newspaper printed a picture of the automobile and the tag.

## FARM POPULATION OF STATE DROPS

The farm population of West Virginia decreased from 477,924 in 1920 to 455,204 in 1926 according to figures just given out by the United States department of commerce. However, while the 1925 figures include only persons living on the farms themselves, the 1920 figures include those persons who, while not living on farms, lived outside the limits of an incorporated place.

The report shows an increase of 3,091 farms and while there are 1,622 less farms in the state bearing mortgages, the total value of the mortgages has risen from $11,205,953 in 1920 to $13,837,637 in 1925, bringing the ratio of mortgage debt to value of farms from 25.5 per cent in 1920 to 35.9 per cent in 1925.

The number of tractors on farms has nearly doubled since the first report but the total value of farm machinery decreased from $18,395,058 in 1920 to $15,686,848.

There was $321,408 more paid for feed last year than in 1920, but a decrease of $760,639 in the amount paid for fertilizer. The total amount paid out in wages also dropped, being $4,786,810 in 1920 and $3,761,022 last year.

In spite of the drop in the costs of running the farms, there was a decided increase in the value of farm products sold. The value of products sold cooperatively has more than trebled, there has been an increase of over 3,000,000 gallons of milk produced, and nearly a million dozen more eggs were sold in 1924 than in 1919. There were more cows and chickens last year than ever before, but less sheep and goats.

# LODGE FAMILY HOLD REUNION

### Annual Gathering Held at Kelly's Park Near Leetonia.

Descendants of Johnathan Lodge, who settled in Columbiana county in 1809, held their annual reunion at Kelly park on the Leetonia-Columbiana road Saturday.

Officers elected are: president, Frank Mossman, Leetonia; vice president, Minor Lodge, Leetonia; secretary, Bertha Waddell, Leetonia; treasurer, C. E. Lodge, Leetonia.

The 1927 reunion will be held the first Saturday in August, but the place of the reunion has not been determined.

Among those present were representatives from Detroit, Toledo, Cincinnati, Chicago and as far west as Denver. Letters were read by Charles E. Lodge from relatives in St. Louis and Kentucky, regretting their inability to attend.

Jonathan Lodge died in 1844 and his will is in the files of the office of Probate Judge Lodge Riddle. Judge Riddle read this will during the reunion, and he called attention to the funeral account filed by the executor, one item of which showed $12 having been paid to Erastus E. Eells of Lisbon as funeral expenses.

## ROAD STRETCH TO BE IMPROVED

County Surveyor Lloyd C. Kirk has been informed that the commissioners of Stark county propose to have the four-mile stretch of road betwen Mt. Union and Harrisburg improved before cold weather sets in. Contracts have just been entered into between the county and A. J. Orr of Marion for the surfacing of this piece of road on a bid of $191,180.31, or under $50,000 per mile.

The Pennsylvania railroad crosses this road, and an overhead bridge is to be built, the estimated cost of which is $49,000.

It is said that work on the new road will begin this week, according to word received by Mr. Kirk.

### Haskins Paroled.

Myron E. Haskins, who was committed to the county jail from the Municipal court at East Liverpool on a liquor charge has been parolled by the county commissioners upon the recommendation of the committing court. Haskin has agreed to pay the balance of the fine now due in monthly installments.

### Leave To File.

Leora Farmer, defendant in a divorce action filed in common pleas court against her husband Earl Farmer, has been granted 10 days by the court to file an amended cross petition and answer.

In this cause, the court has ordered Farmer to pay his wife $35 temporary alimony within 10 days and $5 per week for the support of a minor child, the latter payment to be made every two weeks.

## State Highway Bureau Appropriates $5,000 For Road Improvement

Announcement has been made by the state highway department that $5,000 of state funds have been set aside and available immediately for use on section G-3 of the East Liverpool-Youngstown road.

The department has also advised the county commissioners that it will be inpossible at this time to arrange for a conference between the state highway department and the county commissioners relative to the 1927 road program until after the next session of the state legislature.

It has been made known that numerous boards of commissioners have sought appointments for road conferences having to do with future work, but the department has announced that 1927 funds will not be available until after the legislature convenes.

So far as this county is concerned, however, there will be no change in the early 1927 road program as has been previously outlined. County, state and federal aid has already been appropriated for a major portion of the 1927 road building program, and appropriations that will be made next year will have to do with the 1927-1928 aid program, which begins July 1st.

## FREDA CUNNING GIVEN DIVORCE

A decree of divorce has been granted by Judge W. H. Spence to Freda D. Cunning of East Liverpool, against her husband, George B. Cunning. The defendant was charged with extreme cruelty and gross neglect of duty.

Cunning has been ordered to pay his wife $30 each month as alimony, and in addition has been also ordered to pay her $40 on the first of each month for the support of a minor child.

The plaintiff was represented by Cochran and Crawford of East Liverpool.

### Seeks Citizenship.

An application for his first citizenship paper has been filed with Clerk of Courts Frank Ballantine by Dionisie Popa, a native Rumania, and residing at 110 Depot street, Salem. The young man is 18 years of age and is a student. He arrived at the port of New York from France on the Olympic Sept. 25, 1923.

### Judgment Entered.

In the case of Cora E. Trotter against Wallace Trotter and others, there has been a trial to the court by consent of counsel, and judgment for $5,346.91 has been rendered in favor of the plaintiff to April 12th last. Interest on the judgment has been allowed by the court dating back to the first day of the present term of court.

### Seek To Collect Judgment.

The Peoples Savings & Loan Co., of Lisbon has filed a petition in common pleas court against J. A. Speir and Marion Speir to secure a judgment on a claim for $3,600 the amount said to be due on a note secured by mortgage given by the defendants to the plaintiff interest July 14, 1925. The foreclosure of the mortgage is sought by the plaintiff.

## East Fairfield

Mr. and Mrs. Harry Lampher and son, Rolland, and daughter, Ida May, of Leetonia, were Sunday guests of Mr. and Mrs. J. F. Rudibaugh.

# LODGE FAMILY HOLD REUNION

### Annual Gathering Held at Kelly's Park Near Leetonia.

Descendants of Johnathan Lodge, who settled in Columbiana county in 1809, held their annual reunion at Kelly park on the Leetonia-Columbiana road Saturday.

Officers elected are: president, Frank Mossman, Leetonia; vice president, Minor Lodge, Leetonia; secretary, Bertha Waddell, Leetonia; treasurer, C. E. Lodge, Leetonia.

The 1927 reunion will be held the first Saturday in August, but the place of the reunion has not been determined.

Among those present were representatives from Detroit, Toledo, Cincinnati, Chicago and as far west as Denver. Letters were read by Charles E. Lodge from relatives in St. Louis and Kentucky, regretting their inability to attend.

Jonathan Lodge died in 1844 and his will is in the files of the office of Probate Judge Lodge Riddle. Eells of Lisbon as funeral expenses.

## ROAD STRETCH TO BE IMPROVED

Orr of Marion for the surfacing of this piece of road on a bid of $191,180.31, or under $50,000 per mile.

The Pennsylvania railroad crosses this road, and an overhead bridge is to be built, the estimated cost of which is $49,000.

## State Highway Bureau Appropriates $5,000 For Road Improvement

Announcement has been made by the state highway department that $5,000 of state funds have been set aside and available immediately for use on section G-3 of the East Liverpool-Youngstown road.

The department has also advised the county commissioners that it will be inpossible at this time to arrange for a conference between the state highway department and the county commissioners relative to the 1927 road program until after the next session of the state legislature.

It has been made known that numerous boards of commissioners have sought appointments for road conferences having to do with future work, but the department has announced that 1927 funds will not be available until after the legislature convenes.

So far as this county is concerned, however, there will be no change in the early 1927 road program as has been previously outlined. County, state and federal aid has already been appropriated for a major portion of the 1927 road building program, and appropriations that will be made next year will have to do with the 1927-1928 aid program, which begins July 1st.

# Chester Topples Victory Motors In City League Clash, 6-2

## Score Every Inning As P. Bennett Holds Foe to Four Drives

### Errors by Buzzard and Mundy Aid 1925 Champions' Cause in Early Part of Game; Sainor Touched for Seven Hits by Winners.

BEFORE a throng of spectators that crowded all available accommodations, Chester, scoring in every inning, defeated the aggressive Victory Motor aggregation in a City league clash at Klondyke last evening, 6 to 2.

Darkness set in early and caused the game to end in the fifth inning.

Aided by errors by the usually reliable Buzzard and Bill Mundy, Chester took on an early advantage and timely hitting enabled the West Virginians to maintain it. The middle gardener dropped a fly at the outset of the second and Mundy an assist at the beginning of the third which resulted in later scoring.

Victory Motor had forged to the front in the first when two runs were made as against the one Chester annexed. Buzzard's muff made possible Chester's tying the count, while Mundy's miscue permitted the 1925 champs to take the lead from which they were not dislodged.

Though he made two bad throws to the bases which were not costly, P. Bennett held the opposition after the first inning when a pass and two singles were bunched for a couple of runs. He was a bit wild, walking four while he fanned three. He had a perfect day at the bat with two singles in two attempts by which he drove in a couple of runs. He allowed four safe drives.

Sainor, delivering four passes, was also a trifle wild. He permitted seven bingles and fanned two. He contributed a timely single in the first and scored the second of the two runs which his club made.

With his brace of hits Bennett led Chester at the plate and shared honors with P. Cebula and Wilde on the paths. The latter two purloined two apiece.

Tommy Sayres, former Laughlin second sacker, who has just returned from the west, batted for J. Strobel in the fifth and walked after W. Mundy had flown out to F. Marshall. Sayres yesterday was traded to Victory Motors for Outfielder Fowler, Laughlin needing a gardener.

Then V. Bailey crashed out a long fly to Wilde. Buzzard beat out an infield hit to third, but both died on the bases as Sainor fanned.

Evans, singling in the first, reached second as Heckathorne sacrificed, Sainor to C. Coleman and scored on P. Cebula's double. Wilde singled. Both runners moved upon a wild pitch, but both remained on the bags as L. McMath fanned and F. Marshall went out, Sainor to S. Coleman.

After J. Strobel had skied to C. Marshall and V. Bailey had been retired, L. McMath to Heckathorne, Buzzard drew a pass. He went to third as Sainor singled to left, the latter reaching second on the throw to the hot corner. Robinson, singling to middle, scored both runners. Baker ran for Robinson, but C. Coleman struck out.

Buzzard, after gracefully going back and camping under C. Marshall's long fly in the second, dropped it. The latter reached second as W. McMath went out, J. Strobel to W. Mundy. P. Bennett singled to left, scoring him. Evans walked and stole third after P. Bennett had been caught at third, Robinson to W. Mundy to V. Bailey. Heckathorne fanned.

P. Cebula reached first safely as W. Mundy dropped V. Bailey's assist on his drive to third. He stole second and third. L. McMath walked and purloined second after Wilde had flown to Buzzard. Both scored on F. Marshall's single to right. C. Marshall fanned. W. McMath grounded to W. Mundy.

P. Bennett, singling to middle in the fourth, went to second as Evans sacrificed, Sainor to C. Coleman. Heckathorne scored him by singling to middle. P. Cebula lined to C. Coleman, who stepped on second, completing a fast double play.

Wilde, walking in the fifth, reached second on L. McMath's sacrifice, V. Bailey to W. Mundy. He then stole third and home.

## K. T. K.-LAUGHLIN PLAY 9-9 TIE

### McCoy Club Scores Seven in Fifth to Knot Count.

K. T. K. and Laughlin battled to a tie, 9-9, in their City league combat at Newell last evening. Though the Ohioans were in the lead, 9 to 2, during the early stages of the contest their rivals scored seven runs in the final half of the fifth on five singles, two triples and a home run with two on, by Buben, and knotted up the verdict.

*Jackson had held his opponents until the final period. Then the West Virginians began to hit and there was no stopping them.*

Thomas, hurling his first game for Laughlin this year, was hit hard, a total of nine blows being made off him. Every Laughlin player hit safely and had Merchant and Rose connected, the Katies would have done likewise.

Babb had two singles in his two batting tries. Shaw had a perfect day at bat with a single, double and a sacrifice in three attempts while Simcox had a single and a triple in four efforts.

In all seven doubles, three triples and a home run were made during the engagement.

## DEMPSEY FACES COMMISSION

### Will Request Permit Today for Tunney Battle.

By David J. Walsh.

NEW YORK, Aug. 10. — Local experts on the subject of punched noses seem to be agreed that Jack Dempsey has proved he can accept a sock on his reformed beezer without distress, but the writer feels that the resistance of his profile to informal alterations must undergo its real test today.

Dempsey will approach the meeting of the New York license committee with a request for a license that will permit him to dally with Gene Tunney on September 16 and there was a hot tip on Broadway that the champion was due to walk right into a fast one. The tipsters said that Dempsey either would be denied a license outright or that his application would be tabled and I am pleased to regard the statement as the best news Dempsey has had since Firpo finally stopped getting up that night.

Given two guesses, Broadway always picks the right one on its second chance.

Anyhow, the big moment was only a few hours away this morning. Cols. Phelan and Wear, of the committee, will have to do one thing or the other. If they say no, the punch will end full on the champion's most discussed feature and the chances are that he never will be the same.

## INSIDE GOLF

By CHESTER HORTON,
Maker of 51 Golf Champions.
"Golf's most successful teacher," says "Chick" Evans.

COLLAPSE OF THE RIGHT ARM — CAUSES SOCKETING

Socketing is a fault that comes on a golfer like the flu and lasts longer usually. Instead of getting rid of it, the player usually aggravates it because of the desperate efforts he makes for a cure. This upsets his whole game. A number of things can cause socketing. One is a habit of letting the right arm collapse just as the clubhead gets to the ball instead of whipping into the ball. Another is an unconscious habit of pushing forward with the body toward the ball. This naturally pushes the clubhead outward so the ball is hit with the socket of the clubhead. If this is the cause of a case of socketing, go back to the original principle of swinging the clubhead, not the body. The best way to get back to a rhythmic swing is to begin with short swings, in practice, and gradually work up.

## LEATHERNECK OR CHAMPION?

### Jeffries Picks Dempsey; Sharkey Likes Tunney.

By Ben Stern.

CLEVELAND, Aug. 10.—"Jack Dempsey will beat Gene Tunney."

With a smile, James J. Jeffries, the "big fellow" who used to bowl 'em over in the squared arena, turned back to the mirror and adjusted his tights prior to appearing in an exhibition bout at a local theatre.

There was a roar from the next room and in jumped Tom Sharkey, the fighting tar.

"What do you mean by that, Jeff?" he snorted, "It's a lead pipe cinch for the leatherneck."

It looked for a moment that the historic battle of Coney Island of 1899 when the barrel chested tar fought the "big fellow" to a standstill in twenty rounds might be repeated. But their managers interfered and another battle was averted.

"I have three good reasons for believing Dempsey will mail Gene Tunney." Jeffries calmly explained. "First, because Dempsey is the hardest hitting fighter in action today, second, because for a big man Dempsey is fast and third because of the fact he is a titleholder."

"That's all gravy," Sharkey retorted. "The Utah cowboy hasn't had a real fight in years. He has been out of actual training for three years. That will tell. If he couldn't put away Tom Gibbons who never was a real heavy-weight contender he can't put away this boy. He let Firpo paste him through the ropes and the Argentine was the biggest clown that ever entered the ring. Carpentier nearly had him gone and the Frenchman never amounted to much. I think Tunney is faster than Dempsey."

Jeffries pointed to the psychological value of a championship title.

"More men have been defeated by the very prestige of a champion. When a challenger enters the ring against a champion he has an inner feeling that the champion must be good. I know from experience."

Sharkey denied this.

"Look at me, Jeff," he said. "When I got out of the navy no one thought I could fight. The sports writers asked: 'Who is that paluka?' But I showed them and in one year I fought Corbett, Fitzsimmons and you, all for $10,000."

Big Jeff also thinks Dempsey can beat Harry Wills.

"Wills' hands are brittle and he is not a chicken any more," Jeff said. "I got off Wills when I saw Sam Langford whip him in Los Angeles several years ago. Wills hit Langford with everything he had and then Langford knocked him for a row."

## Letter Men to Map Out Gridiron Plans

### Directors Call Session for Tomorrow Evening at 8 O'clock at High School; Will Back Coach Kidder in Move for Strong Squad.

MINDFUL of the proximity of the football training season and desiring to contribute in every manner possible, aid and backing for the 1926 high school eleven, letter men will meet Wednesday evening at 8 o'clock at the high school to take preliminary action on their part in the approaching campaign.

The meeting is called by directors of the organization, including W. E. Wells, Jr., Harry McNicol, Harvey Price, Henry and Irwin Vorndran, George Kidder, Francis Cannon, J. L. Vodrey, Colin Kinsey, Ernest Bucher and Earl Mundy.

The letter men's club, through its directors, have agreed that an early start will go far in putting the 1926 grid squad up around the top of the football world hereabouts. It is felt that with the interest of former members of the school the board of education will co-operate more fully than ever before in athletics which, it is felt will have a corresponding effect in a betterment of educational activities in general.

One of the original reasons for the club's organization was the procuring of permanent playing grounds which was brought about by the beneficience of the late Monroe Patterson in the gift to the school of what is now Patterson field.

But other details of even as great importance to the welfare and success of this year's athletes can be brought about by concerted action, the letter men feel, both by the organization and to those outside of it who have an interest in it.

**Want Stronger Schedule.**

Not the least of these is for a change in schedule which will admit of the team playing with clubs from Akron, Youngstown, Canton and perhaps other cities within the northeastern and central Ohio scope.

The failure to take on such opposition in the past, the letter men declare, probably has worked a handicap on the growth of the local aggregation. Given a superior class of competition an impetus for superior playing will follow, the directors argue. This done the following of local devotees of the game is certain to reach higher bounds and guaranteeing the financial necessities of the season, and making for an unprecedented loyalty and devotion for the school as an institution.

The further fact that one of the club's members and directors, George Kidder, is to be coach of the undergraduates this year lends to the appropriateness of every former student lending encouragement to the 1926 eleven. To succeed this fall will thus have a double meaning for the city for coach and players will all be home lads.

Kidder qualifies as the first local professional coach the high school has had with the exception of W. E. Wells, Jr., who in 1914 served in this capacity, although not professionally employed, and Ernest Bucher, acting in a similar capacity.

With the meeting of tomorrow it is genuinely felt by proponents of the club backers that crystallization of enthusiasm will reach such dimensions as to overcome obstacles in the way for a successful season.

Those who were members of the letter men's club in 1924 and 1925 are still considered as part of the organization and are expected to attend the conference.

# Chester Topples Victory Motors In City League Clash, 6-2

## Score Every Inning As P. Bennett Holds Foe to Four Drives

### Errors by Buzzard and Mundy Aid 1925 Champions' Cause in Early Part of Game; Sainor Touched for Seven Hits by Winners.

BEFORE a throng of spectators that crowded all available accommodations, Chester, scoring in every inning, defeated the aggressive Victory Motor aggregation in a City league clash at Klondyke last evening, 6 to 2.

Darkness set in early and caused the game to end in the fifth inning.

Aided by errors by the usually reliable Buzzard and Bill Mundy, Chester took on an early advantage and timely hitting enabled the West Virginians to maintain it. The middle gardener dropped a fly at the outset of the second and Mundy an assist at the beginning of the third which resulted in later scoring.

Victory Motor had forged to the front in the first when two runs were made as against the one Chester annexed. Buzzard's muff made possible Chester's tying the count, while Mundy's miscue permitted the 1925 champs to take the lead from which they were not dislodged.

Though he made two bad throws to the bases which were not costly, P. Bennett held the opposition after the first inning when a pass and two singles were bunched for a couple of runs. He was a bit wild, walking four while he fanned three. He had a perfect day at the bat with two singles in two attempts by which he drove in a couple of runs. He allowed four safe drives.

Sainor, delivering four passes, was also a trifle wild. He permitted seven bingles and fanned two. He contributed a timely single in the first and scored the second of the two runs which his club made.

With his brace of hits Bennett led Chester at the plate and shared honors with P. Cebula and Wilde on the paths. The latter two purploined two apiece.

Tommy Sayres, former Laughlin second sacker, who has just returned from the west, batted for J. Strobel in the fifth and walked after W. Mundy had flown out to F. Marshall. Sayres yesterday was traded to Victory Motors for Outfielder Fowler, Laughlin needing a gardener.

Then V. Bailey crashed out a long fly to Wilde. Buzzard beat out an infield hit to third, but both died on the bases as Sainor fanned.

Evans, singling in the first, reached second as Heckathorne sacrificed, Sainor to C. Coleman and scored on P. Cebula's double. Wilde singled. Both runners moved upon a wild pitch, but both remained on the bags as L. McMath fanned and F. Marshall went out, Sainor to S. Coleman.

After J. Strobel had skied to C. Marshall and V. Bailey had been retired, L. McMath to Heckathorne, Buzzard drew a pass. He went to third as Sainor singled to left, the latter reaching second on the throw to the hot corner. Robinson, singling to middle, scored both runners. Baker ran for Robinson, but C. Coleman struck out.

Buzzard, after gracefully going back and camping under C. Marshall's long fly in the second, dropped it. The latter reached second as W. McMath went out, J. Strobel to W. Mundy. P. Bennett singled to left, scoring him. Evans walked and stole third after P. Bennett had been caught at third, Robinson to W. Mundy to V. Bailey. Heckathorne fanned.

P. Cebula reached first safely as W. Mundy dropped V. Bailey's assist on his drive to third. He stole second and third. L. McMath walked and purloined second after Wilde had flown to Buzzard. Both scored on F. Marshall's single to right. C. Marshall fanned. W. McMath grounded to W. Mundy.

P. Bennett, singling to middle in the fourth, went to second as Evans sacrificed, Sainor to C. Coleman Heckathorne scored him by singling to middle. P. Cebula lined to C. Coleman, who stepped on second, completing a fast double play.

Wilde, walking in the fifth, reached second on L. McMath's sacrifice, V. Bailey to W. Mundy. He then stole third and home.

## START LEAGUE GAMES EARLIER

Games in the City Industrial League will begin hereafter at 5:45 o'clock, according to announcement today by circuit officials.

This action is taken in order to enable clubs to play out at least five innings or more, inasmuch as the daylight is growing shorter.

The change in starting time will give the teams a 15-minute advantage.

## K. T. K.-LAUGHLIN PLAY 9-9 TIE

### McCoy Club Scores Seven in Fifth to Knot Count.

K. T. K. and Laughlin battled to a tie, 9-9, in their City league combat at Newell last evening. Though the Ohioans were in the lead, 9 to 2, during the early stages of the contest their rivals scored seven runs in the final half of the fifth on five singles, two triples and a home run with two on, by Buben, and knotted up the verdict.

Jackson had held his opponents until the final period. Then the West Virginians began to hit and there was no stopping them.

Thomas, hurling his first game for Laughlin this year, was hit hard, a total of nine blows being made off him. Every Laughlin player hit safely and had Merchant and Rose connected, the Katies would have done likewise.

Babb had two singles in his two batting tries. Shaw had a perfect day at bat with a single, double and a sacrifice in three attempts while Simcox had a single and a triple in four efforts.

In all seven doubles, three triples and a home run were made during the engagement.

## DEMPSEY FACES COMMISSION

### Will Request Permit Today for Tunney Battle.

By David J. Walsh.

NEW YORK, Aug. 10. — Local experts on the subject of punched noses seem to be agreed that Jack Dempsey has proved he can accept a sock on his reformed beezer without distress, but the writer feels that the resistance of his profile to informal alterations must undergo its real test today.

Dempsey will approach the meeting of the New York license committee with a request for a license that will permit him to dally with Gene Tunney on September 16 and there was a hot tip on Broadway that the champion was due to walk right into a fast one. The tipsters said that Dempsey either would be denied a license outright or that his application would be tabled and I am pleased to regard the statement as the best news Dempsey has had since Firpo finally stopped getting up that night.

Given two guesses, Broadway always picks the right one on its second chance.

Anyhow, the big moment was only a few hours away this morning. Cols. Phelan and Wear, of the committee, will have to do one thing or the other. If they say no, the punch will end full on the champion's most discussed feature and the chances are that he never will be the same.

## INSIDE GOLF

By CHESTER HORTON,
Maker of 81 Golf Champions.
"Golf's most successful teacher," says "Chick" Evans.

COLLAPSE OF THE RIGHT ARM — CAUSES SOCKETING

Socketing is a fault that comes on a golfer like the flu and lasts longer usually. Instead of getting rid of it, the player usually aggravates it because of the desperate efforts he makes for a cure. This upsets his whole game. A number of things can cause socketing. One is a habit of letting the right arm collapse just as the clubhead gets to the ball instead of whipping into the ball. Another is an unconscious habit of pushing forward with the body toward the ball. This naturally pushes the clubhead outward so the ball is hit with the socket of the clubhead. If this is the cause of a case of socketing, go back to the original principle of swinging the clubhead, not the body. The best way to get back to a rhythmic swing is to begin with short swings, in practice, and gradually work up.

## LEATHERNECK OR CHAMPION?

### Jeffries Picks Dempsey; Sharkey Likes Tunney.

By Ben Stern.

CLEVELAND, Aug. 10.—"Jack Dempsey will beat Gene Tunney."

With a smile, James J. Jeffries, the "big fellow" who used to bowl 'em over in the squared arena, turned back to the mirror and adjusted his tights prior to appearing in an exhibition bout at a local theatre.

There was a roar from the next room and in jumped Tom Sharkey, the fighting tar.

"What do you mean by that, Jeff?" he snorted, "It's a lead pipe cinch for the leatherneck."

It looked for a moment that the historic battle of Coney Island of 1899 when the barrel chested tar fought the "big fellow" to a standstill in twenty rounds might be repeated. But their managers interfered and another battle was averted.

"I have three good reasons for believing Dempsey will mall Gene Tunney." Jeffries calmly explained. "First, because Dempsey is the hardest hitting fighter in action today, second, because for a big man Dempsey is fast and third because of the fact he is a titleholder."

"That's all gravy," Sharkey retorted. "The Utah cowboy hasn't had a real fight in years. He has been out of actual training for three years. That will tell. If he couldn't put away Tom Gibbons who never was a real heavy-weight contender he can't put away this boy. He let Firpo paste him through the ropes and the Argentine was the biggest clown that ever entered the ring. Carpentier nearly had him gone and the Frenchman never amounted to much. I think Tunney is faster than Dempsey."

Jeffries pointed to the psychological value of a championship title.

"More men have been defeated by the very prestige of a champion. When a challenger enters the ring against a champion he has an inner feeling that the champion must be good. I know from experience."

Sharkey denied this.

"Look at me, Jeff," he said. "When I got out of the navy no one thought I could fight. The sports writers asked: 'Who is that paluka?' But I showed them and in one year I fought Corbett, Fitzsimmons and you, all for $10,000."

Big Jeff also thinks Dempsey can beat Harry Wills.

"Wills' hands are brittle and he is not a chicken any more," Jeff said. "I got off Wills when I saw Sam Langford whip him in Los Angeles several years ago. Wills hit Langford with everything he had and then Langford knocked him for a row."

# Chester Reserves Defeat Pughtown Boosters Club, 9-1

The Chester Reserves added another to their string of victories when they walloped the Pughtown Boosters by a 9-1 count.

The game was fast and hard fought at the start, but Chester gradually drew into the lead and a prolonged fifth inning in which Chester scored four runs, caused the game to be called on account of darkness. The Reserves ran the bases almost at will.

Their next contest is scheduled with Smiths Ferry at Smith field, Chester, Wednesday.

# Chester Reserves Defeat Pughtown Boosters Club, 9-1

The Chester Reserves added another to their string of victories when they walloped the Pughtown Boosters by a 9-1 count.

The game was fast and hard fought at the start, but Chester gradually drew into the lead and a prolonged fifth inning in which Chester scored four runs, caused the game to be called on account of darkness. The Reserves ran the bases almost at will.

Their next contest is scheduled with Smiths Ferry at Smith field, Chester, Wednesday.
